Our Proud Toppers of Semester-1 (AY 2022-23)

**Dhruv Kumar**
Div E
CGPA 9.27
Subject topper in
Engineering Mechanics

Upasana Singh
Div E
CGPA 9.14

Aditya Jitendra Savale
Div I
CGPA 9.09
Subject topper in
Engineering Mathematics-I

Nikita Bharat Warule
Div C
CGPA 9.00
Subject topper in
Systems in Mechanical
Engineering & Basic Electrical
Engineering

Tanmay Jainder Kunjir
Div H
CGPA 8.95
Subject topper in
Engineering Chemistry

Mugdha Shrirang Zope
Div C
Subject topper for
Engineering Physics

Mayur Subhash Rajgude
Div H
Subject topper for
Basic Electronics Engineering

Gayatri Vilas Patil
Div G
Subject topper for
Programming & Problem Solving

National Award & Recognition

Ms. Janvi Muralimohan Adam from 'I' division has made our institute proud with her achievement in the 'Eduno International Olympiad 2022' which is a National level Scholarship Examination. It is a significant achievement to have qualified for this prestigious examination with a certificate of merit & medal, and we are confident that her hard work and dedication will continue to pay off as she moves forward in her studies. A certificate of merit was also provided to Ajeenkya D Y Patil School of Engineering for her esteemed participation and impressive achievement.

Our dignitaries congratulating Janvi for her achievement

Student Internships:

Ms. Upasna Singh from 'E' division was an active participant of the Women Engineers (WE) Program and she has participated in Bootcamp 2023. Women Engineers (WE), a 24-month immersive and LIVE online learning experiential program offered by Talent Sprint and supported by Google, selects, trains, and nurtures deserving first-year women engineering students to become world-class software engineers. So far, 37 students from the first 2 cohorts of this program have made it to full-time software engineering roles at Google.

A physical Bootcamp was conducted to give an immersive hands-on experience to the participants. The Bootcamp was conducted from June 03 to June 23 2023 at Hyderabad, Telangana. The bootcamp covered self-learning skills, computational and analytical skills, clean-coding techniques, modern programming languages like Haskell and Elixir working on projects in teams, and Corporate Skills. She gained an incredible experience interacting with peers from 70+ different colleges, and collaborating on different projects as a team, along with professional and personal development, on a path to becoming world-class software engineer.

Upasna Singh at Bootcamp, Hyderabad

Chinthan Shashidhar Udyawar from 'G' division successfully completed his internship with 'DigiGrow Hub' from 1st April 2023 to 31st May 2023. During the period, he worked as a Data Science and Machine Learning Intern in the company and gained useful information in this field which will be helpful for him in campus placements.
