Vision

Empowerment through quality technical education

Mission

M1: To achieve excellence in teaching, learning and research

M2: To impart skill-based education to meet the needs of industry and Society

M3: To excel as a center of excellence in technical education

M4: To inculcate social & ethical values among the students

Quality Policy

We strive to impart the quality technical education through academic excellence and provide best of facilities to satisfy the need & expectations of the students & stakeholders.

5. Quality Initiatives by IQAC – 2024-25

The prime task of the IQAC is to develop a system for conscious, consistent, and catalytic improvement in the overall performance of the Institute. The work of the IQAC is the first step towards internalization and institutionalization of quality enhancement initiatives.

- 1) NEP Awareness, Orientation, and Sensitization
- 2) Drafted 3 Policies, Revised 2 SoPs, and 1 Process Manuals
- 3) Academic Calendar 2024-25
- 4) AQAR Activity Calendar 2024-25
- 5) IQAC Plan of action 2024-25
- 6) NBA Action Plan: Strengthening the process
- 7) Regular Review Meetings

6. Teaching-Learning Reviews

- Adherence to the Institute Academic Calendar is in line with the University Academic Calendar.
- Adherence to Department Academic Calendar 2024-24.
- Adherence to the Institute's Teaching-Learning Policy.
- Regular meetings of the academic monitoring committee to review the progress with corrective actions.
- Use of ICT tools in teaching-learning to improve the learning experience.
- Daily Monitoring of academic sessions & mentoring system.
- Monthly Academic Progress Report & Planning for syllabus coverage.
- Extra/Remedial classes were conducted to improve the result.
- Unit Tests/Assignments and Continuous Internal Assessment (CIE).
- Students' Centric Methods such as Experiential Learning, Participative Learning, and problem-solving methodologies used through the best practices I & II.
- In semester & and semester Examination Result analysis and corrective actions.
- 319 students enrolled in Certificate/Value added courses and also completed online courses of MOOCs, SWAYAM, NPTEL
- Final years UG & PG students passed the University examination on the first attempt during the A.Y. 2024-25
- CO-PO-PSO Mapping and attainments.
- Feedback Mechanism with corrective actions for improvement in student-centric curriculum delivery & its transactions.

7. Outcome attainment under OBE:

- Mapping & Attainment of CO-PO-PSO
- Course Exit Survey,
- Program Exit Survey.
- Received OBE Ranking 2025 with A+ Grade
- Progressive increment in employability during the AY 2024-25.
- Technology & AI education Ranking 2025.

13.NEP 2020 Orientation & Sensitization

1] Multidisciplinary/Interdisciplinary:

Dr. D.Y. Patil School of Engineering (DYPSOE) is affiliated to Savitribai Phule Pune University (SPPU). Institute has been moving toward interdisciplinary and multidisciplinary courses in preparation of NEP 2020. The institute follows to the SPPU's credit-based curriculum. The SPPU curriculum cover a variety of multi/interdisciplinary aspects. Audit courses are available in every discipline on topics including road safety, ethics and environmental sustainability etc.

Institute took a special effort to encourage both faculty and students to conduct multi/interdisciplinary research. With the use of project- or problem-based learning (PBL), institute encourages students to discover problems that call for an interdisciplinary or multidisciplinary response.

Institute encourages students to undertake sponsored projects in their final year that focus on real-world problems and take an interdisciplinary or multidisciplinary approach to finding a solution. Additionally, institute encourages students from other departments to create multidisciplinary projects in the form of robotics and IOT based models, solar vehicle models, and hybrid vehicle models so that they can compete in national and international challenges.

As part of active involvement in various student club activities, students gain knowledge of interdisciplinary concepts and use that knowledge to in developing interdisciplinary projects. Students compete in project competitions at the national and international levels, such as the Smart India Hackathon. In their third year of undergraduate study, students do industrial internships. While on the field, the interns receive automatic multi/interdisciplinary training.

To help students develop humanistic, ethical, social, constitutional, intellectual, and universal values, value-based interdisciplinary education is offered to them in the form of webinars, seminars, yoga classes, induction programmes, and expert lectures.

Through NSS and NCC, many activities are carried out to promote human values like as Honesty, Ethical behavior, Nonviolence, Unity, and peace. These events include Independence Day and Republic Day festivities, blood donation camps, NSS camps, and social service programmes.

Upon receiving the status of an autonomous institute, Institute will undoubtedly design multidisciplinary courses that allow for multiple entry points and exits. Institute will be glad to join the multidisciplinary HEI cluster.

2. Academic bank of credits (ABC):

Institute complies with the requirements of the affiliated university SPPU in terms of its preparedness for the implementation of the Academic Bank of Credits (ABC). The National Academic Depository, a government initiative to provide an online database for all academic awards under the Digital India Initiative. SPPU is a state university is an official member of the National Academic Depository.

All of SPPU's courses have used the choice-based credit system (CBCS), and in the process of adopting the ABC soon. As per SPPU notification, Institute has created all students' ABC IDs and a centralized database of the college students. Through this database, the academic credits that the student has earned across a variety of courses will be digitally saved so that the credit can be carried over when the student re-enters the programme in future.

3. Skill development:

Graduate attributes are defined by the AICTE as knowledge, skills, attitude, and behavior. Institute always encourage to enhance students' and faculty members' skill.

Institute faculty members are encouraged to register in certification programmes including NPTEL, STTP, FDP, and industrial training. Students are also encouraged to participate in online and offline certification courses to upgrade their knowledge and abilities. Institute has Staff welfare policy to encourage staff participation in skill development.

The institute features a well-established training and skill development cell that actively contributes to the students' strengthening of their technical concepts. During the second and third years of engineering, the institute offers technical, fundamental, and aptitude training, research methodology, and technical report writing. In the final year, value-added courses on the most recent technical advancements and prominent engineering specialties are taught by industry experts in the field to help students expand their skill sets in line with industry demands. These value-added programmes go beyond what SPPU's curriculum covers and are offered in response to student interest. To offer these advanced training programmes that are skill-based, institute has signed MOUs with various industry and institutions

like KPIT and IIT Kanpur. Institute also offered various Microsoft and Google certification courses in collaboration with the DigitalParv Social Venture Association.

As a step towards competence-based learning that aids students in the development of their fundamental competencies. Students from all departments can engage in the skill development programmes that each department runs and receive the training that most interests them.

Students who wish to create new goods, services, and procedures as well as those who want to launch their own businesses can receive effective mentoring from the Centre for Innovation, Incubation, and Entrepreneurship (CIIE). The aim of CIIE is to emerge as a Centre of Excellence in the field of Entrepreneurship Promotion to train and motivate students to transform their late ideas into viable enterprises.

4. Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course):

The institute's curriculum is designed to be taught in English, and students must take their SPPU exams in that language, although the faculty members conduct need based sessions in local languages for students who are from the ruler area.

In order to ensure difficult concept understandable, the teachers occasionally use local languages like Marathi or Hindi. Institute encourage all our students to attend online NPTEL course available on SWAYAM portal in regional languages as per their interest along with one faculty member as a mentor. When mentoring the students' group in mentor-mentee sessions or responding to academic or personal questions raised by students, regional languages are purposefully used. This promotes a comfortable, at-home atmosphere and encourages more in-depth communication.

Every day, academic sessions in institute begin with National Anthem. Various programs are organised through the student's club to inculcate Indian culture among the students.

NSS Cell celebrates Independence Day and Republic Day, birth and death anniversaries of all the Freedom Fighters and Social Workers. The institute celebrates Ganesh Ustav, ShivJayanti, Dr. Babasaheb Ambedkar Jayanti etc at large scale throughout the year.

In Youth Festival organized at SPPU at University level our students are actively participating in various cultural events and received prizes and colour coats in many events at university level.

An entire segment of the annual cultural event ETERNITY is devoted to Indian Classical Music. It highlights students' and staff members' instrument-playing abilities as well as their classical and semi-classical singing, Bharatnatyam, Kathak, and regional and folk dances etc.

5. Focus on Outcome based education (OBE):

Institute is affiliated to Savitribai Phule Pune University; hence the syllabus - curriculum is prepared by the University and institute follows it strictly. All the courses mentioned under curriculum of a particular department have course objectives and course outcomes (COs) as well as Program Outcomes (POs) as per the norms and guidelines of statutory regulatory bodies and the same is discussed with the students by the faculty. Institute has defined Program Specific Outcomes (PSO) and Program Education Objectives (PEO). The POs, PSOs and PEOs are satisfied through the teaching-learning process and the additional programs conducted at the Institute and department level.

Through the institute website, student/faculty notice boards, laboratory notice boards, posters in corridors and administrative areas, project workbooks, course files, and other means, these POs and PSOs are disseminated to teachers, students, and various stakeholders.

To fill in the gaps in the curriculum, various activities are organised and carried out at department level. The attainment of POs and PSOs is examined throughout the semester using a variety of assessment tools, such as unit tests, assignments, quizzes, etc. All courses conducted have well defined Course Outcomes (CO) by SPPU and which is mapped to POs and PSOs. Institute has developed separate CO-PO-PSO Mapping & Attainment Process Manual which is innovative and simple to use and also institute has obtained copyright from copyright office Government of India for this manual.

At the end of the semester, all departments map the course outcomes using POs and PEOs in order to improve the teaching-learning process the next semester. Thus, the Institute follows a well-defined OBE system.

6. Distance education/online education:

The Institute has classroom teaching in offline mode before pandemic. During pandemic, institute has adopted the change from offline classroom teaching to blended learning. The institution is prepared, especially during pandemic situations and teaching learning process through different online modes. In pandemic Learning management system (LMS), Google Classroom, Microsoft Teams are effectively used for course conduction and evaluation process. All course contents are available on Microsoft Teams including academic calendar, syllabus, PPTs and notes. The assessments of the courses are done through online assignments, quizzes. The MCQ tests are conducted using LMS Moodle platform. Online sessions are conducted and recorded on Microsoft Teams. Various student activities are conducted online using Microsoft Teams and Goggle meet.

14. Plan of action for next academic year (2025-26)

The institute plan of action for the next academic year 2024-25 includes the following:

1. *Implementation of NEP 2020: First Year (Engineering Science)*
2. *Compliances regarding NAAC-Cycle 2 & Various Audits.*
3. *Preparation for NBA & Autonomy.*
4. *To strengthen the liaison among the stakeholders like students, teachers, parents, and employers.*
5. *To strengthen alumni relationships and engagement.*
6. *To strengthen industry linkages and collaboration.*
7. *To initiate 4N's action plan for NEP, NAAC, NIRF, and NBA*
8. *To develop an appraisal system to appreciate students, teaching, and non-teaching staff.*
