✓ **Details about an Event:**

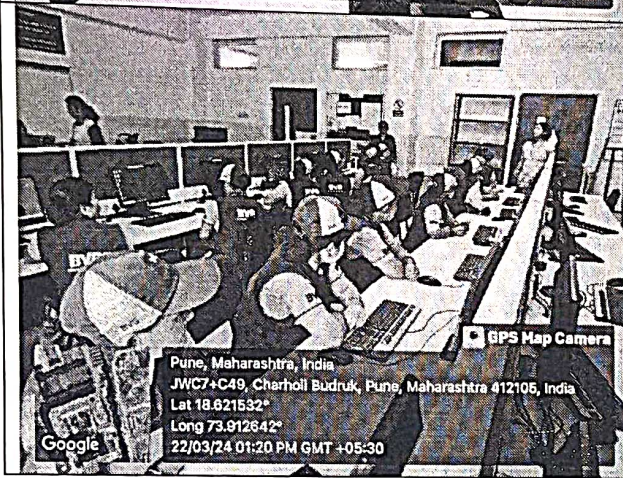

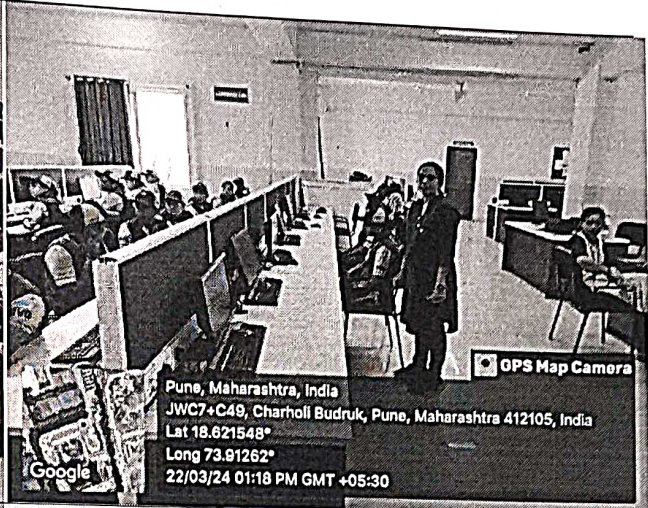

Ajeenkya D. Y. Patil School of Engineering, Lohegaon, Pune conducted offline event on topic name "An event on Basic computer literacy for rural Women" for benefit of womens who don't have basic information of computers.

The main objective of this event is Computer Awareness, knowing about the computers - how they work, how they help to solve problems of today's world. This can be learnt by seeing pictures, visiting computer centers, listening to talks or written reports etc. It makes an understanding of what a computer is how it works and the role and impact of computers in society. Computer Awareness is widely known, although the majority of both children and adults. In industrialized countries they do not know exactly what a computer is nor how to use. The concept is known because the majority of people has seen computers and is aware of the fact that in the very near future they will need to overcome their own "Unaware".

To instigate with, each points and explanation given by speaker were valuable which reached to the mind of listener. It was really productive events for the participants. Expectedly, this event worked well because some feedback we got for arranging such events in future. Some of the points even made us think about the facts. There was so much talent within rural womens which shown interest for such program as it seen from some participants and guest question and answer session. Some of participants really very eager to learn new things about computer. My deepest gratitude to Dr. Kamaljeet Kaur, Dr. F. B. Sayyad and HOD F.E. Dr. S. M. Khairnar for giving me such opportunity for benefiting rural area womens.

**Details of the event:**

Saturday, 21/10/2023 second year students along with Head of Department-Prof.Bhagyashree Dhakulkar and faculty members of Artificial Intelligence and Data Science Engineering department, visited Dnyandeep Balgruh, Dighi.

The main objective of this visit was to sensitize and make students aware about the underprivileged children and to inculcate the feeling of sympathy among students. This activity helps students to understand that they have larger responsibility towards the society and its wellbeing other than their own studies and career progression.

The kids of the Orphanage greeted us with great enthusiasm, students met the caretaker of orphanage and while interacting with the caretaker we got to know about History and establishment of the Orphanage. Also they have showcased the achievements of the students in which they have won various prizes/awards.

After that student volunteers distributed the snacks to the children. The students interacted with the children. They also engaged them with various games and fun activities. All the children were so excited and joyful.

The team spent about three hours with the children before saying goodbye to them. A total of 50 students participated in the program

After their own studies and career progression.
