Solid waste management:

The waste is segregated at source. There is a solid waste disposal arrangement in the premises at Technical Campus level. Small dust bins have been kept on all appropriate locations in Campus like in each classroom, administrative building, and library buildings and in toilets. These small dust bins are emptied daily in bigger dust bins kept on each floor near toilet Blocks. The waste from big sized dustbins are taken alternate days by PCMC.

Collection of solid waste treatment system in the Technical campus

Biogas Plant for Biodegradable Waste

2. Liquid Waste Management
