

**The Annual Quality Assurance Report (AQAR) of the IQAC**  
*(For Affiliated/Constituent Colleges)*

Institutions Accredited by NAAC need to submit an Annual self-reviewed progress report i.e. Annual Quality Assurance Report (AQAR) to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the IQAC at the beginning of the Academic year. *The AQAR period would be the Academic Year. (For example, July 1, 2017 to June 30, 2018)*

<b>CRITERION I – CURRICULAR ASPECTS</b>
---

<b>1.1 Curriculum Planning and Implementation</b>
---

1.1.1 Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words DYP SOE develops and practices its teaching and learning plan of action for effective implementation and delivery of the curriculum through the well-defined processes. The institution follows the curriculum Recommended by Savitribai Phule Pune University. Before commencement of semester director conducts a meeting with all the Head's of department for effective implementation of the curriculum. In turn, Head's of Department conducts the meeting with the faculty members to discuss the teaching load distribution, academic calendar, timetable, preparation of subject course resources, planning of industrial visits, expert guest lectures, Co-curricular and extra Co-curricular activities. The students are also informed in advance about the curriculum and semester academic calendar through notice-boards and on website. The execution model of teaching and learning is shown below in figure 1.1.1 For effective implementation of the curriculum, the following process is developed and deployed Once DYP SOE receives the academic calendar from SPPU, Internal academic calendar is prepared by each department to include academic schedules, Co-curriculum and extra Co-curriculum activities. The Timetable for the entire semester is prepared to indicate specific class and laboratory hours. Every faculty prepares a course plan for the subject handled in line with the university syllabus. Faculty prepares extensive lecture notes from university prescribed text and references. Laboratory manuals are prepared so that students can refer practical's and correlate with theory. Student's attendance for individual course has been monitored through attendance sheet. At regular intervals unit test is conducted to monitor the knowledge gain of the subjects. Academic monitoring committee regularly monitors the classes and takes regular feedback of students, staff, addresses any grievances and conveys it to the Head of the Department for corrective measures. Each faculty maintains daily attendance sheet of both theory as well as practical, projects, etc.. A Guardian Faculty Member is appointed for each batch of the class who is overall responsible for the students well being in academics. If the students are not performing well then the GFM get in touch with the parents through telephone or SMS on a regular basis. Teaching faculty feedback from students is taken
--

twice in a semester, analysis is done by the concerned authority and corrective action is taken. HOD and Academic monitoring committee conduct regular meetings to review the teaching learning process, the academic progress of the students, grievances if any, suitable remedial action are taken as and when necessary. Faculty are responsible for maintaining records of Updating lectures and attendance in ERP. Continuous progressive assessment with respect to practical / assignments/ tutorial work. Periodic unit test and re-test. Project work and its progress. These records are audited during the semester by the Head of Department and Dean Academics. It appreciates the efforts, identifies and suggests the area of improvement.

Yes	No	No	No	No	
1.4.2 How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)					
The feedback form student about the teaching learning process is taken. The frequency of taking the feedback is twice in a semester. The questionnaires' is prepared by the IQAC cell and manual feedback is taken from the students. The feedback is analysed by calculating the marks given by students for various questions of teaching and learning process. The benchmark of scoring the marks is set by HoD. If a faculty scores above the benchmark set, an appreciation letter is given to that faculty. And if the score is below the benchmark then a warning is given to faculty to improve the process of teaching. The improvement is checked in second feedback.					
<b>CRITERION II -TEACHING-LEARNING AND EVALUATION</b>

2.3.2 Students mentoring system available in the institution? Give details. (maximum 500 words)					
Yes. Objectives of mentoring: Counseling aims to identify personal issues like low self-esteem, interpersonal relationship problems, cultural differences, alcohol, drug habits, depression or suicidal tendencies. The Context: The mentor assigned to every batch of 20 to 25 students strives to understand students' academic and personal problems and also identifies those in need of extra academic coaching or personal counselling. The Practice: Regular counselling right from entry level helps our students to cope with the culture changes and also warn them of the pitfalls while dealing with urban peer pressures. The mentor encourages students to explore co and extracurricular opportunities on the campus to ensure all

### 2.5.2 Reforms initiated on Continuous Internal Evaluation (CIE) system at the institutional level (250 words)

In the beginning, at the commencement of the semester, students are informed about the academic plans and academic calendar inclusive of various activities of the department which is displayed on notice board and website before the start of the semester. Students are further made aware about the system of evaluation of term work and Project work in terms of giving internal marks based on the criteria as mentioned below.

- The evaluation process includes 75% attendance in theory and 100% in practical and the punishment to defaulters include extra assignments and other repetition of practical.
- Unit test is conducted at the end of each unit and the marks scored becomes criteria for evaluation.
- Identifying slow learners and arranging special classes for them along with defaulters.
- Allotment of extra hours for teaching difficult subjects based on the feedback of the students and judgment of the teacher.
- Active participation of students in Interactive session with industry experts during academic session where in students are offered internship to get firsthand experience of site work
- Student's participation in training and placement activities conducted at department and college level.
- Newly recruited/ junior faculty is deputed to attend FDP/STTP/workshop related to the self-sustained teaching learning model for improvement of teaching skills and upgradation of knowledge.

• Additionally maximum faculties are deputed to construction sites during vacation to keep pace with the latest construction technics and practices. This will motivate faculties for continuous improvement and perform well in our robust appraisal system.

**2.5.3 Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)**

Head of Department prepares departmental academic calendar based on institute's and SPPU's academic calendar which includes all the technical events, Guest lectures, site visits, unit tests, parent teacher meet, generation of monthly attendance report, departmental meetings, CESA activities, project presentations, co-curricular and extra co-curricular activities at department level and approves it by the Dean of academics and Director. The approved academic calendar is circulated to all the faculty and students. It is displayed and uploaded on DYPSOE website for further reference. SPPU online /Insem/Oral-Practical/TW/theory exam schedule is reflected after SPPU circular.

Since all the activities planned are included in the academic calendar, its execution is done adhering to the schedule as mentioned in the academic calendar. A special care is taken to strictly follow the examination schedule as per academic calendar.

## **2.6 Student Performance and Learning Outcomes**

2.6.1 Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution (to provide the weblink)

Yes, Institute has Student Council of the following members;

1. Chairman – Principal
2. Staff Advisor: Dean ( A)
3. President - Final Year Student
4. General Secretary - TE
5. Members ( Three) – FE & SE

The purpose of the student council @ DYP SOE is to give students an opportunity to develop leadership by organizing and carrying out various activities and representation on various administrative bodies. Every department has an active student association consisting of student members. The student members of the association are elected through interviews. The student association comprises President, Secretary, Joint Secretary, Treasurer and student council members. The association is monitored by senior faculty members who are responsible for the smooth conduct of the association meetings and events. The student association plays a dominant role in many extracurricular & co-curricular activities which includes Special Lectures by experts, Seminars, Workshops, Symposium, National Level Conference and Intercollegiate meet to develop the personality and skills of the student's ability. Eminent speakers and industrialist deliver speeches on topics relevant to current employability scenario and requirements of industry.

Student members of the associations also observe important days like National Festivals, Birth/Death Anniversaries of important leaders, International Women's Day, International Yoga Day, Sports Day, Teachers Day, Fresher's Day, Farewell Party, Joy of giving Week, World Literacy Day, etc. They also

<b>CRITERION VI –GOVERNANCE, LEADERSHIP AND MANAGEMENT</b>
<b>6.1 Institutional Vision and Leadership</b>
6.1.1 Mention two practices of decentralization and participative management during the last year (maximum 500 words)
The institution follows the decentralized administration to a considerable extent. Regular meetings are conducted with the academic and the nonacademic staff by Principal. The suggestions and opinions of the staff members are considered. HOD's are delegated with the academic and administrative work. The departmental meetings are conducted by the HOD's with the teaching staff focusing on improving the academics, co-curricular and extra curriculum activities. Various works are imparted to the faculty, timetable, teaching plans, lesson plans, course material, work dairy which is reviewed by the HOD's at the end of the month. In addition to the academic responsibility shouldered, fulltime teaching staff also takes up administrative work and are on the functional committees that cover all aspects of governance of the college. Thus, role of faculty plays a vital role in institutional achievements. As stated earlier, through participative management, the faculties are involved in various decision making bodies of the institute, such as, Local Management Committee, Internal Quality Assurance Cell, Academic Monitoring Cell and Grievance Redressal Cell. All these committees meet and the major decisions taken are to remove delays and ensure total transparency in the procurement of items.

- **Use of public transport facility**
- **Use of recycled water for gardening**
- **Use of LED light**
- **Use of ERP**

#### 7.2 Best Practices

Describe at least two institutional best practices  
Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

##### 1) Teaching Learning Process

**Objectives of the Practice:** College assesses the learning needs of every student at entry level to establish specific learning objectives, develop teaching - learning strategies and plan of action. Each student gets an opportunity to learn at his pace and pass percentage is improved.

**The Context:** Academically bright students from non-urban backgrounds are daunted by the change of culture and face adjustment issues, addiction risks and language problems which need atypical teaching methods.

**The Practice:** The teacher first introduces and discusses the topic and encourages students to share their understanding of the topic. Slow learners are thus identified during the first fortnight of theory classes. After completion of their practical, extra coaching is provided and topics taught in the class are revised. Difficult problems are initially set only for advanced learners who are encouraged to visit the library to read up journals and papers. Home assignments and class tests help to evaluate overall performance and understanding levels. Attendance is monitored regularly and only students fulfilling the 75% attendance criterion are permitted to submit feedback regarding the teaching learning process. Feedback is reviewed regularly and every teacher is motivated to do their best.

**Evidence of Success:** The results of year-wise annual examinations show a marked increase in the pass percentage from first to final year of the four year engineering course.

**Problems Encountered and Resources Required:** Time and locational disadvantage is a major constraint as remedial classes need to be conducted for slow learners while simultaneously covering the syllabus effectively for the entire class.

## 2) Counseling and Mentoring

**Objectives of the Practice:** Counseling aims to identify personal issues like low self-esteem, interpersonal relationship problems, cultural differences, alcohol, drug habits, depression or suicidal tendencies. The

**Context:** The mentor assigned to every batch of 20 to 25 students strives to understand students' academic and personal problems and also identifies those in need of extra academic coaching or personal counselling.

**The Practice:** Regular counselling right from entry level helps our students to cope with the culture changes and also warn them of the pitfalls while dealing with urban peer pressures. The mentor encourages students to explore co and extracurricular opportunities on the campus to ensure all round holistic development. Sessions are conducted during practical slots allocated in timetable. Attendance is strictly monitored, reasons for low attendance discussed and parents contacted. College conducts regular life skills and career counselling sessions, workshops for students on personality development, time management, soft skills and communication skills, engineering career options, placement opportunities, career development and professional practices. Every student is encouraged to participate in co and extra-curricular activities and sports matching with his hobbies and interests.

**Evidence of Success:** Students coming from semi-rural and rural backgrounds are groomed successfully to face on campus interviews of leading companies and industries. Our mentors have changed depression into determination to face academic and personal challenges. Students have been coaxed to work hard, overcome difficulties and achieve remarkable success.

**Problems Encountered and Resources Required:** The limited window for one on one personal interaction with students outside the classroom limits the effectiveness of all counselling and mentoring activities.

### 7.3 Institutional Distinctiveness

Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust  
Provide the weblink of the institution in not more than 500 words

<http://www.dypic.in/school-of-engineering.htm>

Institution distinctively of its vision, priority and trust, engages students and involve them to develop indigenous products. These products are critical towards achieving Academic Excellence through practice, thereby exposing students to inculcate life long learning habit. Stated below our achievements. Indigenous developed products such as Rescue System for Borewell Accident. The mechanism to rescue children trapped in unmanned/open borewell. Students develop and manufacture basic classroom products like benches, tables etc. Ambience of teamwork and life skills is learnt. Students competitive sprits are encouraged by allowing them to build and participate in competitive Go-Kart racing, touch screen, vermi culture, vermi composting, water distribution saving, convience cycle, using rubber waste for road construction, fodder seaving machine, water conservation devices.

**8. Future Plans of action for next academic year (500 words)**

In the next academic year i.e. 2018-19, the institute has planned for successful implementation of new ERP system for academic and administrative functioning of the institute. The institute has planned to achieve 95% campus placement of eligible & interested candidates with good package. The institute wants to support students in career services in all departments: this includes both student development and higher education assistance to students. The institute has set target of use of ICT in teaching-learning process by 80% of its faculties. The institute is planning to take online feedback system through ERP. The institute is planning to apply for NBA accreditation. The R&D cell is planning to strengthen the R&D activities and encouraging faculty for fetching grants from various funding agencies. The institute is planning to enhance collaboration with industry & research organization through its IIC cell. The institute has decided to actively participate in NIRF ranking. The institute has plan for development of Technology Business Incubation (TBI) canter. The institute also wants to strengthen Alumni Association & EDC Cell.
