Letter of Appreciation

We, the Computer Engineering Department at Ajeenkya. D. Y. Patil School of Engineering, Charholi (Bk) would like to take this opportunity to express our heartfelt thanks to **Prof. Sushma Shinde** for joining us as a speaker for the seminar on **" How to choose Domain for Research"** on 14th March Tuesday.

On both a professional and a personal level, we really appreciated the time that you spend together for the enrichment of Domain knowledge. Our students certainly learned a lot about choosing right domain for Research work that includes investigates a particular problem domain, determines important concepts, and creates correct and efficient representations of the objects and relations in the domain.

We once Again, thank you for conducting an enthusiastic lecture and hope will continue same in the future.

Thank You.

Report On
"Smart India Hackathon 2022"
National Level Innovation Competition

Date: Thursday, 25.08.2022 & Friday, 26.08.2022

Venue: GPCET, Kurnool, Andra Pradesh

Organizer: Mistry of Education Govt. of Indian and G. Pullaiah College of Engineering and Technology, Pasupula, Kurnool, AP.

Target Audience: Engineering Student all over the India.

As a part of **R&D** activity and to enhance the knowledge, skill and to inculcate understanding of Research & Innovation among the students, Students were encouraged to participate in National level Innovation even, "Smart India Hackathon", organized by Ministry of Education's innovation cell, AICTE, Higher Education Cell and Persistent System.

The competition started on 25.08.2022 after the nodal and central inauguration program. The students were given 36 hours of time to complete the assigned task.

There were five rounds of evaluation and three rounds of mentoring by the nodal expert review team.

The run time changes in the problem statement were floated which students were expected to complete the task till next review.

The team "Cyberian Coders" was a part of the nodal center, GPCET, Kurnool, of SIH.

Event Report

Academic Year: 2022-23 **Semester-II**

Name of the event: Details on copyrights

Date and Time	26/04/2023, Wednesday
Event Venue	Seminar Hall, Room no. 242
Organized by	Department of E&TC Engg. in collaboration with CIIE, Ajeenkya DY Patil School of Engg and IIC.
Targeted Audience	SE-A(E&TC) Students and faculties
Speaker	Dr. Sanjay koli

Event Contents:

1. Introduction
2. SE- A students & Faculties interaction
3. Details on copyrights
4. Vote of thanks

Details on copyrights seminar was scheduled on 26th of April 2023 at 11:00AM, seminar started with introduction of the speaker Dr. Sanjay Koli Sir. He interacted with SE-A students and faculties. This seminar aimed to assist writers of academic papers. Approximately 60 students and 25 faculties attended. Copyright is one form of intellectual property right and Dr. Koli Sir explained the definitions of copyrighted work and the requirements for determining something as copyrighted work according to the Copyright Act. He then went on to describe in detail the five key aspects of using copyright legally: whether or not the work is copyrighted, who the copyright holder is, what qualifies as a violation of copyright, how long the duration of copyright is, and ways for using copyrighted works. While covering these aspects, he responded to questions from the seminar questionnaire and also presented examples of copyright-related cases that were upheld or struck down in court. The question and answer session featured many questions addressing common issues at universities, such as citing sources, copying materials, and advertising events. Overall it was an interesting seminar for all the audience. Finally Prof. Narendra gave a vote of thanks.

3. Trademark registration and it's advantages
4. Vote of thanks

Trademark registration and it's advantages webinar was scheduled on 26th of April 2023 at 02:00 PM, Guest of honor for this event was Mr. Pramod Garg who is Vice president of Pune city Traders Association BJP , was felicitated by ADYPSOE college Director- Technical Campus Dr. Kamaljeet Kaur Siddhu and Principal Dr. F. B. Sayyad. Webinar then started with introduction of the speaker Mr. Amit Kumar, who is senior examiner of Trademarks and Geographical Indications. He interacted with SE students and faculties. This session was made interesting by interactive discussion about trademarks as it can be any symbol, word, phrase, design, or combination of these, that can be represented graphically. A good trademark is easy to pronounce and remember. At the same time, it is also unique and has a distinctive character. He further explained why it is important - Trademark registration is essential if you want your company, brand, product, or service to stand out from the crowd, Registering your trademark ensures that there is no lookalike impersonating your product or service in the market, eliminating the possibility of having to rebrand, Further, registering a trademark in India is crucial if you want to

protect your intellectual property and secure your rights. Approximately 60 students and 20 faculties attended this webinar in online- offline mode. He further explained advantages of Trademark registration as a distinctive trademark helps customers distinguish your products or services from your competitors. It is an important intellectual asset for a business, as it deters competitors from using similar names or logos. Additionally, trademark registration also helps customers associate visual cues with your products, thereby nurturing brand loyalty.
Finally Prof. Narendra gave a vote of thanks.

Meeting Contents:

1. Basic Data Collection
2. How to Identify Problems

Details of the meeting:

Dr. Dileep More Sir had generalized talk regarding identifying day to day problems in our lives not only technical but non-technical things oriented as well. He circulated data collection form through which basic personal information and issues were collected.

He asked students to identify daily problems and note them at the end of the day, likewise 5 major uncommon problems need to be scrutinized and mentioned on another form weekly. This would help to identify common as well as uncommon problems and find out solutions to them which would help to file patents and further can be converted into startups.

Complete working plan of CIIE has been explained in detail which will also help students to give new recent topics for PBL project, TE mini project.

Total number of participants in this workshop were 102 from SE & TE class. Basic information and their interesting activities were discussed and noted on the form circulated at last. This was a simple activity to boost their thinking power.

Overall it was an eye opener session which has changed the view to look towards simple things in order to find out innovative ideas amongst it.

A seminar on Entrepreneurship by 3Deometry Innovations LLP was scheduled on 25th of April 2023 at 10:30AM, seminar was started with introduction of the speaker Mr. Ankit Prasad who is Senior Design Engineer at 3Deometric Innovations LLP. He interacted with SE students regarding various strategies of Entrepreneurship. He explained Entrepreneurship is a process of identifying and starting a business venture, sourcing and organizing the required resources and taking both the risks and rewards associated with the venture. Entrepreneurship is a key factor for economic development. There is an increased rate of students across developed and developing countries considering the issue of self-employment. Whether you start your own company or choose to ascend the corporate ladder, maintaining the spirit of entrepreneurship all along the way is essential. This goes far beyond just making money. It is about creating value and ideas, about possessing internationally convertible leadership skills and about cultural diversity. The objective of this session was to motivate students towards entrepreneurship as it can create employment for the future generations. The lecture was organized to raise basic awareness of entrepreneurial concepts and to enable students to identify and learn how to make a mindset to take up entrepreneurship as a career. The facilitator introduced the concept of

entrepreneurship by focusing on myths related to it and the different aspects of entrepreneurship such as entrepreneurs are born not made, entrepreneur fit an ideal profile, all you need is money to be an entrepreneur, all you need is luck to be an entrepreneur and another is that great idea is the only ingredient in a recipe for business. He mentioned that the reason that people do not start their new ventures in a country like India is due to non-awareness amongst the population of India and decides to go for jobs in private or government sector so as to minimize the risk. Sir explained in detail about the various attributes of successful entrepreneurs such as drive, communication skills and technical skills. The concept was further infused with a power point presentation that spoke about the startup business in India Followed by a discussion on contemporary business environment prevailing in the country. He also highlighted names of some successful entrepreneurs like Sriram Subramanya, Rohit Bhatt, Azim Premji, Lakshmi Mittal, Dhirubhai Ambani, Sachin Bansal and Binny Bansal, Kishore Biyani and their journey towards becoming an entrepreneur. This lecture motivated the students to work hard and start a new venture through adequate forward planning and the execution of the plans. The session was an interactive one where the students were very participative and engaged in questions with the dignitary. Total 89 students attended this workshop along with 2 faculties.

Details of the event:

Department of Engineering Sciences (FE) has organized One day Seminar on "Conversion of Innovative ideas into Prototype". Guest Speaker invited for conduction of event was Dr. D. S. More, Associate Professor, ADYPSOE, Pune.

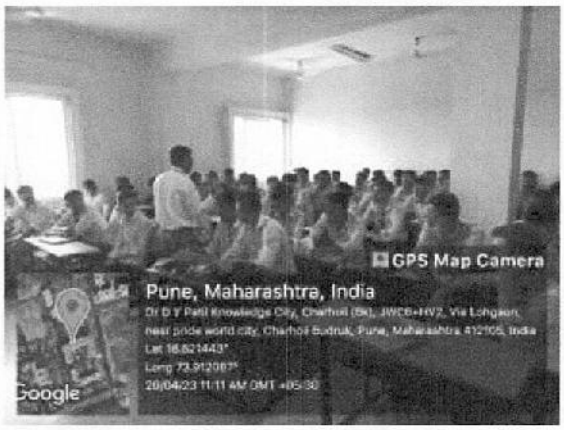

The session was started at 10:30 am with the welcome address by Dr. Shobha. Invited guest discussed in detail about the topics such as Project based learning, generation of Innovative ideas and its outcomes. He explained the Idea generation & Identification of Problems for Project. He explained various examples of project ideas & Project submitted by him under the different topics. He gave detailed guideline about Patent filling also. The seminar was concluded at 12.30 pm by a vote of thanks.

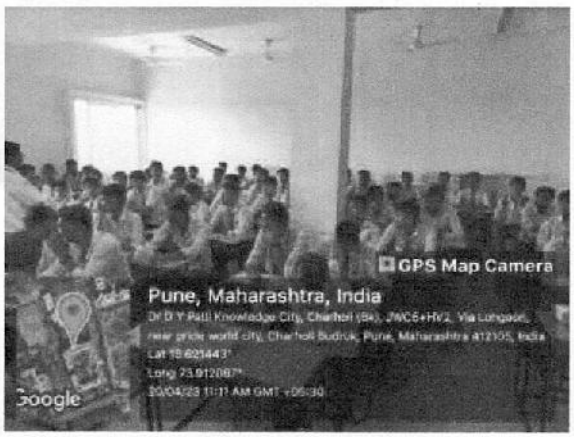

The Seminar was highly informative to students and PBL Guides. Project based learning is one of the effective, student centric learning method & it develops employability skill through participating in real work projects.

Event Report

Academic Year: 2022-23 **Semester-I/II**

Name of the event: One day workshop on **Innovative Idea Generation**

Date and Time	30 March 2023 10.00 am to 05.00 Pm
Event Venue	E&TC Seminar Hall
Organized by	**Department of Mechanical Engineering**
Targeted Audience	All Teaching Staff of ADYPSOE
Resource Person	**Dr. Dilip More** (PhD IIT Bombay)

Event Contents:

1. Problem Identification
2. Idea Generation

Objectives:

1. To create awareness of different Idea Generation Techniques to solve societal or industrial problems.
2. To create ideas through idea generation activities

Details of the event:

The **Department of Mechanical Engineering** and **Cell of Incubation, Innovation and Entrepreneurship Development (CIIE)** organized one day workshop on Innovative Idea Generation for all faculties of ADYPSOE Lohegaon. A creative idea entrepreneurship development is defined as novel way of building value into either an exciting product or new business development. It is process of solving an identical problem or gap in business environment.

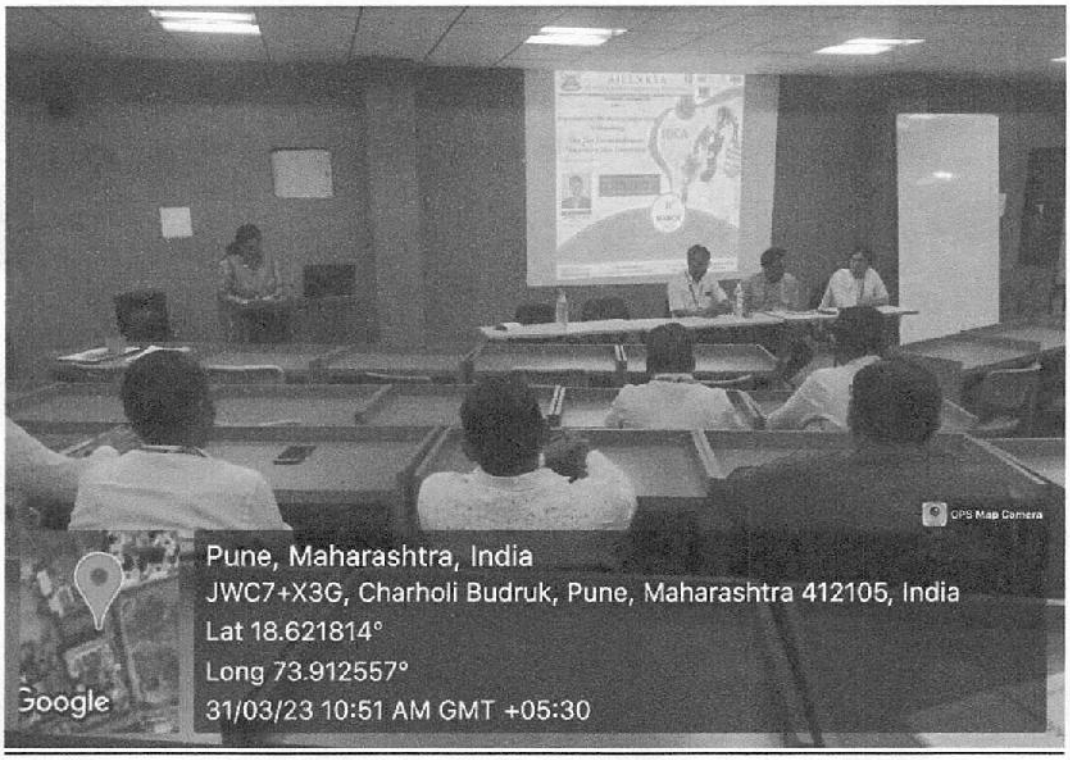

Total of 75 Staff participants attended this workshop. **Prof. Tejaswini Kulkarni** gave introduction of the speaker of the day **Dr. Dilip More** and invited him to conduct the

Details of the event:

The department of Mechanical Engineering, had organized the "**Patent is for Everyone**" for the benefit of TE, and BE Mechanical students of Ajeenkya D Y Patil School of Engineering.
Prof.Vishwajeet Kadlag was the resource person for this event.
During the formal inaugural session, Prof.Rohit Garad, HOD Mechanical, Event Coordinator welcomed the gathering and introduced resource persons to the students.
The objective of the session was to inform students and future small business owners, entrepreneurs, and innovators about the value of patents and the application procedure. Inventors who have successfully negotiated the patent system were among the knowledgeable speakers at the programme.
The event kicked up with a greeting from IPRs Head, who also stressed the significance of intellectual property protection. Gave a general overview of the many types of patents, the patent application procedure, and the significance of performing a patent search before submitting a patent application.
Aspects of USPTO (US Patent and Trademark Office) examiner for patents. The USPTO's role in the patent application process, the significance of fulfilling the patentability requirements, and the actions inventors can take to make sure their application is successful were all topics he covered.

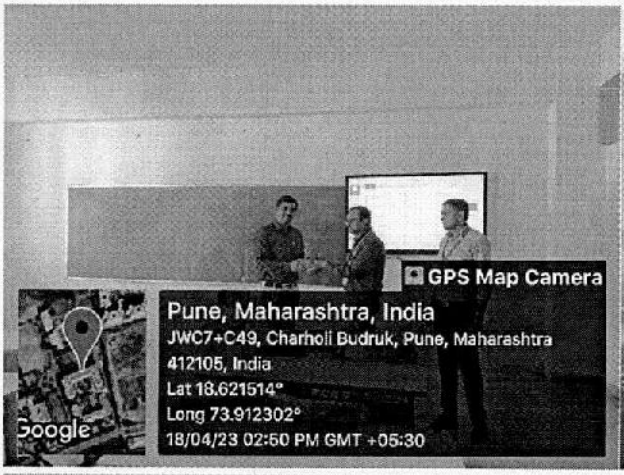

During the question-and-answer period that followed the presentations, audience members had the chance to ask the speakers about their experiences and seek guidance on matters pertaining to patents. A HoD who was moderating the discussion offered more advice and views.

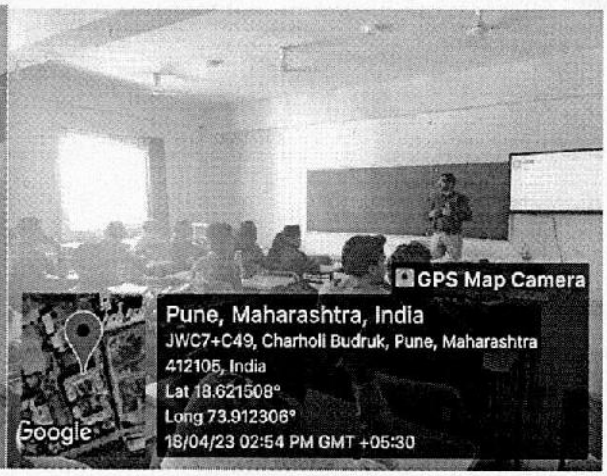

After the session, there was a networking chance for participants to mingle with the speakers and other attendees. The response from attendance was overwhelmingly favorable, and many expressed gratitude for the chance to learn about patents and the application process from professionals in the industry.

The patent awareness session was an excellent educational opportunity that gave participants a greater comprehension of the significance of patents and the patent application procedure. The event was a tremendous success because to the collaboration between students ideas, final year projects , which was very successful in bringing together start up ideas and guidance provider.

A Guest Lecture

Date: Tuesday, 09/12/2021

Venue: Online Mode on MS-TEAM

Organizer: Computer Engineering Department.

Target Audience: First Year to Final Year Students and Staff.

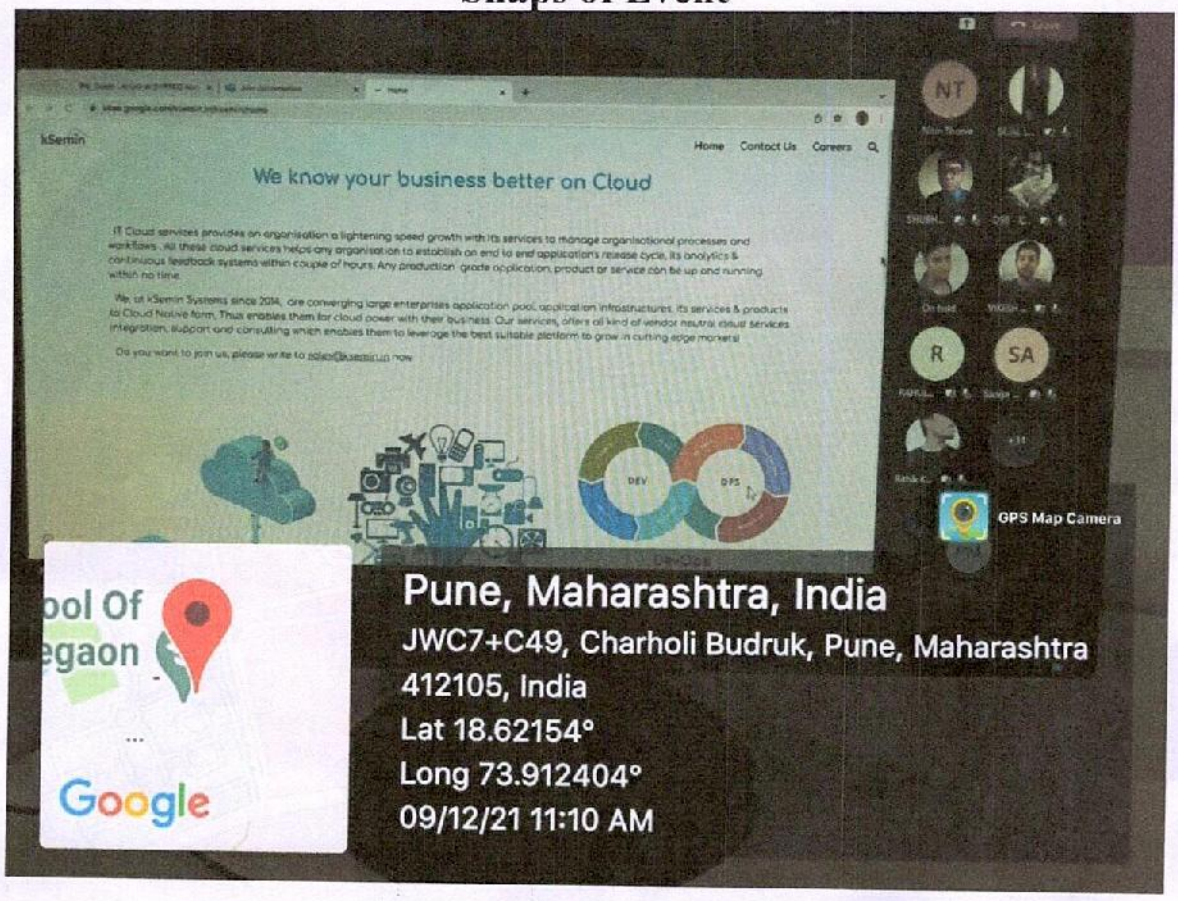

As a part of TBI cell activity and to enhance the knowledge and skill of Entrepreneur Science among the students of DYPSOE, a guest lecture was conducted.

The practical experience of setting up the startup was shared by **Mr. Nitin Thorve, MD, Ksemin Systems Pvt. Ltd, Pune**. He along with his business partner **Mr. Ganesh Kudale**, explored the possibility of getting into star-up by identifying the need of the people in society. The guest lecture also covered the issues related to marketing of the product and the legal issues to be addressed.

The feedback given by the students show that the guest lecture was really helpful for getting into own business.

Dear Nitin Sir,

Seasons Greetings!!

Hope you are doing well in this situation of pandemic and taking every possible care of self and family.

In the context of the discussion we had a week before, I ,on behalf of Dr. D Y Patil School of Engineering, Lohegoan, request you to deliver a guest lecture on ***How to become an Entrepreneur*** to enrich our students with you experience and knowledge.

The expected points to be covered in guest lecture are as follows:

1. How to think out of box and be distinct?
2. How to start our own company and the legal issues in start up?

"Research Methodology: From Innovation to Implementation"
A Guest Lecture

Date: Saturday, 11/12/2021

Venue: Online Mode on MS-TEAM

Organizer: TBI Cell, Computer Engineering Department.

Target Audience: First Year to Final Year Students

As a part of **R&D** activity and to enhance the knowledge and understanding of Research & Innovation among the students, a guest lecture was conducted.

The practical experience of how to think innovatively was shared by **Mr. Chandan Prasad, Inurture, Pune.** He took one practical case study of how to start with innovation, build architecture and then make product of the innovation idea.

The feedback given by the students show that the guest lecture was really helpful for making innovation as a practical implementation.

Event Report

Academic Year: 2021-22 **Semester-II**

Name of the event: A seminar on Entrepreneurship Development

Date and Time	22/04/2022, Friday
Event Venue	Room no. 242
Organized by	Department of E&TC Engg.
Targeted Audience	SE Students
Resource Person	Mr. Shaneel Karia

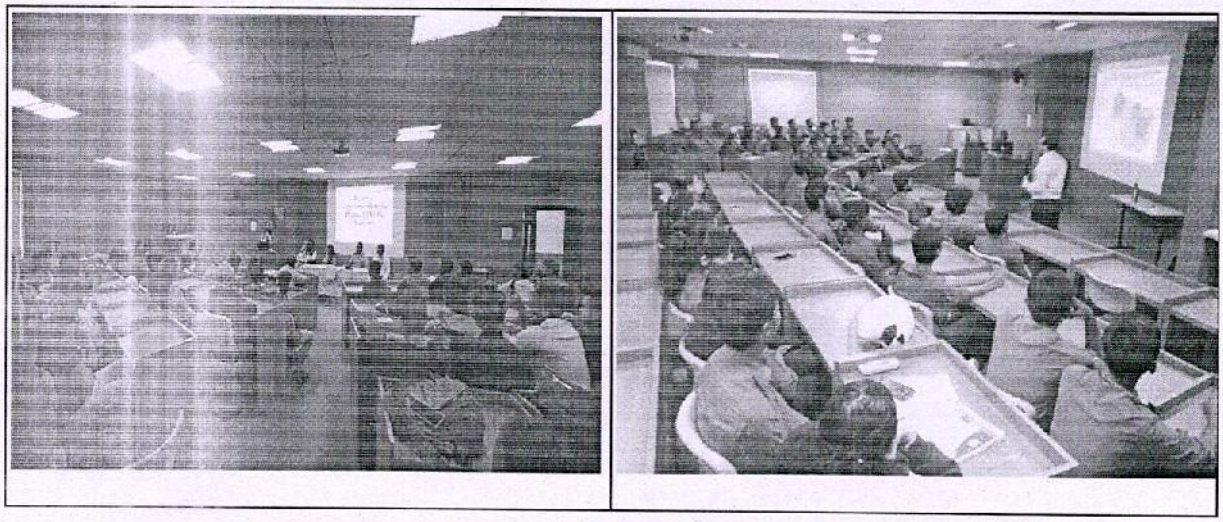

Event Contents:

1. Introduction
2. SE students interaction
3. Entrepreneurship Development detail discussion

A seminar on Entrepreneurship Development was scheduled on 22nd of April 2022 at 11:00AM under MoU with 3Deometry Innovations LLP , session was conducted by alumni Shaneel Karia , seminar was started with introduction of the speaker. He interacted with SE students regarding various strategies of Entrepreneurship. He explained Entrepreneurship Development is the process of improving the skills and knowledge of entrepreneurs through various training and classroom programs. The whole point of entrepreneurship development is to increase the number of entrepreneurs. By doing this, the pace at which new businesses or ventures are made gets better. On a wider level, this makes room for employment and improves the economy of a business or country. He further explained **How to be an Entrepreneur: Make Sure Entrepreneurship Is What You Really Want, Decide What Kind of Business You Want, Research Your Idea, Write a Business Plan, Choose a Business Structure, Assemble Your Team, Handle the Paperwork, etc.** This lecture motivated the students to work hard and start a new venture through adequate forward planning and the execution of the plans. The session was an interactive one where the students were very participative and engaged in questions with the dignitary. Total 42 students attended this seminar

Summary

Failed Experiences -

1. Content Writing -
During the 2nd Year of my Engg. Course, started with Content Writing
But Got Bored as Hell, Did not even last 4 Months.
Lesson Learnt - Do Something that you Enjoy!

2. 3rd Year Engineering -
After almost topping in Class the 1st Year, the efforts to reward ratio seemed unsatisfying.
12 hours of studying each day for a year, unable to top the class, and managed only 63%.
Lesson Learnt - Effort to Reward Ratio Should be Good. Also saved me from Going for Masters. Which is why I am here today. learning ever faster than before.

3. MLM (Corporate Infocom)
Joined the train of MLM trend.
Got 4 close friends to join in, under my Tree but it felt as if I was looting them.
They were unable to get the ROI and that crushed me.
Felt this is a money looting system, not built for me. Tried for 6 months.
Lesson Learnt - Effort to Reward Ratio was Negligible. Never to Join an MLM in Future.
Accidentally Learnt How to Make Websites & SEO through their Course.

4. ReviewsManiac - The Unbiased Review Guide
Thought of using the skills I learnt to use and started ReviewsManiac.
Did write posts for 4 years but occasionally. It was more of a hobby.

Dept. of E&TC Dr.D.Y.Patil School of Engineering Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Lesson Learnt - Introduced me to Digital Marketing & Affiliate Marketing

5. Ecommerce Platforms
Selling products like Memory Cards & Footwear on eBay & Amazon
Was Doing Really good Business, Considering I was a 3rd Year Engineering Student
But got too monotonous and Dropped the Idea to continue with it, after 2 years.
Lesson Learnt - Got exposure to the Ecomm Platforms and How to deal with Suppliers.

6. Digital Marketing & Web Development Company -
Well This I started right after my BTech. Tied up with Friend to Code while I looked after getting clients.
Had a friend as my first client and well that was the end of it, Lasted 3 Months.
Lesson Learnt - Select 1 Field & Stick to It.

7. Cab Service Company -
Had my best friend as a Partner, made few wrong Decisions which broke our friendship.
Lesson Learnt -Do Not Start Companies with Best Friends when you cannot commit with Time.
Recommended Age - 35+ Yrs (When you are much Mature to Handle Things)
Do Not Hold on to Dreams of The Future. Still own the Cab After 3.5 Yrs, sitting idle.

Event Report

Academic Year: 202-202 **Semester-II**

Name of the event: 2 Days Workshop on "Research Opportunities and Innovation in Civil Engineering Field"

Date and Time	20th May to 21st May Time-3:00-5:00 pm
Event Venue	Online platform Microsoft team
Organized by	Department of Civil Engineering
Targeted Audience	65 Numbers
Resource Person	**Dr. Nilesh Mate** **Dr. Subhash V Patankar**

Event Contents:

1. Linear Time History Analysis and Non-linear History Analysis
2. Forton Program
3. Incremental Dynamic analysis and Blast loading
4. Introduction to Fly ash and Utilization of Fly ash
5. Geopolymer concrete and examples
6. Curing

Program Outcome: -

A) From the session conducted by Dr. Nilesh Mate on Recent Advances in Structural Dynamics we came to know following outcome of the session:
1. Dr Mate briefed about the Linear Time History Analysis and Non-linear History Analysis with some examples of earthquake resistant structures in Simple manner.
2. Dr Mate also explained the Performance based analysis such as Incremental Dynamics analysis and Seismic analysis.
3. Dr Mate Sir explained about the FORTON program and MATLAB program.

B) From the session conducted by Dr. Subhash V Patankar on Cementless Concrete we came to know following outcome of the session:
1. Dr S V Patankar Sir briefed us about the Fly ash Concrete its application with effects.
2. Dr S V Patankar Sir explained us about the percentage of cement in concrete and also

by studying the Geoplymer concrete.

3. Dr S V Patankar informed us about the curing and also about the real examples of Cement concrete structures.

Details of the event:

Our Civil Engineering Department organized a 2 Day Workshop on 'Research Opportunities and Innovation in Civil Engineering Field' from 20th May to 21st May 2022. It was conducted on online platform Microsoft Team app. We had invited resource persons from various renowned institutes and the person was having vast experience in teaching field. To invite the faculties from other institute we had published broacher of FDP and sent to faculties through mail, social media etc. The Workshop was of free of cost and the E-Certificates was sent to each participant through mail by submitting the Feedback form. We also created what's app group to post any changes or content of Workshop.

List of Resource Persons with Date and Title of the Topic:

1) Dr. Nilesh Mate on 20th May 2022 Topic: - Recent Advances in Structural Dynamics
2) Dr. Subhash V Patankar on 21st May 2022 Topic: - Cementless Concrete

We had sent invitation letter to each Resource person through mail. We immediately received a Positive response from them. We prepared schedule and as per convenient to resource persons and participants we fixed the time at 03:00 pm. Total registered participants were 130. Attendance was also taken on each day with Feedback of each resource person. On 2nd Day Feedback of overall Workshop was took and after submitting it all the participants received E-certificate by mail.

Role of Civil Engineering Faculty in FDP:
A) Convener of FDP:
1. Lt.Col. S M Karodpati – HOD Civil Engineering
2. Dr R C Katdare – Assistant Professor, Civil Engineering

B) Co-Ordinator of FDP:
1. Miss.S.R. Kokate - Assistant Professor

Project/Dissertation

At Post Graduate Level: 'Effect of Infill Wall Rigidity on seismic Response of Multistoried Buildings', Guided by- **Dr. O. R. Jaiswal,** Professor, VNIT, Nagpur.

At Under Graduate Level: 'Application of Various Structural Engineering Softwares', Guided by- **Dr. A. S. Meghere,** Head & Prof., GCOE, Amravati.

Area of Interest

- Static and dynamic analysis and design of structures (Specialty in earthquake engineering and structural dynamics),
- Random vibration analysis of structures,
- Structural control and mitigation,
- FE based Software modeling for analysis and design of structures.
- Computer programming for analysis and design of structures.

Guidance and UG, PG and Ph.D.

- Number of Under Graduation project guided: 18
- Number of Post-Graduation dissertation guided: 12

Subject: Invitation for Guest Lecture

Respected Sir,

1. This is to introduce ourselves i.e., Dr DY Patil School of Engineering Lohegaon, Dist.-Pune established in year 2010-11 affiliated to Savitribai Phule Pune University. This college runs degree courses in Civil, Mechanical, Electronics & Tele-Communication, Computer and Artificial Intelligence it also runs 3 PG Courses approved by AICTE, DTE & Savitribai Phule Pune University. From the beginning, we have been continuously delivering very effectual knowledge to our students and we expect very good returns from them for the progress of the country.

2. It is our honour to take valuable guidance from the Professional experts like you. It will add to the knowledge of our faculties.

3. Being a Subject matter expert in the field, may I request you to present your views on "Recent Innovation in Civil Engineering" We request you to deliver your session on 20th May 2022 at 11:00 am, including 10 minutes of Questions and answer Session. Looking forward to encouraging response from you.

Thanking You.

Session was conducted by Dr. Vijaykumar Jatti. He elaborated some important points as,

1. IPR & its types
2. How to draft IPR
3. Terms and conditions to file IPR
4. Difference between the protections
5. Importance of IPR and its relevance in these times and its necessity for the advancement in research
6. E-filling of patent applications : Process.

Highlighted Points

1. No of Participant Registered: 138
2. No of participants attended webinar: 70
3. No of Participant Eligible for getting certificate: 70
4. Good response and comments are received around the globe for arranging such a nice event.

He also discussed in detail about the topics such as what is copyright? What do we mean by author or creator?' etc. He distinguished patentable and non patentable inventions in India and around world. He explained various examples of patents in the field of Sciences. The procedure for the application of patents and the various steps of granting of patents were described. He concluded the session by explaining about procedure for applying patents via offline and online. The webinar was concluded at 4.30 pm by a vote of thanks by Dr. Shobha Rupanar.

The Workshop was highly informative to students, teachers and research scholars. Teachers and students from other departments, colleges, universities and research institutes from different parts of India participated in the webinar. Thus webinar provided valuable awareness and insights on the various aspects of IPR.

Event Report

Academic Year: 2021-22 **Semester-I**

Name of the event: One day Seminar on **"Research Methodology & Case study on Photovoltaic Nanotechnology Research proposal".**

Date and Time	18th February 2022 , 3.00 PM to 3.45 PM
Event Venue	Virtual Meet via MS team app
Organized by	Department of Engineering Sciences (F.E.) – Dr. Shobha Rupanar
Targeted Audience	Research Scholar, Academician, Ph.D. Students, UG/PG Students
Resource Person	Dr. Arun Khalkar, Assistant Professor, Dr. D Y Patil School of Engineering Pune.

Event Objectives

1. To Identify, Motivate and Prepare professionals for conducting Research in their fields.
2. Available research funding opportunities and Drafting of International Joint Research Proposal with case study.

Details of the event:

Department of Engineering Sciences of Dr. D. Y. Patil School of Engineering in Association with IQAC cell of DYPSOE organized National level seminar on "Research Methodology & Case study on Photovoltaic Nanotechnology Research proposal" on 18 th February 2022 on MS team. The Programme started at 2:00 pm with the welcome address by Dr. Shobha Rupanar. Opening remarks and introduction of the Programme was given by Dr. Shobha Rupanar.

Principal

The session was started at 3:15 PM and session was conducted by Dr. Arun Khalkar, Assistant Professor in Physics at DYPSOE. The highlighted points of the session are as under,

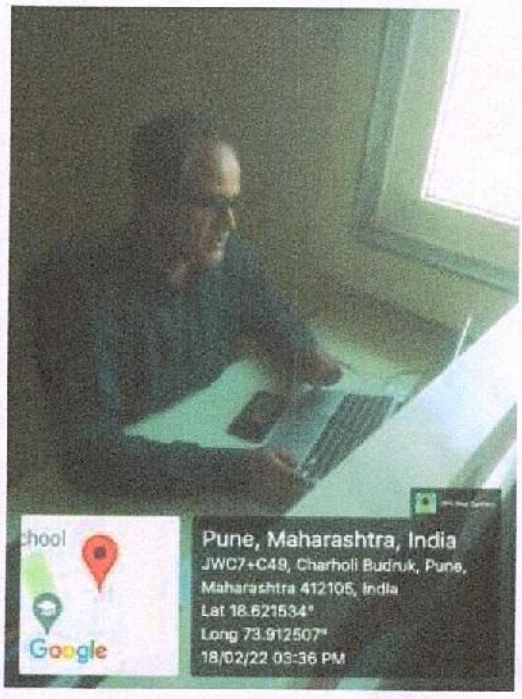

1. Proposal writing process.
2. Technical dealing with Research Proposal/Project.
3. Case study using Photovoltaic Nanotechnology Research.
4. How to develop content of Research Proposal.
5. Management skill about Research project

In this interactive session more than 159 participant from different stream were participated with great enthusiasm.

FACULTY DEVELOPMENT PROGRAM REPORT

Our Civil Engineering Department organized a 5 Day FDP on 'Journey to Research and Beyond' from 21st May to 25th May 2021. It was conducted on Online platform Microsoft Team app. We had invited resource persons from various renowned institutes and the persons was having vast experience in the field of Research. To invite the faculties from other institute we had published broucher of FDP and sent to faculties through mail, social media etc. The FDP was of free of cost and the E-Certificates was sent to each participant through mail by submitting the Feedback form. We also created What's app group to post any changes or content of FDP.

List of Resource Persons with Date and Title of the Topic:

1) Dr Shabnam Sayyad on 21st May 2021 – Introduction to Research Methodology
2) Dr A S Sayyad on 22nd May 2021 – Basic Principles and Process of Writing an Ideal Research Paper
3) Dr S M Khairnar on 23rd May 2021 – Writing a Successful Research Proposal for External Funding
4) Dr Mahesh R Gadekar on 24th May 2021 – Application of Research in Consultancy
5) Dr R C Katdare on 25th May 2021 – Psychological Aspects and Joys of doing Research

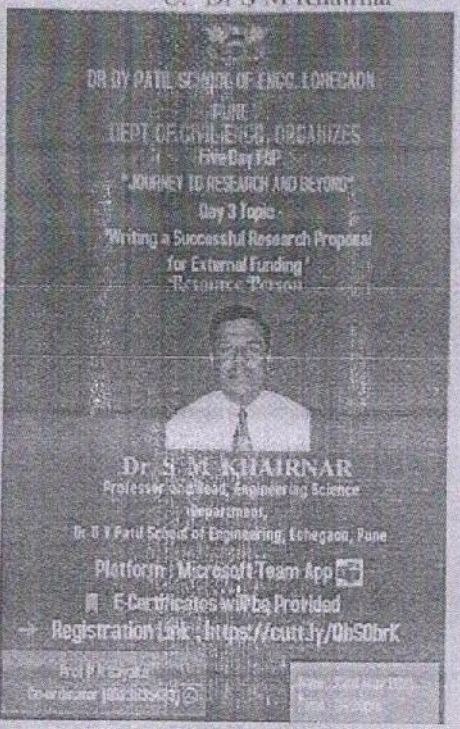

We had sent invitation letter to each Resource person through mail. We immediately received a Positive response from them. We prepared schedule and as per convenient to resource persons and participants we fixed the time after college hours at 04:30pm. Total registered participants was 250. Attendance was also taken on each day with Feedback of each resource person. On 5th Day Feedback of overall FDP was took and after submitting it all the participants received E-certificate by mail.

FDP Outcomes

1. After attending FDP, participants got in depth understanding of research and its implications in decision making process.

2. Gained better understanding on how to design a valid research project to answer specific research questions.

3. Design reliable and valid questionnaires for collection of data.

4. Use descriptive and predictive tools for writing a successful research proposal for External Funding.

5. To make the participants familiar with Application of Research in Consultancy and Psychological Aspects and Joy of Doing Research.

Students Involved: SE to BE students of Computer Engineering Department from DYPSOE.

Date: 19/11/2020, Saturday

Venue: Microsoft Teams meeting

Report:

A guest lecture was arranged for the engagement of students towards developing their interest in the field of Internet of Things.

The speaker for this event was **Mr. Rahul Sarawale** (Software developer, Kemper System, Mumbai) and **Prof. Mahesh Patil** (Assistant Professor, Department of Electronics & Tele communication, JSPM's Imperial College Of Engineering-ICOER, Wagholi, Pune).

Over 175 students attended the webinar and the video has been posted on YouTube- https://youtu.be/YcPNqgmXqpU

Prof. Pooja Shinde welcomed the audience and gave a brief introduction about the speaker.
Mr. Rahul Sarawale and Prof. Mahesh Patil gave the students detailed information about –

a. What is IOT?
b. Where do we apply them?
c. What are the challenges in this industry?
d. What is the future?
e. How do I get started?
f. Q&A

D. Y. PATIL SCHOOL OF ENGINEERING COMPUTER DEPARTMENT

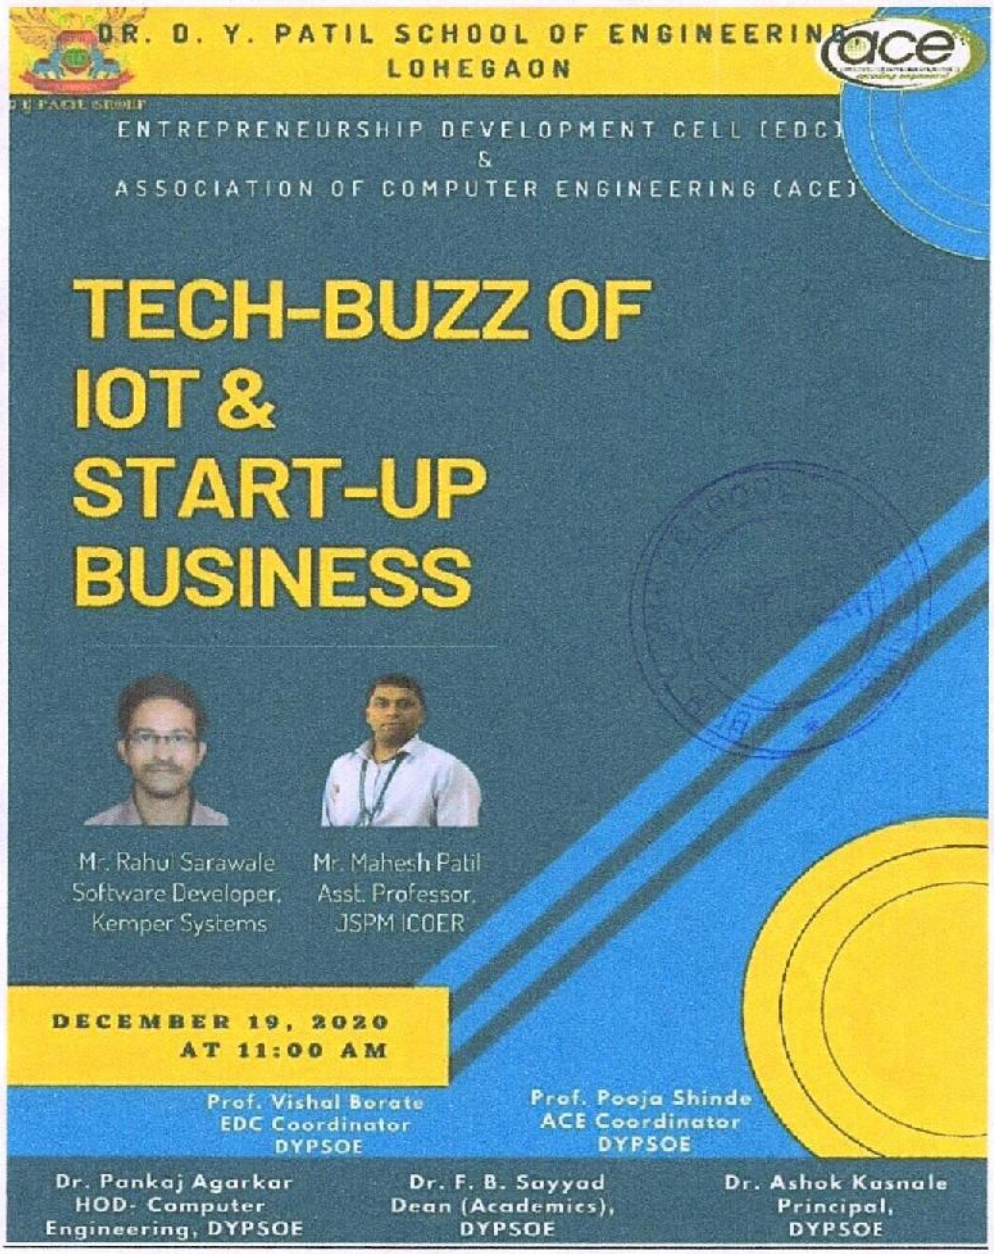

The students provided feedback through the Google form link provided to them by the Prof. Vishal Borate. The feedback was very positive.

Academia

- Pursuing PhD (ECE) From JJT University Rajasthan.
- ME (Electronics) Digital Systems from R S C O E, Pune University in Aug 2013-7.38 CGPA
- B.E (ENTC) from G S MOZE College Pune University, Pune in 2008. – 60.40%
- H.S.C from Maharashtra Board, in 2002. – 62.17%
- S.S.C from Maharashtra Board, in 2000. – 77.46%

Achievements

- Published a paper in International Journal on "Review on Stress Monitoring and Detection" **Link http://www.jetir.org/view?paper=JETIRAH06013**
- Presented paper in national conference on "Review on Stress Monitoring and Detection"
- Conducted training program and workshops on ARDUINO and Microcontroller's in colleges
- Project On "Enhancement of speech intelligibility by using wavelet transform"
- Project on "Conversion of Electrical Control Panel to PLC Control Panel" in Final year
- Project on "Energy Saving in Street Lights" (Mini Project) in Third Year

Seminar/Workshop

- Completed Self-paced training course "MATLAB fundamentals"
- Completed Self-paced training course "MATLAB Programming Techniques"
- Completed Self-paced training course "MATLAB for Data Processing and Visualization"
- Completed Self-paced training course "Deep Learning Onramp using MATLAB"
- Completed Self-paced training course "Machine Learning Onramp using MATLAB"
- Completed Self-paced training course "MATLAB Onramp"
- Completed Self-paced training course "Image Processing Onramp using MATLAB"
- Completed Self-paced training course "Simulink Onramp using MATLAB"
- Attended one-week workshop on "Communication & Soft Skill
- Attended workshop on MATLAB & Signal Processing Toolbox
- Attended two weeks on "VLSI & Embedded System Design"

Hobbies and Extra Activities

- Works on different types of controllers and Displays
- Member of nationwide youth group 'Vedic Oasis for Inspiration, Culture & Education" (**VOICE**).
- Arranged seminars on Stress Management, Mind control & SWOT analysis for students.

Objective

To produce effective results using my knowledge and skills and to become a part of a dynamic & challenging engineering team in an organization.

Experience

Teaching: -

- Institute Name: **JSPM's Imperial College of Engineering & Research, Wagholi**
  Designation: **Assistant Professor**
  Period: **July 2016 to till date**
  Profile:
  1. Taught the subjects –Embedded System & RTOS, Electrical and Electronics Engineering, Mechatronics, PLCs and Automation
  2. Handling practical for the subject Embedded System & RTOS, Electrical and Electronics Engineering, Mechatronics
  3. Working as department level R & D Coordinator

- Institute/Firm Name: **Army Institute of Technology, Pune**
  Designation: **Assistant Professor**
  Period: **June 2014 to April 2016**
  Profile:
  1. Taught the subjects –Digital Image Processing, Basic Electronics Engineering
  2. Handling practical for the subjects Digital Image Processing, System Programming & Operating Systems, Analog Communication

- Institute/Firm Name: **NMIET,** Talegaon Dabhade
  Designation: **Lecturer**
  Period: **July 2011 to May 2014**
  Profile:
  1. Taught the subjects – Integrated Circuits, Digital Electronics, Embedded Systems, Digital Image Processing
  2. Handling practical for the subjects Digital Logic Design, Digital Image Processing, Integrated Circuits
  3. Department level Training and Placement coordinator

Technical skills

- **Languages:** C, Keil, Multisim, VHDL, PLC programming, Assembly programming
- **Controllers:** Atmega 328P, ARDUINO, 8051, PIC, ARM
- **Computer:** MS Office (WORD, EXCEL, PPT)

Projects in Detail

PhD Work:

Currently working on a system to monitor the **stress** of a person by the use of Human bio-field or **Human AURA.**

ME Project:

Here developed a method to enhance intelligibility of speech by using wavelet transforms. The clean speech is obtained from a noisy speech by use of wavelet transform. MATLAB is used as programming tool. Model can be used in aero plane and helicopter cockpits, in industries, and situations where high noise is present.

Final Year Project: -

Here conversion of the relay contactor electrical control panel of Hobbing Gear Machine to PLC control panel takes place. Siemens **S7-200 PLC** was used for this. A good interface between man and machine is provided by giving a display panel. The ladder programming is done for PLC.

Mini Project:-

As a part curriculum a working model was made to save the electricity by using microcontroller. The main idea of project is to keep the lights OFF in selected area where the traffic is very less in nights and turning the lights ON and OFF as vehicle passes. The project consists of micro-controller **8051** and infrared sensors based system.

Report On
"Career Guidance for Research Project Development"
Guest Lecture

Date: 17/01/2020, Friday

Venue: Class Room - 336

Organizer: R&D Cell, Computer Engineering Department.

Target Audience: Third Year student of Department.

As a part of R&D activity to enhance the knowledge and skill of software development Academic and Research Projects, R&D cell of Computer Engineering Department, a Guest Lecture (Expert Guidance) was Organized.

The expert talk on research project implementation was given by Mr. Mandar Sonawane, who is who is Director and expert trainer of PiSyst India Pvt. Ltd., Pune.

The students were benefited by his practical guidance on approach to innovative ideas and implementation of project.

The feedback given by the students show that the guest lecture was really helpful for R&D projects.

4. Dr. Suryakant Patil (CEO of PSP-IP Associates) along with Dr. Sathe (Phd from IIT Bombay) delivered lecture on Patent registration and other important patent related information research and study.

5. Dr. Sathe has 25 years of experience in civil engineering works and had guided students about systematic process essential for research and study. He has also proposed some project topics on earthquake structures, Soil mechanics, construction material and surveying. Dr. Suryakant Patil worked with Narsee Manjee University. The guests mentioned about an opportunity in MNC and Top Universities in world and educated on procedure to get admission .

6. The guests have proposed to offer following services for Patenting right from Innovative Patentable Topics till Granting of Patent. All services from Registered Intellectual Property Attorneys, MoUs and Certificates. They also proposed provision of Innovative Patentable topics of Domain Specific Inventions.

a. Patentability Check : Prior to Search with detailed Report.
b. Upgrade to make it Patentable with technical inputs
c. Legal drafting of Complete Patent
d. Complete Patent filing
e .Provision of Permanent Patent No.
f. Certificate with Patent Application No.
g. Request for early publications
h. Publish it on Govt. Portal for global patent database search

GUEST LECTURE REPORT

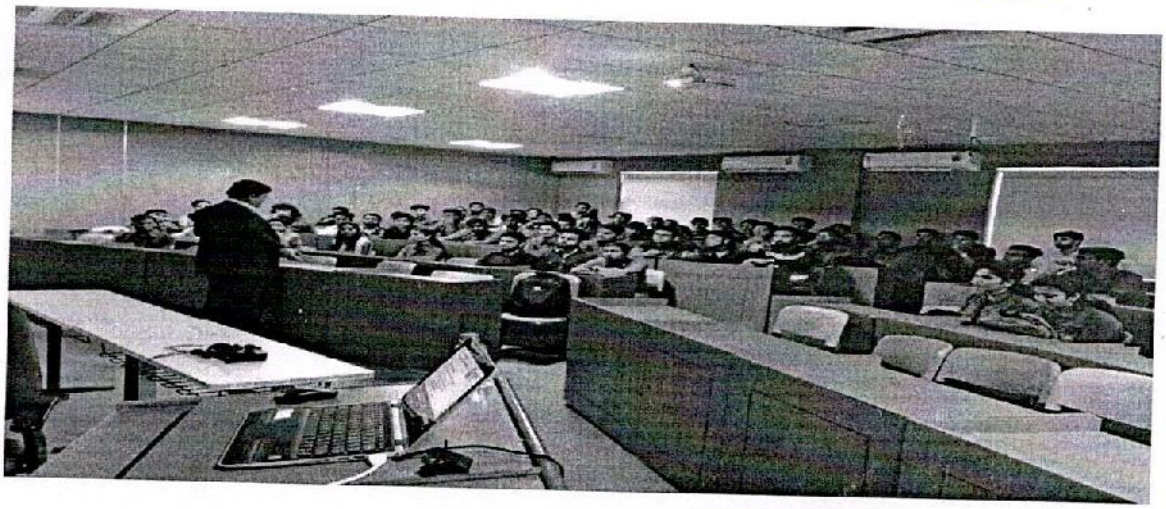

ON

HOW TO RECEIVE PATENT

1. The department of Civil Engineering, Dr. D. Y. Patil School Of Engineering, Lohegaon, Pune, organized two hour educational guest lecture on how to receive patent, at Dr. D. Y. Patil School of Engineering , Lohegaon, on 19th January 2018 for B.E& T.E Civil Engineering students.

2. Guest lecture was organized under the guidance of honorable Director of DYPSOE, Lohegaon. Dr. S.S.Sonawane and by the initiative and efforts of head of Civil Engineering department Prof. Sanjay Karodpati. Along with the staff members, students of B.E& T.E Civil took remarkable efforts and initiative under the continuous guidance of Prof. Tushar Salunkhe, which made the lecture a grand success.

Report On

An Expert lecture - "How to generate Patentable/Innovative ideas to address common man's Problems"

Date: 26/04/2019, Friday.

Venue: Project Laboratory (Lab-321)

Organizer: R&D Cell, Computer Engineering Department.

Target Audience: All Staff members of Computer Engineering Department.

As a part of R&D activity to enhance the knowledge and skill of staff and to motivate the staff members for innovation, R&D cell of our department has organized guest lecture on "How to generate Patentable/Innovative ideas to address common man's Problems".

The expert guidance was given by Dr. Dilip More, Professor, Department of Mechanical Engineering, Dr. D Y Patil SOE, Lohegaon.

Dr. More explored various ways of how to stimulate thought process, how to find the problems in real world, how to address these problems using realistic way of innovation.

The feedback of faculty members assured the benefit they got through interaction with Dr. Dilip More.

Idea Generation Session for Mechanical Department

Date: - 30/04/2019

Time: - 10.00 am 1.30 pm

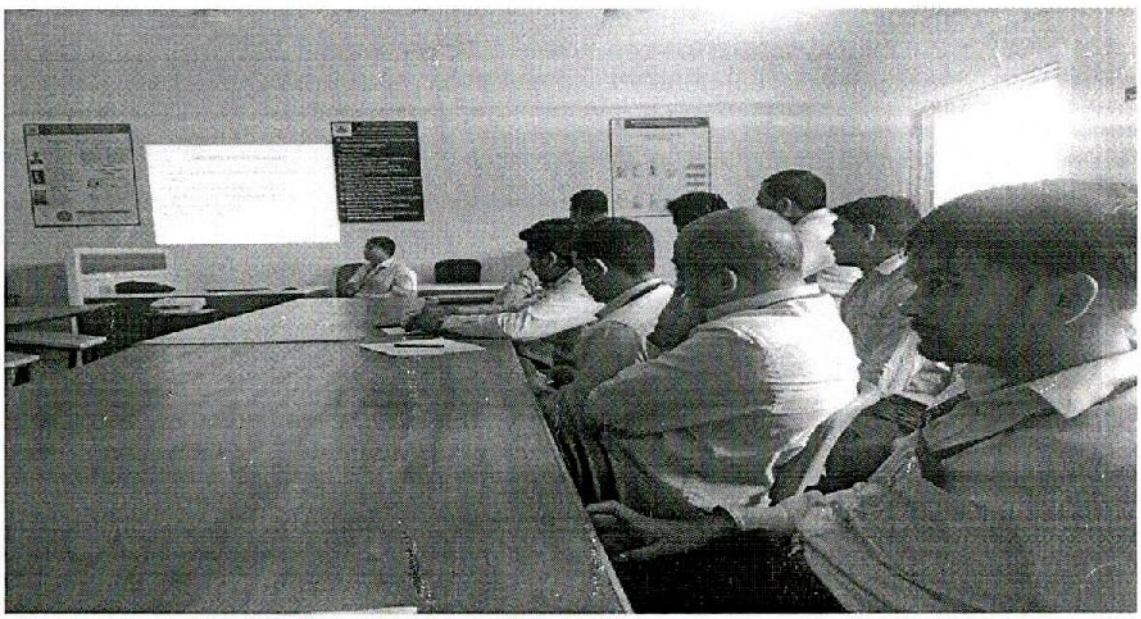

Venue: - IFP Lab, Mechanical Dept.

Event Details: -

Dr. Dileep More on behalf of IPR Cell interacted with Mechanical department regarding Patent filing & Idea Generation.

A Questionnaire designed by IPR Cell was circulated amongst the faculties to know their area of interest, recent places visited by faculty, what they would love to wear and eat, technologies in which they are interested, etc.

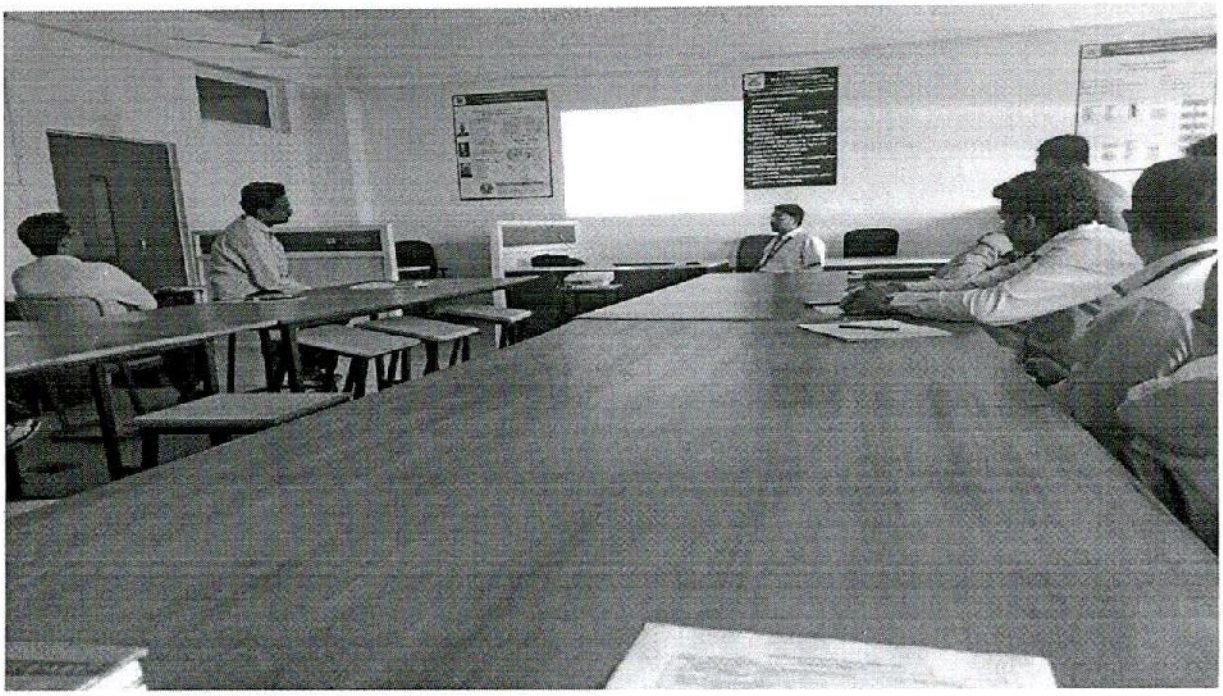

Dr. More made an elaborate discussion on "How to Generate Ideas?" by looking around us. He also shared with us few innovative ideas and also showed us few videos showing innovative ideas implemented.

Idea Generation Session for ENTC

Date: - 24/04/2019

Time: - 10.00 am 1.30 pm

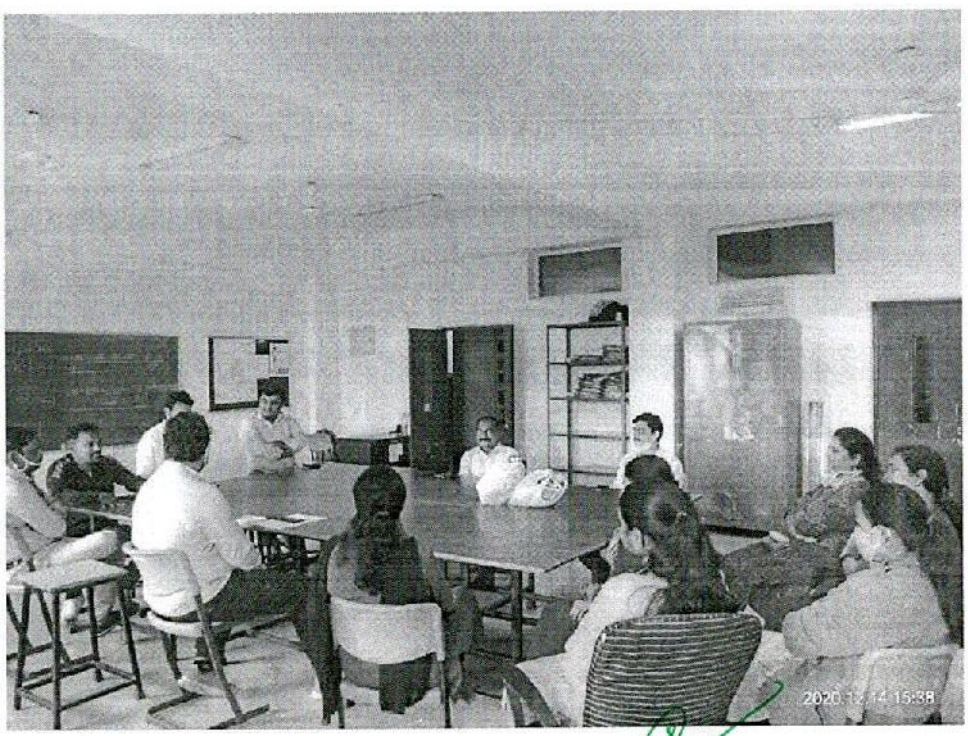

Venue: - ENTC Dept.

Event Details: -

Dr. Dileep More on behalf of IPR Cell interacted with ENTC department regarding Patent filing & Idea Generation.

A Questionnaire designed by IPR Cell was circulated amongst the faculties to know their area of interest, recent places visited by faculty, what they would love to wear and eat, technologies in which they are interested, etc.

Dr. More made an elaborate discussion on "How to Generate Ideas?" by looking around us. He also shared with us few innovative ideas and also showed us few videos showing innovative ideas implemented.

REPORT ON
ONE DAY PROGRAM
ON

"IPR & Idea Generation"

Intellectual Property Right (IPR) Cell of SOE has organized one day program on **"IPR & Idea Generation"** for all the faculties of SOE on April 10, 2019 at ENTC Seminar hall. The chief guest of the program was **Prof. Rahul Bawane**, Assistant Professor in Mechanical Engineering Department and Head of Research & Innovation Cell of Pimpri Chinchwad College of Engineering & Research, Ravet, Pune.

The purpose of the program was to convey the objectives of IPR cell established as below, get awareness about IPR and patent filing, what and what is not patentable and how to generate innovative and creative ideas.

Objectives of IPR Cell

1. Help teaching and non-teaching staff and students to generate innovative and creative ideas
2. Assist them to file a patent, make the prototype and take it still commercialization phase
3. Support to start own business/startup etc.

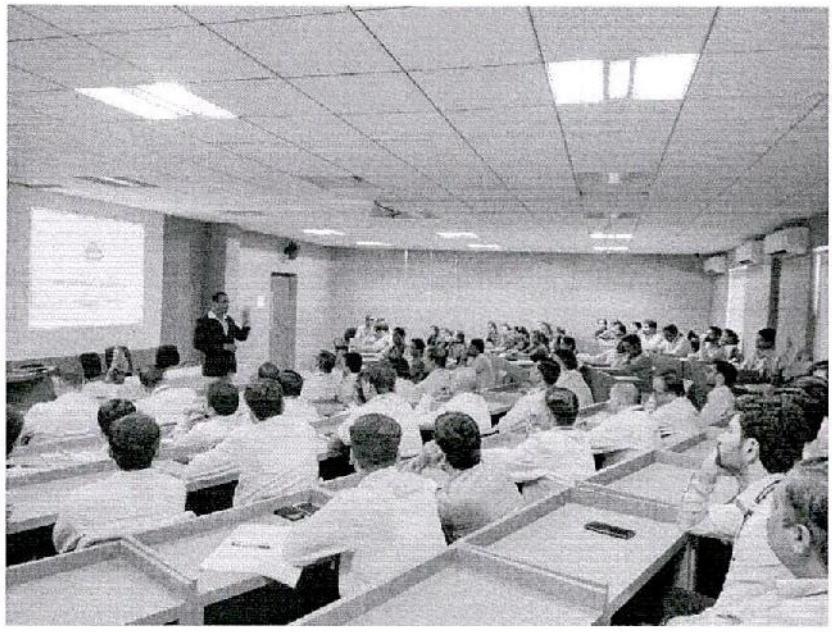

The guest addressed in detail how to file the patent and detailed steps, explained what is patentable and not patentable with proper examples.

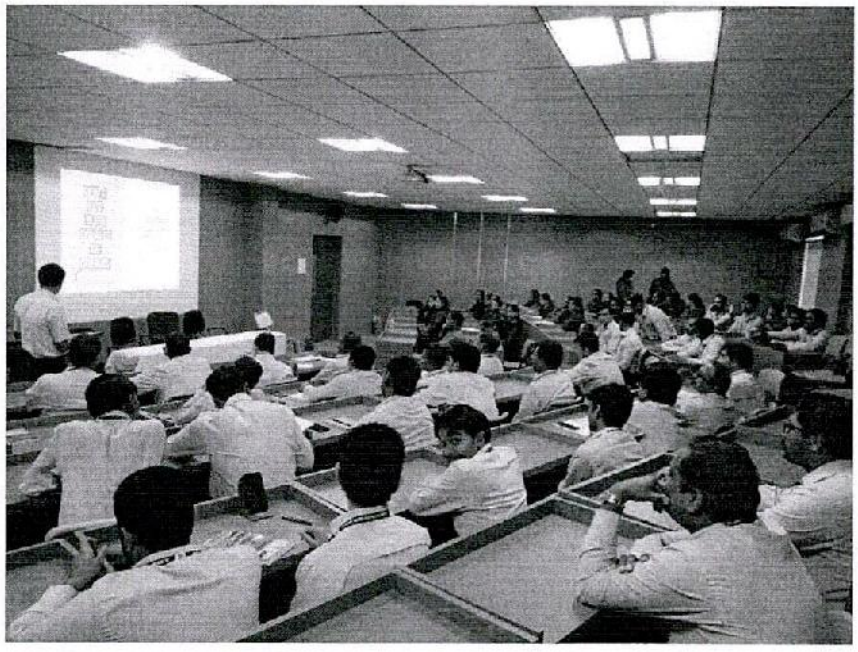

Dr. M. Z. Shaikh Principal of SOE welcomed the chief guest **Prof. Rahul Bawane**

Principal

The guest speaker delivering the lecture on IPR and the faculty attended the program

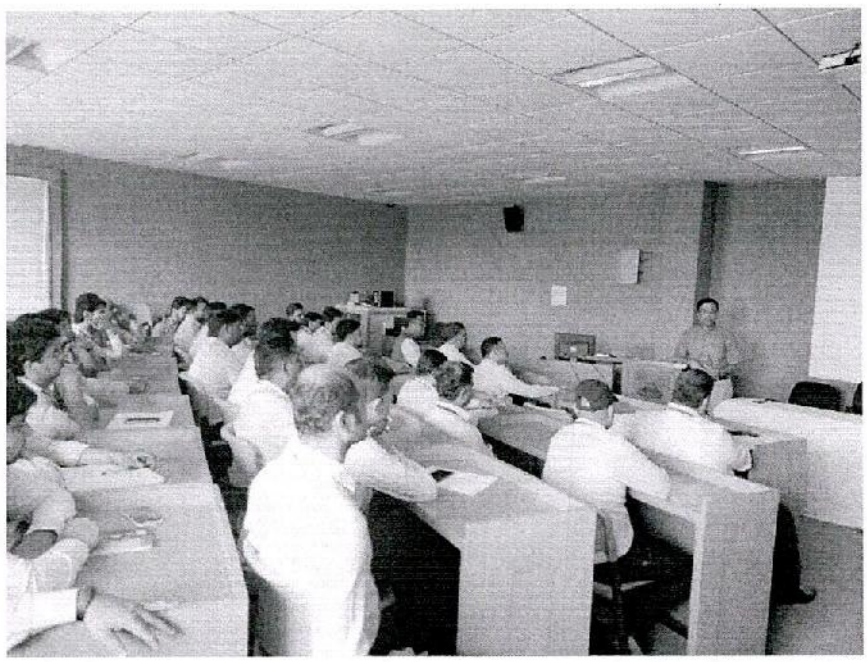

Dr. More delivered a lecture on "How to generate innovative Ideas"

Dr. More has delivered a session on how to generate innovative and creative ideas by showing a number videos highlighting the common issues, problems. He explained we should change our perspective to see around us as the world is a full of problems and opportunities. We should strengthen our observation and make the idea generation as habit.

Dr. M. Z. Shaikh delivered a talk on Idea generation opportunities in Agriculture

The Principal Sir, Dr. M. Z. Shaikh addressed that there are plenty of opportunities in agriculture field in different areas like food processing, farm mechanization, post-harvest management, food storage and processing, sensor based applications in agriculture and irrigation, technologies for pesticide management and technologies for reducing on-farm loss of pre management etc.

Dr. More has concluded the program giving the vote of thanks to all the faculties who attended the program.

Academic Year: 2018-19 **Semester-II**

1. Name of the event: Entrepreneurship training on "3 D Printing and Technology with Application in Industry"

Date and Time	21st Feb. 2019 & 10.00 am to 4.30 pm
Event Venue	College Seminar Hall (Room No. 228)
Organized by	Mechanical Department
Audience	120 (S.E and T.E Students)
Resource Person	**Mr. Shaneel Karia and Mr. S. Imade**

2. Event Contents:

1. Introduction to 3D printing
2. Why use 3D printing
3. Conceptualization
4. Marketing
5. Advantages and Application of 3D Printer

3.1 Details of the event:

A **Entrepreneurship training on "3 D Printing and Technology with Application in Industry"** in association with MESA organised on 21st February 2019 for Second and Third Year students of Department of Mechanical Engineering, Dr D Y Patil School of Engineering, Lohegaon, Pune. The presentation will be conducted by Mr S. Imade & Mr. Shaneel Karia (Alumni, Department of Mechanical Engineering, Dr D Y Patil School of Engineering,) presently associated with 3D Eometry Innovation, Pune.

3.2 Introduction to 3D Printing

3D printing is a form of additive manufacturing technology where a three dimensional object is created by laying down successive layers of material. It is also known as rapid prototyping, is a mechanized method whereby 3D objects are quickly made on a reasonably sized machine connected to a computer containing blueprints for the object. The 3D printing concept of custom manufacturing is exciting to nearly everyone. This revolutionary method for creating 3D models with the use of inkjet technology saves time and cost by eliminating the need to design; print and glue together separate model parts. Now, you can create a complete model in a single process using 3D printing. The basic principles include materials cartridges, flexibility of output, and translation of code into a visible pattern.

3.3 Benefits of 3D Printing

- The most successful companies have adopted 3D printing as a critical part of the iterative

  design process to:
- Increase Innovation
  - Print prototypes in hours, obtain feedback, refine designs and repeat the cycle until designs are perfect.
- Improve Communication
  - Hold a full color, realistic 3D model in your hands to impart infinitely more information than a computer image.
  - Create physical 3D models quickly, easily and affordably for a wide variety of
- Applications.
- Speed Time to Market
  - Compress design cycles by 3D printing multiple prototypes on demand, right in your office.
- Reduce Development Costs
  - Cut traditional prototyping and tooling costs.
  - Identify design errors earlier.
  - Reduce travel to production facilities.

About Cranfield University

Cranfield School of Management is one of the oldest business schools in Europe. As part of Cranfield University, the UK's only wholly postgraduate university, we are uniquely placed to connect technology and leadership. Our contribution to global innovation is world-leading, changing the way society thinks, works and learns.

We are proud of our links with industry. They are an integral part of our history and vital for our future. Management has been part of Cranfield University since the fifties. The University was founded on an old RAF site as the first postgraduate college of aeronautics. The School of Management grew out of industrial need for management training and was formally established in 1967 (although the Cranfield MBA dates back to 1964). The airfield the University grew up around is still in use.

D. Y. PATIL SCHOOL OF ENGINEERING CIVIL ENGINEERING DEPARTMENT

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

We are globally recognized for our excellence in leadership development and for our powerful industry links and real-world focus.

Key Activities

- Leading-edge, collaborative **research and consultancy**
- **Postgraduate degree programmes** (MBA, Full-time MScs, Part-time MScs, DBA, PhD)
- Postgraduate Apprenticeship programmes
- Executive development for middle and senior managers
- Customised company programmes.

The only wholly-postgraduate university in the UK, Cranfield is a unique learning environment with world-class programmes, unrivalled facilities and close links with business, industry and governments, all combining to attract the best students and teaching staff from around the world.

Research at Cranfield takes place in three broad categories. As well as studying for the research degree of your choice, there are many collaborative projects carried out by groups of researchers or institutions and research projects commissioned by business to address a specific industry or societal need.

In 2021, 88% of research at Cranfield was rated as world-leading or internationally excellent in the Research Excellence Framework (REF). We are ranked in the top five of UK universities for income from commercial research and consultancy commissions from business and industry.

Cranfield is a significant contributor to global innovation. Our influence on specialised sectors including Aerospace, Defence and Security, Energy and Sustainability, Environment and Agrifood, Manufacturing and Materials, Transport Systems and Water – as well as Leadership and Management – has changed the way that society thinks, works and learns.

Cranfield distinctive learning environment allows you to develop as a professional and apply your knowledge and skills in the global economy. Our work informs policy and brings new technologies and products to the market. Our students and academics have developed solutions to real world problems – for example, in water and sanitation and aviation safety – that have improved the lives of millions of people worldwide.

Dr. D. Y. PATIL SCHOOL OF ENGINEERING

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Cranfield generate and transform knowledge, translating it for the benefit of society, for diverse organisations from micro small and medium enterprises to the largest blue-chip multinationals, from national governments to not-for-profit organisations and charities. We invest heavily in research facilities, such as our Aerospace Integration Research Centre, an innovative £35 million development that will change the design of future aircraft.

To ensure Cranfield's research continues to be focused on identifying and meeting the challenges of today and tomorrow, we have identified five cross-cutting discipline research areas where a critical mass of capability and expertise is emerging across the academic community.

Research opportunities: These are often full-time over three years although part-time opportunities also exist

Support during your study

Throughout your studies, you will benefit from the support of experienced faculty and from the stimulation that comes from being part of a vibrant research community. You will work with your supervisor in partnership; your supervisor will provide guidance on the nature of research and the standards expected, and you will have the opportunity to develop into a fully competent researcher, using the wide range of resources available at Cranfield.

Search for research opportunities by selecting your area of interest below or by using our search.

- Aerospace
- Defence and Security
- Design Engineering
- Energy and Sustainability
- Environment and Agrifood

Diversity and Inclusion

At Cranfield, we value our diverse staff and student community and maintain a culture where everyone can work and study together harmoniously with dignity and respect. This is reflected in our University values of ambition, impact, respect and community. We welcome students and staff from all backgrounds from over 100 countries and support our staff and students to realise their full potential, from academic achievement to mental and physical wellbeing.

We are committed to progressing the diversity and inclusion agenda, for example; gender diversity in Science, Technology, Engineering and Mathematics (STEM) through our Athena SWAN Bronze award and action plan, we are members of the Women's Engineering Society (WES) and Working Families, and sponsors of International Women in Engineering Day. We are also Disability Confident Level 1 Employers and members of the Business Disability Forum.

Alumni scholarship

Cranfield alumni registering for a self-funded research degree may be eligible for a scholarship of up to 20% of the total fee.

UK Research and Innovation (UKRI) funded studentships

Following the announcement by UKRI that their funded studentships should be opened up to both home and international students from the 2021/22 academic year. Cranfield University has published its policy on UKRI International Fees for research degrees.

Learning outcomes

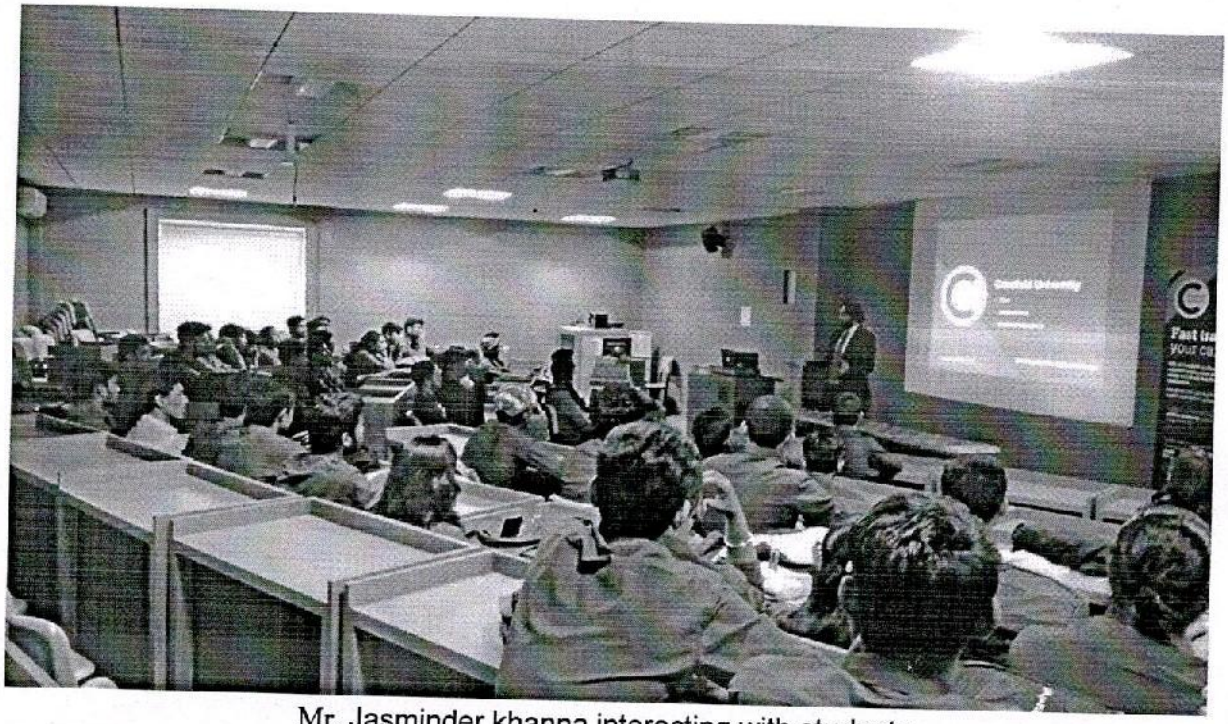

1) Students learned about the **Courses and opportunities in field of Research and innovation** offered by Cranfield University and they knew about various gateways for applying.

2) Students got information about the **courses and prospects** of job related to their Masters specialization in United Kingdom.

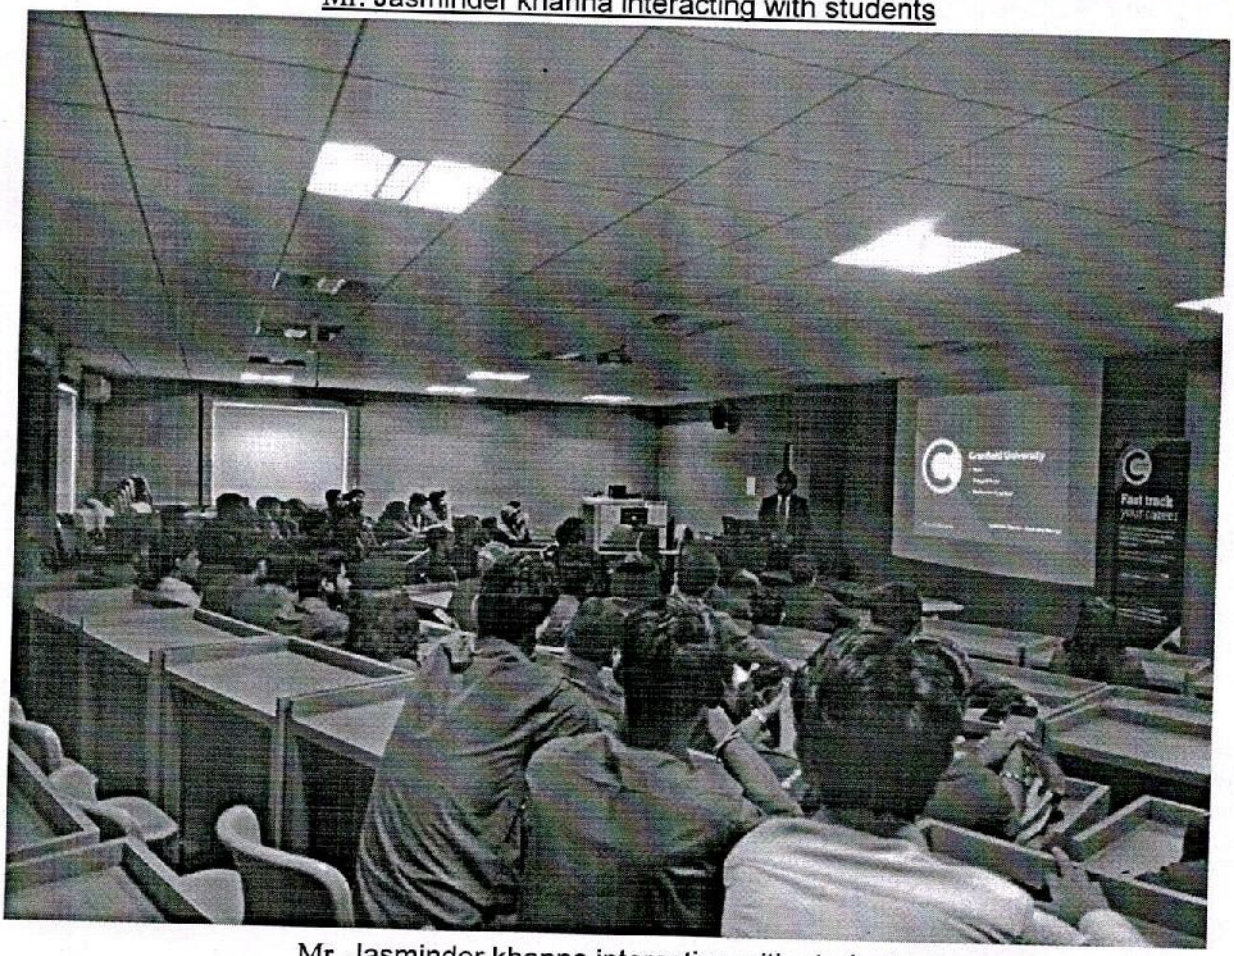

3) Students learned about various **sponsorship and fees structures** for various courses in Cranfield University.

Business incubation programs are designed to accelerate the successful development of entrepreneurial companies through an array of business support resources and services, developed or orchestrated by incubator management, and offered both in the incubator and through its network of contacts. A business incubation program's main goal is to produce successful firms that will leave the program financially viable and freestanding.

Business incubation programs can be undertaken at different levels and in different formats. Science parks, business/enterprise centers, and innovation/incubator centers all seek to provide an environment in which businesses can be nurtured, improving their chances of survival. However, there can be important differences in the objectives of each model and in the type of businesses that become their clients.

The key objectives of the Training Program were to highlight the importance of developing entrepreneurial culture , to emphasize the policy advocacy for initiating technology-based startups and creating an ecosystem for such startups. To understand the conceptualization, development process, management, and importance of business incubators and technology parks. To understand the process of converting the startups into commercial organizations. To combat poverty and move towards self-reliance and prosperity.

The Training Program focused on the following Technical Sessions and the expert resource persons Mr. Waqar Ahmed, Lead Trainer and Mr. Manqoosh ur Rahman, Trainer, made presentations. The sessions covered following themes:

Business Incubation: Process, Planning and Management

Business Incubation Basics, Elements of Business Incubation, Business Incubation Principles, Incubation Process, Planning the Business Incubator, Operational Management of Business Incubators

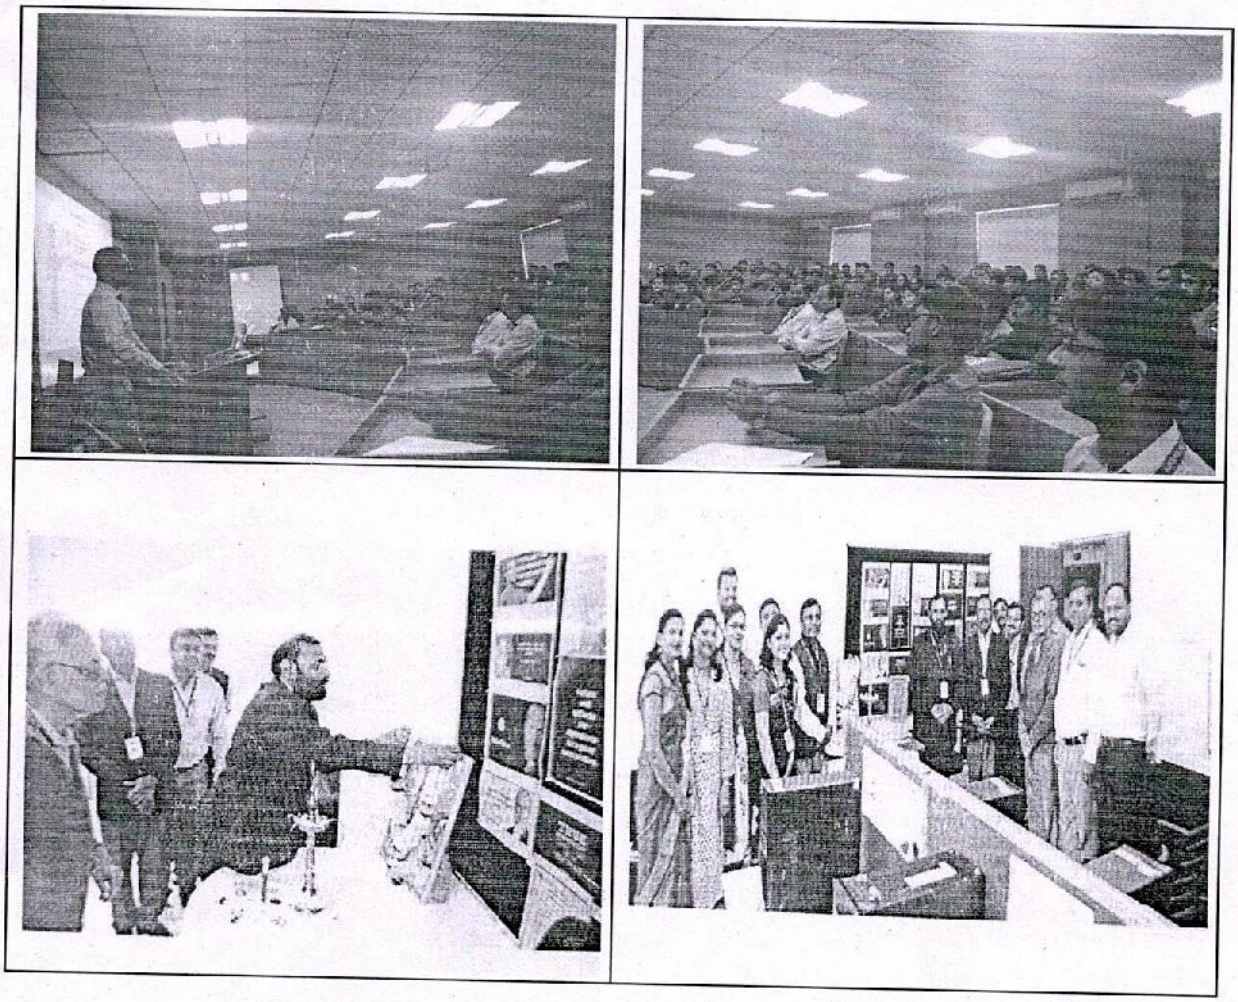

The participants visited a Technology Incubation Center. The Center provides training and consultancy to the incubatees. They explained about the process of selection of start-up, pre-Incubation and Incubation period. At the end, a question answer session was held and the participants took interest and enquired about various details. The participants were also taken into the various sections of the Incubation Center and briefed about different startups.

The participants of the Training Program showed great interest in the lectures and actively participated in the proceedings. At the end of the Training Program a closing session was held, in which the resource persons gave a summary of the presentations. The participants gave their views on the proposed recommendations and various issues were discussed.

Prof. Bahubali Shiragaur briefed about activities of TBI. Director Sir addressed the gathering and highlighted the various opportunities available for TBI.
