Criteria 5

5.1.2 Following capacity development and skills enhancement activities are organized for improving students' capability

1. Soft skills
2. Language and communication skills
3. Life skills (Yoga, physical fitness, health and hygiene, self-employment and entrepreneurial skills)
4. Awareness of trends in technology

Options:
A. All of the above
B. Any 3 of the above
C. Any 2 of the above
D. Any 1of the above
E. None of the above

Sr. No.	Description
1	**Soft skills**
2	**Language and communication skills**
3	**Life skills**
4	**ICT/Computing skills/Awareness of trends in technology**

Event Report

Academic Year: 2022-2023 **Semester-II**

Name of the event: **Importance of soft skills**

Date and Time	25th March 2023 , 05:00 pm to 06:00 pm
Event Venue	Online Platform (Google Meet)
Organized by	E&TC Dept
Targeted Audience	TE and BE
Resource Person	**Mr. Suraj Kulkarni (Senior Software Engineer,Fitter,Pune)**

Event Contents:

1. Importance of Soft Skills
2. Personality development

Details of the event:

Soft skills are personal attributes that influence how well you can work or interact with others. These skills make it easier to form relationships with people, create trust and dependability, and lead teams. They are among the top skills employers seek in the candidates they hire, because soft skills are important for just about every job.

The session was spent on importance of soft skills like how to have the right attitude while facing interviews, how to develop good communication skills, other minor details about personality which will help our students to be presentable at the time of recruitment.

It's important to find an employee who adds value to your workplace in the form of soft skills. Make sure to ask the right interview questions to determine if your new hires have skills such as: communication, teamwork, critical thinking, adaptability, and leadership

Session was concluded by Q&A session. Vote of thank you was given by Prof. Ashwini Bagde.

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the event:**Soft Skill Training Programme for UG Students**

Date and Time	08/11/2022
Event Venue	Virtual Meet via MS team app
Organized by	Department of Engineering Sciences (F.E.) – Prof. Awes Ansari
Targeted Audience	Newly admitted students of First Year Engineering of Batch 2022-23
Resource Person	Mrs.Mausami Nilakhe Soft Skills & Life Skill Corporate Trainer, Personal Coach.

Event Contents:

1. The event notice is circulated to students with prior instructions one week before. The session started sharp at 11.00 am. The workshop started with a basic introduction of soft skills, Importance of Communication and types of communication and its importance,Problem solving techniques,importance of teamwork , critical thinking.very importantly time management & decision making is explained for the students.Also we have guided them.How to handle stress of lecture , practical and exams.

Dr. D.Y. Patil School of Engineering, Lohegaon Pune
First Year Engineering

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

2. Also some Good Basic Life Lessons are given to students regarding their responsibility as students. How to develop important soft skills Technical competency is the core of your career in engineering.

3. Guided them regarding Myers-Briggs Indicators test and provided them the free Test link so that by giving test they can check their personality type and develop them self accordingly.most importantly guided them regarding ethics and standard practice should be followed in student life.

4. Motivated the students to participate in extra curricular and co curricular activities which are taking place in various engineering colleges.

5. Guided them regarding time management in day to day life for better utilization of a four year engineering course.

6. As feedback, the participants appreciated the event. A few students shared their experiences as very useful, informative and excellent. The participants will look forward to attending similar sessions in future.

Details of the event:

Soft skills play an important role in resume writing, interviewing and finding success in communicating with people at work and in other areas of your life. Soft skills are often transferable across careers and industries. As a result, you may find that you possess many of the required traits even if you don't match the exact profile in a job description. As you search for jobs, pay special attention to posts calling for candidates with soft skills or traits you possess. Even if the job title isn't a great fit, you may find that the description makes sense for you. As you progress through the job search process, keep your resume updated to reflect soft skills most relevant to the jobs you're applying for.Key value of a training program helps turn young talent into tomorrow's leaders.

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the event: Guest lecture on **"Seminar on Soft Skill and Placement Talk"**

Date and Time	22 / 09/2022
Event Venue	Room No.531
Organized by	Mechanical Engineering Department
Targeted Audience	BE Students
Resource Person	Mr.Neel Jadhav (Alumni of Adypsoe)

Report:

Event Contents:

1. Positive Thinking

2. Self Esteem

3. Self-Worth

4. Self Confidence

5. Goal Setting

6. Time Management

7. Empathy

8. Body Language

9. Team work

10. Decision Making

11. Resume Writing

12. Interview Skills

13. Leadership Quality

Mechanical Engineering Department organized **"Seminar on Soft Skill and Placement Talk"** for TE and BE Students of Mechanical Engineering Department. The session was headed by Mr.Neel Jadhav, Electromech having 03 years of experiences in Sales and marketing.

The session started with the speaker Mr. Neel explores different department in companies,

1. Resume Writing

A resume is a written record of your contact details, skills, skills and employment history. It establishes your details and appears to be appealing and convincing. It reflects and symbolizes an individual. Hence it is very vital to methodically draft the document with the adequate information concerning ones professional life. It is a skill, and specialists in resume writing have taken it as a full time profession too. But individuals have to be skilled to draft their own resume as it is going to be advantageous for their careers and only they know themselves better

2. Interview Skills

Interviewing for an occupation needs a good amount of self-confidence, panache and interpersonal communication sense. They way in which you reflect yourself during an interview give hiring managers a first notion of you as a probable staffer, and set the quality for how you would perform in an daily capacity. Interview skills for setting yourself separately from your competition include advance preparation and research, Some of the to do things in an interview include: □ Organizing the materials required for interview □ Good dressing sense □Being cheerful and expressive □ Having a positive body posture

3. Leadership Quality

The aptitude to lead relies on a number of key skills, but different leaders have different styles of leadership. Leadership in itself is a constellation of various skill sets like : • Effective Communication • Motivation • Delegation • Trustworthiness • Creativity • Feedback •Responsibility • Decision Making • Strategic Planning • People Management • Persuasion and Influence • Change Management

Total 60 students and 5 faculties are participated in this Session

This Lecture is coordinated by Prof.Paresh Khairnar under the guidance of Prof. Rohit Garad HoD Mechanical Engineering.

Name of the event: The blueprint of Success for Engineers

Date of the event : 09/02/2023 Time: 10:30 am -12:30 pm

Venue : Seminar Hall (Room no. 242)

The department of Electronics and Telecommunication is organizing the motivational speech for TE students of E&TC and Computer department. This motivational speech will cover the different queries, insecurities faced by youth and how to overcome them. The chief guest for this event is Mr. Raghvan koli who is founder, author and motivational speaker.

Event Report

Academic Year: 2022-2023 **Semester-II**

Name of the event: The Blueprint of Success for Engineers

Date and Time	9th Feb 2023 , 10:30 am to 12:30 pm
Event Venue	Seminar Hall No. 242
Organized by	E&TC Dept
Targeted Audience	TE
Resource Person	**Mr. Raghavan Koli (Founder, Author, Motivational Speaker)**

Event Contents:

1. Motivational speech for students
2. How to do unique things during engineering

Details of the event:

Today's youth are so energetic, enthusiastic and always ready to learn new things. But the main problem with them is to stay focused and motivated. Sometimes even the smallest distraction is sufficient to lose the focus. Sometimes students are under pressure because of parent's expectations, tough competition and peer pressure. Considering the importance of mental health of our students, we E&TC dept organized an event called "The Blueprint of Success for Engineers".

In this event Mr. Raghavan Koli who is motivational speaker discussed the issues faced by students, he nicely explained how to tackle the tough situation, how to bring right attitude and how to build the personality required to face the world. He gave real time examples of students who failed in the initial stage of life but them due to their hard work and dedication they became successful in their life.

Event Report

Academic Year: 2021-22 **Semester-II**

Name of the event: Guest lecture on Soft skills and Technical Knowledge

Date and Time	18/02/2022 12.00 to 01.00 pm
Event Venue	Dr D Y Patil School of Engineering
Organized by	Mechanical Department
Targeted Audience	50
Resource Person	Ms. Tanushree Das (Process Asscociate at Whitehat Jr Education and Alumni of Mechanical Dept, DYPSOE)

Event Contents:

1. What is difference between CV, Resume, and Bio-data
2. How to handle Interviews
3. How communication helps in professional career
4. How to take part in Group Discussion
5. How to write CV effectively

Details of the event:

The department of Mechanical Engineering had organized guest lecture on "**Soft skills and Technical Knowledge**" for the benefit of pre-final year students of D Y Patil School of Engineering. Ms. Tanushree Das Process Asscociate at Whitehat Jr Education and Alumni of Mechanical Dept, DYPSOE was the resource persons for this training program.

During the formal inaugural session, Prof. Pooja R. Nawathe, Coordinator of Alumni welcomed the gathering and also introduced resource persons to the students.

Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

First session of training began with identifying the differences between CV, resume and bio data. In the training program, the students were taught about some good etiquette to be followed while attending interviews. Tips and guidelines for attending HR interview were also dealt in detail. A mock HR round interview was also shown. Few frequently asked questions and the effective answers for those questions were discussed.

In the second session, she gave tips to write attractive CV also advised what the things to be written in CV. She also focused on what is group discussion, how to take part in group discussion, Dos and Don'ts in group discussion. After giving these tips students were made to take part in group discussions under the guidance of resource person.

In the third session, she discussed how communication skills helps in building professional career. In that, she explain following points:

- Listening to others and showing interest in what they say
- Dealing with telephone conversations appropriately
- Encouraging interest and interaction from others in your team
- Expressing an opinion or asking a question clearly
- Being able to persuade others

At the end of the day program concluded with feedback from students and vote of thanks by Coordinator.

Event Report

Academic Year: 2021-22 **Semester-I**

Name of the event: Seminar on Soft Skills and Placement Talk

Date and Time	09/09/2021 2.00 to 3.00 pm
Event Venue	Dr D Y Patil School of Engineering
Organized by	Mechanical Department
Targeted Audience	60
Resource Person	Mr. Abhishek Bharti and Dattaprasad Suvarnkar (Vanderlande and Alumni of Mechanical Dept, DYPSOE)

Event Contents:

1. What is difference between CV, Resume, and Bio-data
2. How to handle Interviews
3. How to take part in Group Discussion
4. How to write CV effectively

Details of the event:

The department of Mechanical Engineering had organized seminar on "**Soft Skills and Placement Talk**" for the benefit of pre-final year students of D Y Patil School of Engineering. Mr. Abhishek Bharti and Dattaprasad Suvarnkar works in Vanderlande and Alumni of Mechanical Dept, DYPSOE) were the resource persons for this training program.

During the formal inaugural session, Prof.Pooja R Nawathe, Coordinator of Alumni welcomed the gathering and also introduced resource persons to the students.

Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

First session of training began with identifying the differences between CV, resume and bio data. In the training program, the students were taught about some good etiquette to be followed while attending interviews. Tips and guidelines for attending HR interview were also dealt in detail. A mock HR round interview was also shown. Few frequently asked questions and the effective answers for those questions were discussed.

In the second session, Mr. Dattaprasad Suvarnkar gave tips to write attractive CV also advised what the things to be written in CV. He also focused on what is group discussion, how to take part in group discussion, Dos and Don'ts in group discussion. After giving these tips students were made to take part in group discussions under the guidance of resource person.
At the end of the day program concluded with feedback from students and vote of thanks by Coordinator.

Event Report

Academic Year: 2021-22 **Semester-II**

Name of the event: Webinar on importance of soft skills

Date and Time	11.05.2022
Event Venue	Online (MS Teams App)
Organized by	E&TC Department
Targeted Audience	TE and BE Class (E&TC)
Resource Person	**Miss. Ananya Chattopadhyay**

Event Contents:

If we look for the definition, soft skills include **attributes and personality traits that help employees interact with others and succeed in the workplace**. Examples of soft skills include the ability to communicate with prospective clients, mentor your coworkers, lead a team, negotiate a contract, follow instructions, and get a job done on time.

For TE and BE students, it is important to make them realize the importance of soft skills because they will be starting with the placements activity and move to the corporate world.

Our guest lecturer, Miss. Ananya has cleared more than 4-5 company selection process during her final year placements. I wanted her to share her experience during HR rounds and technical rounds with our students so that they will come to know about the process and also the important skills that requires for clearing such HR rounds.

Soft skills include how we present our self, our communication ethics and command over language etc. She also explained how students can groom themselves and few video links she shared which helps students for improvement of soft skills.

1. **Event objective:**

Soft skills play an important role in resume writing, interviewing and finding success in communicating with people at work and in other areas of your life. Soft skills are often transferable across careers and industries. As a result, you may find that you possess many of the required traits even if you don't match the exact profile in a job description. As you search for jobs, pay special attention to posts calling for candidates with soft skills or traits you possess. Even if the job title isn't a great fit, you may find that the description makes sense for you. As you progress through the job search process, keep your resume updated to reflect soft skills most relevant to the jobs you're applying for.

2. Event Content:

The event notice is circulated to students with prior instructions one week before. The session was started sharp at 03:00 pm. The workshop started with a basic introduction of softskills, Improtance of Communication and types of communication and its importance,Problem solving techniues,imporance of team work , critical thinking.very importantly time management& decision making is explained for the students.Also we have guided them.How to handle stress of lecture , practical and exams.

Also some Good Basic Life Lessons are given to students regarding there responsibility as a students How to develop important soft skills Technical competency is the core of your career in engineering.

Guided them regarding Myers-Briggs Indicators test and provided them the free Test link so that by giving test they can check there personality type and devlop them self accordingly.most importantly guided them regarding ethicks and standard practice should be followed in student life

As a feedback, the participants appreciated the event. A few students shared their experiences as very useful, informative and excellent. The participants will look forward to attend similar sessions in future.

Event Report

Name of the Event: Webinar on "Personality Development Program"
Date: 25/11/2021
Time: 1:00 PM to 03:00 PM
Venue: Online Microsoft Teams
Students: Students of D.Y.Patil School of Engineering.

Report:

Department of Computer Engineering has organized a **Webinar on topic "Personality Development Program".** On 25th November 2021 from 01:00 PM to 03:00 PM for Students of D.Y.Patil School of Engineering. The Webinar was headed by Ms. Komal Jakotiya who is Assistant Professor in DYPSOE,Pune.

The session started with Ms. Komal Jakotiya explaining the Objectives and Outcomes of the session. Komal Madam explained different strategies for development of personality. She also gave some tasks and conducted some activity for students as a part of webinar. This webinar improves students Self-awareness, Improved focus and effectiveness, a sense of direction and motivation.

The points covered are:

- Personal Development Planning
- Preparing Your Elevator Pitch
- Relaxation and Learning
- Taking the 16 Personalities Test
- Writing a Letter to Your Future Self
- Learning to Speed Read
- Solo Travel
- Online Therapy
- Planting Something
- Defining Your Ideal Ordinary Week

Organized by	Department of E&TC, DYPSOE
Targeted Audience	E&TC Students (SE, TE, & BE)
Resource Person	**Mr. Abhilash Sasane, Assistant Manager, Product technical specialist, CISCO Pune**

Details of the event:

1. **How to improve communication**
2. **Tips to frame a Resume**
3. **Current needs of company**

Event Report:

The Department of E&TC organized a alumni guest lecture on title, "Employability Skills Development" on 01/05/2021. Mr. Abhilash Sasane, Assistant Manager, Product technical specialist, CISCO, Pune, is an alumnus of batch 2015-2016 was the chief guest of the day. This Guest lecture was conducted for all the E&TC Students The main theme of the guest lecture is to enlighten the minds of budding engineers in terms of resume building, personality skill development for their successful placement.

In this lecture Mr. Abhilash insisted the students to read English novels and newspapers to develop communication skill. He also instructed to listen to communication videos for better pronunciation which will increase the chance of recruitment. He imparted the importance of

Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

communication skill and provided some tips to frame the resume professionally to catch the attention of the interviewer. He highlighted the current needs of the company, based on service and customer-oriented products. He guided about the interview session as per the expectations of top companies. He also shared, how he faced the interview and what kind of skills are required for the students to develop, so that, they would be recruited. He motivated the students to take part in all kinds of training regarding placement. Total 47 students from SE, TE and BE attended the lecture which was arranged by Prof. Prajakta Khairnar. Alumni Coordinator Prof. Prajakta Khairnar welcomed the gathering and proposed the vote of thanks.

Resource Person	Mrs. Priti Umbargand

Event Contents:

1. Introduction of Guest & Agenda of event

i. Importance of Language lab

ii. 4 pillars of English Language viz. Listening, Speaking, Reading and Writing

Details of the event:

Department of Engineering Sciences (FE) have organized Life skill workshop: "Language laboratory". Guest Speaker invited for conduction of event is Mrs. Priti Umbargand, Teacher English

The language laboratory plays an important role in the language learning process. The focus is on the analysis and evaluation of receptive & productive skills based on various taskbased/machine-based activities. It also focused on the development of target and scenario

Ajeenkya DY Patil School of Engineering Lohegaon, Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

based communication processes using correct English for language learning purposes It focuses on the development of students' language & communication skills, critical thinking, and problem solving skills through the understanding of 4 pillars of English Language viz. Listening, Speaking, Reading and Writing.

Listening

Listening Skills Listening is a receptive language skill which learners usually find the most difficult. This often is because they feel under unnecessary pressure to understand every word. The listener has to get oriented to the listening portion and be all ears. The listener is also required to be attentive. Anticipation is a skill to be nurtured in Listening. In due course of listening, be in a lookout for the sign post words and one should be able to concentrate on understanding the message thoroughly. Listening Skills is enhanced by focusing on making the students listen to the sounds and help them with the right pronunciation of words. In our Language Lab: We progress from Attention to Accuracy through Situational Conversations/Role Play/Development of Argumentative Skills (using BEC audio in the Labs) and then the assessment is carried out.

Speaking

Speaking Language is a tool for communication. We communicate with others, to express our ideas, and to know others' ideas as well. We must take into account that the level of language input (listening) must be higher than the level of language production. In primary schools, elocution and recitation are main sources to master the sounds, rhythms, and intonation of the English language through simple reproduction. Understanding of para-linguistic attributes such as voice quality, volume and tone, voice modulation, articulation, pronunciation etc helps to better this skill. What we do? We initiate with make a presentation on self-followed by the basics of Public speaking; Etiquette while following correct voice modulation and acceptable Paralinguistic features. As we gear up for our further sessions, we assess the ability of being able to use acquired Speaking Skills using Extempore- Continuous Evaluation tool. Finally, through self reflection activity, they will be able to make a comparison in one's evolution in terms of one's communication ability in a semester

Ajeenkya DY Patil School of Engineering Lohegaon, Pune

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

Reading

Reading is a learning skill. It helps you improve all parts of the English language – vocabulary, spelling, grammar, and writing. It helps to develop language intuition in the corrected form. Then the brain imitates them, producing similar sentences to express the desired meaning. Using skimming or scanning technique to read quickly is highly effective. While reading underlining of key words is necessary. Reading Skills help the students grasp the content and draw conclusions. The students should also make it a point to familiarize themselves with the jargons and new words by making reading a habit be it reading newspapers, articles, books, magazines etc What we do and assess in labs? We expose them to the different techniques of reading and we take them through the practice session through mind map. Then we assess the ability of Reading Comprehension using standard BEC Reading Comprehension using Continuous Evaluation tool.

Writing

Writing provides a learner with physical evidence of his achievements and he can measure his improvement. It helps to consolidate their grasp of vocabulary and structure, and complements the other language skills. It helps to understand the text and write compositions. It can foster the learner's ability to summarize and to use the language freely. To write flawless language one should excel in the Writing Skills with the help of various methods. Importance should be given to composition and creative writing. One should also focus on coherence when it comes to writing a language. In these sessions, we help them to identify and apply critical thinking skills in writing. Assessment session helps them to apply language & reflective skills to create a write up for given iconic images.

Teaching of English language while ensuring focus on all these four skills provides a platform for the learners to hone their proficiency in this language well.

The event is concluded with vote of thanks by Prof. Pooja R. Nawathe. The technical support was provided by Mr Nikesh Patole.

Event Contents:

Guest Lecture was conducted by the department of Artificial Intelligence and Data Science, on 1st September 2022, 03:30 pm to 04.30 pm. Chief guest Col. Abhay Mane, Director of Training, College of Military Engineering, Pune, has taken a lecture on topic "**Vantage Point**" which was focused on **Leadership, Effective Communication & Teams** for second year students.

The speaker motivated the students on different Personal development skills like Leadership Quality, Effective Communication and Team work. He also discussed about the opportunities in Armed Force Services for students.

After his lecture the students were given time to interact with him. Students felt that the session was more informative and interactive. At the end of the guest lecture, students gave their feedback, and explained how they were benefited.

Event Report

Academic Year: 2021-22 **Semester-II**

Name of the Event: Seminar on "The Language Lab: A Comprehensive Guide to Language Learning"

Date and Time	11/04/2022, 2:00 am to 03:00 pm
Event Venue	Offline
Organized by	Prof. Awes Ansari
Targeted Audience	FE batch 2021-22
Resource Person	Mrs. Priti Umbargand

Event Contents:

1. Introduction of Guest & Agenda of event

i. Importance of Language lab

ii. 4 pillars of English Language viz. Listening, Speaking, Reading and Writing

Details of the event:

Department of Engineering Sciences (FE) have organized Life skill workshop: "Language laboratory". Guest Speaker invited for conduction of event is Mrs. Priti Umbargand, Teacher English

The language laboratory plays an important role in the language learning process. The focus is on the analysis and evaluation of receptive & productive skills based on various taskbased/machine-based activities. It also focused on the development of target and scenario

Ajeenkya DY Patil School of Engineering Lohegaon Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

based communication processes using correct English for language learning purposes It focuses on the development of students' language & communication skills, critical thinking, and problem solving skills through the understanding of 4 pillars of English Language viz. Listening, Speaking, Reading and Writing.

Listening

Listening Skills Listening is a receptive language skill which learners usually find the most difficult. This often is because they feel under unnecessary pressure to understand every word. The listener has to get oriented to the listening portion and be all ears. The listener is also required to be attentive. Anticipation is a skill to be nurtured in Listening. In due course of listening, be in a lookout for the sign post words and one should be able to concentrate on understanding the message thoroughly. Listening Skills is enhanced by focusing on making the students listen to the sounds and help them with the right pronunciation of words. In our Language Lab: We progress from Attention to Accuracy through Situational Conversations/Role Play/Development of Argumentative Skills (using BEC audio in the Labs) and then the assessment is carried out.

Speaking

Speaking Language is a tool for communication. We communicate with others, to express our ideas, and to know others' ideas as well. We must take into account that the level of language input (listening) must be higher than the level of language production. In primary schools, elocution and recitation are main sources to master the sounds, rhythms, and intonation of the English language through simple reproduction. Understanding of para-linguistic attributes such as voice quality, volume and tone, voice modulation, articulation, pronunciation etc helps to better this skill. What we do? We initiate with make a presentation on self-followed by the basics of Public speaking; Etiquette while following correct voice modulation and acceptable Paralinguistic features. As we gear up for our further sessions, we assess the ability of being able to use acquired Speaking Skills using Extempore- Continuous Evaluation tool. Finally, through self reflection activity, they will be able to make a comparison in one's evolution in terms of one's communication ability in a semester

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Reading

Reading is a learning skill. It helps you improve all parts of the English language – vocabulary, spelling, grammar, and writing. It helps to develop language intuition in the corrected form. Then the brain imitates them, producing similar sentences to express the desired meaning. Using skimming or scanning technique to read quickly is highly effective. While reading underlining of key words is necessary. Reading Skills help the students grasp the content and draw conclusions. The students should also make it a point to familiarize themselves with the jargons and new words by making reading a habit be it reading newspapers, articles, books, magazines etc What we do and assess in labs? We expose them to the different techniques of reading and we take them through the practice session through mind map. Then we assess the ability of Reading Comprehension using standard BEC Reading Comprehension using Continuous Evaluation tool.

Writing

Writing provides a learner with physical evidence of his achievements and he can measure his improvement. It helps to consolidate their grasp of vocabulary and structure, and complements the other language skills. It helps to understand the text and write compositions. It can foster the learner's ability to summarize and to use the language freely. To write flawless language one should excel in the Writing Skills with the help of various methods. Importance should be given to composition and creative writing. One should also focus on coherence when it comes to writing a language. In these sessions, we help them to identify and apply critical thinking skills in writing. Assessment session helps them to apply language & reflective skills to create a write up for given iconic images.

Teaching of English language while ensuring focus on all these four skills provides a platform for the learners to hone their proficiency in this language well.

The event is concluded with vote of thanks by Prof. Pooja R. Nawathe. The technical support was provided by Mr Nikesh Patole.

Interaction with students for guiding them to increase their skills and potential.

The Department of Civil Engineering of Dr. D. Y. Patil School of Engineering organized a Guest lecture on Intellectual Learning Solutions (ILS) on 8TH JANUARY 2020.

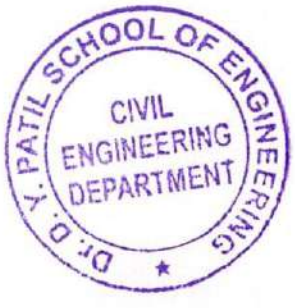
It was organized with the prior permission and guidance of honorable Principal of DYPSOE and initiative of our HOD Prof.S.Karodpati.

INTRODUCTION

The lecture was delivered by Mr. Shubham Sorte (founder & CEO of ILS) and Ankit Khiradkar (co-founder & MD of ILS).They were best what they were!!!
Their attitude their approach to the things was a different kind. In fact it was a communication session and was delightful. Mr. Shubham Sorte was excellent at memorizing things.

He told us to write 20 words on blackboard and within 10 sec he learnt all the words within few second, which was impressive. For a normal person it would take 10-15 minutes or might be more but he was actually good at this. These techniques will be taught in their classes

Being a civil engineering student, the most important technical event to us is bridge making and normally a student can build a bridge which can take load up to max 50 kg but he showed a bridge which took the weight of 250kg. This session was impressive and motivating for the students to excel in our exams.



Principal

Introduction:

Mr. Shubham Sortee had a presentation on a course for S.E students. He started by demonstrating an activity on the importance of Confidence. The activity required the student to speak for 1 minute on any topic. Kiran Netke won the contest and a Non-fiction book.

Importance of enthusiasm and opportunism was explained. How a person can be influential in their daily life.

Most practical study methods: -

Mr. Shubham conducted an activity in which students were asked to come-up with some words, which he asked a student to write it on board. Then he asked students to memorize those words in 10 second. As the students failed to recite the terms, Mr Shubham incredibly recited all those words in the order they were written, also backwards, and any word associated with a number. He then proceeded to explain students how they can have a memory which can recollect almost anything and how these tricks can help them in their exams.

Objective: Interaction with students for guiding them to increase their skills and potential.

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Communication Mastery and Entrepreneurship:

- Later on, in the seminar, Mr Shubham explained how communication skills are important in life.
- An example was given on communication skills,' A person with skills in more likely to get accepted in a job interview than a person with less to no skills but have a great academic record.'
- Also, how entrepreneurship is better than a job and skills required like marketing and branding will be taught in the course.
- The course will also include business ideas: some ideas with a low investment, as low as 20,000/- INR.
- Methods to have an attractive personality; Confident body language, Voice tune and vocabulary.

Be the best version of yourself:

- The course included a module for the students to bring out the best version of themselves.
- This included:

i. Habits of highly successful personalities
ii. Development of better self-image.
iii. Mindset of millionaires
iv. Trick and tips to be more effective and efficient.
v. Preparing a roadmap for success.

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

Become a Pro Player in Civil Engineering:

This module teaches

1.Drawing & designing 2.Estimating & Costing

3.On site Material examination 4.Documentation process

- Also there will be a workshop were students will be building a Bridge, Water Tank, Cantilever beam & Tower.
- Then there will be a competition between students for the structures they build during this workshop.
- There will be a cash prize of 3000/- INR for the best builder.
- Also there will be a guest lecture by an Expert in the field of Civil engineering on the subject of respectable field.

Outcomes:

- Many students enrolled themselves, as they have an opportunity to enhance their skills and help them grow.

Activity 1. Guest lecture on communication skills

The Department of Civil Engineering and Department of Mechanical Engineering, of DYPSOE,Lohegaon have organized a guest lecture of "Toast Masters" a social and cultural group on 20th August 2019, to impart better communication skills into the students. The permission for the programme was sought from the Honourable Director E.B. Khedkar, who remained as a guiding force for Prof. S. M .Karodpati and his team for the smooth conduction of programme. The efforts of all faculty and suppor staff is highly appreciated.

❖ **INTRODUCTION:**

The program was started with welcome speech and introduction of the Toast Masters by Ms Aparna. She was very specific in emphasising the importance of public speaking and addressing S.E. students to undertake a resolution for individual to speak in English only so long as there are in the College.

Engineering, Lohegaon, Pune

HIGHLIGHTS OF THE PROGRAM

After the introduction Ms Aparna the next speaker Srgt. Adhiraj took ove and went on to explain the day schedule. He talked about the various Toast masters and their speeches and other happening in the program.

Next the President of Toast masters, Mrs Vasuda, came on stage and briefly described the functioning and the role of gave introduction of Toast masters, explained her duty as President.

Toast Master Aparna gave some interesting anecdotes. She told how she got inspired from the lead actor from the movie "**MISSION MANGAL**". She told how the dedication shown by the actor inspired her to be better.

Next Ms. Pallavi came on stage to give self introduction. She also gave speech on the subject "**SHARMAJI KA BETA".** It was quiet funny and relatable to students as she was also an engineer.

Next Mr.Vikram talked about various things he does for the society and community. He provides help to Old-age homes, Orphanage, Animal Shelters, etc

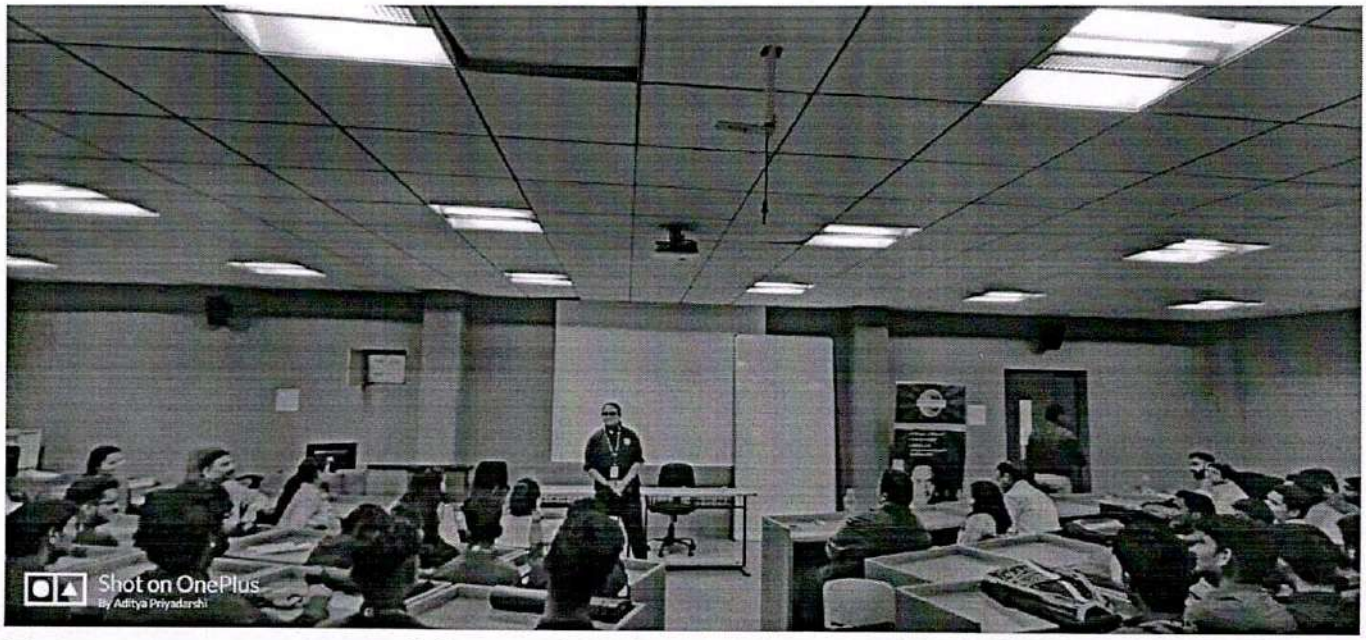
❖ **Fun Games for students:**



Fun game was arranged for student.The Game was called Table Talker. The game was to speak on a given random topic. Four students were selected randomly for this game. Rules were simple, each participant has to speak for atleast for 1 min and maximum for 2 mins. Anyone who doesn't abide by gets disqualified.
The different topics included:

1. Why do we need friends?
2. What if zero wasn't discovered?
3. What's the difference between Engineers and non Engineers?
4. Pen is mightier than sword.

Also Word of the day and IDIOM of the day were given. Participants were told to use these words in their speeches. Whenever these words were used, audience was to show thumbs up to the talking individual.
2 out of 4 Students were qualified. Mrs. Vasuda explained and corrected the mistake of the participants.

Mr.Vikram Explained the concept of Table Talker. Also told the importance of great communication skill in daily life.
As the session proceeded the other kind of games were also held between the Toast Masters to demonstrate how thoe were to be played. Each of them judged other.Again Mrs. Vasuda corrected and explained the mistakes.

❖ Conclusion

The program concluded the importance of communication skills and how it is a betterment of life.

Students were encourage to join Toast Masters to help them gain the confidence and skills to master their life.This also explained the importance of Public Speaking.

The most important outcome of the programme was that almost all students demanded to keep such similar Toast master's sessions in future and make it as a continuous activity of learning the public speaking techniques and mass communication.

Organized by	Prof. V. D. Tirpude
Targeted Audience	FE batch 2019-20
Resource Person	Mrs. Priti Umbargand

Event Contents:

1. Introduction of Guest & Agenda of event

i. Importance of Language lab

ii. 4 pillars of English Language viz. Listening, Speaking, Reading and Writing

Details of the event:

Department of Engineering Sciences (FE) have organized Life skill workshop: "Language laboratory". Guest Speaker invited for conduction of event is Mrs. Priti Umbargand, Teacher English

The language laboratory plays an important role in the language learning process. The focus is on the analysis and evaluation of receptive & productive skills based on various taskbased/machine-based activities. It also focused on the development of target and scenario

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Dr. D.Y. Patil School of Engineering Lohegaon Pune * First Year Engineering

based communication processes using correct English for language learning purposes It focuses on the development of students' language & communication skills, critical thinking, and problem solving skills through the understanding of 4 pillars of English Language viz. Listening, Speaking, Reading and Writing.

Listening

Listening Skills Listening is a receptive language skill which learners usually find the most difficult. This often is because they feel under unnecessary pressure to understand every word. The listener has to get oriented to the listening portion and be all ears. The listener is also required to be attentive. Anticipation is a skill to be nurtured in Listening. In due course of listening, be in a lookout for the sign post words and one should be able to concentrate on understanding the message thoroughly. Listening Skills is enhanced by focusing on making the students listen to the sounds and help them with the right pronunciation of words. In our Language Lab: We progress from Attention to Accuracy through Situational Conversations/Role Play/Development of Argumentative Skills (using BEC audio in the Labs) and then the assessment is carried out.

Speaking

Speaking Language is a tool for communication. We communicate with others, to express our ideas, and to know others' ideas as well. We must take into account that the level of language input (listening) must be higher than the level of language production. In primary schools, elocution and recitation are main sources to master the sounds, rhythms, and intonation of the English language through simple reproduction. Understanding of para-linguistic attributes such as voice quality, volume and tone, voice modulation, articulation, pronunciation etc helps to better this skill. What we do? We initiate with make a presentation on self-followed by the basics of Public speaking: Etiquette while following correct voice modulation and acceptable Paralinguistic features. As we gear up for our further sessions, we assess the ability of being able to use acquired Speaking Skills using Extempore- Continuous Evaluation tool. Finally,through selfreflection activity, they will be able to make a comparison in one's evolution in terms of one's communication ability in a semester.

D.Y. Patil School of Engineering Lohegaon Pune First Year Engineering

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Reading

Reading is a learning skill. It helps you improve all parts of the English language – vocabulary, spelling, grammar, and writing. It helps to develop language intuition in the corrected form. Then the brain imitates them, producing similar sentences to express the desired meaning. Using skimming or scanning technique to read quickly is highly effective. While reading underlining of key words is necessary. Reading Skills help the students grasp the content and draw conclusions. The students should also make it a point to familiarize themselves with the jargons and new words by making reading a habit be it reading newspapers, articles, books, magazines etc What we do and assess in labs? We expose them to the different techniques of reading and we take them through the practice session through mind map. Then we assess the ability of Reading Comprehension using standard BEC Reading Comprehension using Continuous Evaluation tool.

Writing

Writing provides a learner with physical evidence of his achievements and he can measure his improvement. It helps to consolidate their grasp of vocabulary and structure, and complements the other language skills. It helps to understand the text and write compositions. It can foster the learner's ability to summarize and to use the language freely. To write flawless language one should excel in the Writing Skills with the help of various methods. Importance should be given to composition and creative writing. One should also focus on coherence when it comes to writing a language. In these sessions, we help them to identify and apply critical thinking skills in writing. Assessment session helps them to apply language & reflective skills to create a write up for given iconic images.

Teaching of English language while ensuring focus on all these four skills provides a platform for the learners to hone their proficiency in this language well.

The event is concluded with vote of thanks by Prof. V. D. Tirpude. The technical support was provided by Mr Nikesh Patole.

Students: Students from TE Computer Engineering

Report:

ACE had organized a Guest Lecture on "[illegible] Course-(German)" for six days from 21st September 2019 to 28th September 2019 from 02.00 PM to 05.00 PM for TE Students of Computer Engineering. The lecture was headed by Ms. Priyanka Kalvit who is internationally certified in German language.

The session started with Ms. Priyanka Kalvit explaining basics of German language and then moving forward to alphabets and number system on the first day. On the second day she taught students on how to introduce themselves in German and she also played German rhymes for students to understand the language better. On the last day of session, she taught the grammar used in German and also explained the importance of German language in Engineers life.

The points covered are:

1. Alphabets and Number System in German
2. Introduction of a person and Rhymes in German
3. Introduction to basic German grammar.

The session was followed by student questions where they inquired more about German language and its scope.

ACE Event Report

Name of the Event: Guest Lecture on "Audit Course- I (German Language)"
Date: 03/09/2018 to 12/09/2018
Time: 02.00 PM to 05.00 PM
Venue: Lab 331
Students: Students from SE Computer Engineering

Report:

Computer Department organized a Guest Lecture on "Audit Course- I (German Language)" for seven days from 03rd September 2018 to 12th September 2018 from 02.00 PM to 05.00 PM for SE Students of Computer Engineering. The lecture was headed by Miss Asmita Nakhate who is internationally certified in German language.

The session started with Miss Asmita Nakhate explaining basics of German language and then moving forward to alphabets and number system on the first day. On the second day she taught students on how to introduce themselves in German and she also played German rhymes for students to understand the language better. On the last day of session, she taught the grammar used in German and also explained the importance of German language in Engineers life.

The points covered are:

1. Alphabets and Number System in German
2. Introduction of a person and Rhymes in German
3. Introduction to basic German grammar.
4. German Language vocabulary.

The session was followed by student questions where they inquired more about German language and its scope.

Event Report

Academic Year: 2018-19 **Semester-II**

Name of the Event: Seminar on "The Language Lab: A Comprehensive Guide to Language Learning"

Date and Time	20/05/2019, 10:00 am to 11:00 am
Event Venue	Offline
Organized by	Prof. Tejaswini Kulkarni
Targeted Audience	FE batch 2018-19
Resource Person	Mrs. Priti Umbargand

Event Contents:

1. Introduction of Guest & Agenda of event

i. Importance of Language lab

ii. 4 pillars of English Language viz. Listening, Speaking, Reading and Writing

Details of the event:

Department of Engineering Sciences (FE) have organized Life skill workshop: "Language laboratory.". Guest Speaker invited for conduction of event is Mrs. Priti Umbargand, Teacher English

The language laboratory plays an important role in the language learning process. The focus is on the analysis and evaluation of receptive & productive skills based on various taskbased/machine-based activities. It also focused on the development of target and scenario

Dr. D.Y. Patil School of Engineering Lohegaon Pune First Year Engineering

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

based communication processes using correct English for language learning purposes It focuses on the development of students' language & communication skills, critical thinking, and problem solving skills through the understanding of 4 pillars of English Language viz. Listening, Speaking, Reading and Writing.

Listening

Listening Skills Listening is a receptive language skill which learners usually find the most difficult. This often is because they feel under unnecessary pressure to understand every word. The listener has to get oriented to the listening portion and be all ears. The listener is also required to be attentive. Anticipation is a skill to be nurtured in Listening. In due course of listening, be in a lookout for the sign post words and one should be able to concentrate on understanding the message thoroughly. Listening Skills is enhanced by focusing on making the students listen to the sounds and help them with the right pronunciation of words. In our Language Lab: We progress from Attention to Accuracy through Situational Conversations/Role Play/Development of Argumentative Skills (using BEC audio in the Labs) and then the assessment is carried out.

Speaking

Speaking Language is a tool for communication. We communicate with others, to express our ideas, and to know others' ideas as well. We must take into account that the level of language input (listening) must be higher than the level of language production. In primary schools, elocution and recitation are main sources to master the sounds, rhythms, and intonation of the English language through simple reproduction. Understanding of para-linguistic attributes such as voice quality, volume and tone, voice modulation, articulation, pronunciation etc helps to better this skill. What we do? We initiate with make a presentation on self-followed by the basics of Public speaking; Etiquette while following correct voice modulation and acceptable Paralinguistic features. As we gear up for our further sessions, we assess the ability of being able to use acquired Speaking Skills using Extempore- Continuous Evaluation tool. Finally,through selfreflection activity, they will be able to make a comparison in one's evolution in terms of one's communication ability in a semester

Reading

Reading is a learning skill. It helps you improve all parts of the English language – vocabulary, spelling, grammar, and writing. It helps to develop language intuition in the corrected form. Then the brain imitates them, producing similar sentences to express the desired meaning. Using skimming or scanning technique to read quickly is highly effective. While reading underlining of key words is necessary. Reading Skills help the students grasp the content and draw conclusions. The students should also make it a point to familiarize themselves with the jargons and new words by making reading a habit be it reading newspapers, articles, books, magazines etc What we do and assess in labs? We expose them to the different techniques of reading and we take them through the practice session through mind map. Then we assess the ability of Reading Comprehension using standard BEC Reading Comprehension using Continuous Evaluation tool.

Writing

Writing provides a learner with physical evidence of his achievements and he can measure his improvement. It helps to consolidate their grasp of vocabulary and structure, and complements the other language skills. It helps to understand the text and write compositions. It can foster the learner's ability to summarize and to use the language freely. To write flawless language one should excel in the Writing Skills with the help of various methods. Importance should be given to composition and creative writing. One should also focus on coherence when it comes to writing a language. In these sessions, we help them to identify and apply critical thinking skills in writing. Assessment session helps them to apply language & reflective skills to create a write up for given iconic images.

Teaching of English language while ensuring focus on all these four skills provides a platform for the learners to hone their proficiency in this language well.

The event is concluded with vote of thanks by Prof. Tejaswini Kulkarni. The technical support was provided by Mr Nikesh Patole.

Event Report

Academic Year: 2022-23 **Semester-II**

Name of the event: Women's Health and Hygiene

Date and Time	12th April 2023 2:00pm to 3:00pm
Event Venue	MS Teams Online Platform
Organized by	Prof. Shakti Kaushal
Targeted Audience	Girl Students
Resource Person	**Mrs. Namrata Bhingarde**

Event Contents:

1. Women's Health and Hygiene

Details of the event:

On 12th April 2023, the Department of Artificial Intelligence and Data Science organized a one day live webinar on "Women's Health and Hygiene." The session was conducted by Mrs. Namrata Bhingarde, who is a renowned journalist, creator, and the founder of Streelok, a podcast that destigmatizes menstruation.

The webinar was aimed at helping girl students understand the importance of maintaining good health and hygiene practices and providing them with practical tips and guidance to lead a healthy and happy life.

Mrs. Namrata Bhingarde started the session by discussing the importance of maintaining good health and hygiene practices, especially during menstruation. She highlighted the common myths and misconceptions associated with menstruation and emphasized the need to break the taboo around it. She also talked about menstrual cups, which are a sustainable and eco-friendly alternative to traditional sanitary pads and tampons. She explained the benefits of using

Ajeenkya DY Patil School of Engineering A&DS Engineering Lohegaon, Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

menstrual cups and how they can help women lead a comfortable and hassle-free life during their menstrual cycle.

The resource person also answered queries of the participants related to menstrual cups and menstruation in general. The participants actively participated in the session and asked relevant questions, which were answered by the resource person.

Overall, the one day live webinar on "Women's Health and Hygiene" was a huge success.

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the event: Webinar on**'Mental Health and Happiness'**

Date and Time	09/11/2022
Event Venue	Virtual Meet via MS team app
Organized by	Department of Engineering Sciences (F.E.) – Prof. Awes Ansari
Targeted Audience	Newly admitted students of First Year Engineering of Batch 2022-23
Resource Person	Dr. Nidhie A Navander Child, Adolescent & Rehabilitation Psychologist

Event Contents:

1. The event notice is circulated to students with prior instructions one week before. The session started sharp at 11.00 am. The workshop started with a basic introduction She discussed importance of sharing thoughts opening and urged new generation to be vocal about addressing all the psychological issues. She discussed how to handle stress and anxiety, also she explained students how good eating habit and healthy lifestyle affects mental health.

Engineering, Lohegaon, Pune

2. She has discussed What is a mental illness.How to regulate your feelings and behavior. Types of mental illness, or mental health disorder
3. Also discussed different patterns or changes in thinking, feeling or behaving that cause distress or disrupt a person's ability to function.
4. Barriers to treating childhood mental health disorders, Eating disorders, Depression and other mood disorders and at last how mental illness in children treated.

Details of the event:

Mental health is the overall wellness of how you think, regulate your feelings and behave. A mental illness, or mental health disorder, is defined as patterns or changes in thinking, feeling or behaving that cause distress or disrupt a person's ability to function.

Mental health disorders in children are generally defined as delays or disruptions in developing age-appropriate thinking, behaviors, social skills or regulation of emotions. These problems are distressing to children and disrupt their ability to function well at home, in school or in other social situations.

Common disorders among children that are discussed in the event

Mental health disorders in children — or developmental disorders that are addressed by mental health professionals — may include the following:

- **Anxiety disorders.** Anxiety disorders in children are persistent fears, worries or anxiety that disrupt their ability to participate in play, school or typical age-appropriate social situations. Diagnoses include social anxiety, generalized anxiety and obsessive-compulsive disorders.
- **Attention-deficit/hyperactivity disorder (ADHD).** Compared with most children of the same age, children with ADHD have difficulty with attention, impulsive behaviors, hyperactivity or some combination of these problems.
- **Autism spectrum disorder (ASD).** Autism spectrum disorder is a neurological condition that appears in early childhood — usually before age 3. Although the severity

Dr. D.Y. Patil School of Engineering Lohegaon Pune
First Year Engineering

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

of ASD varies, a child with this disorder has difficulty communicating and interacting with others.

- **Eating disorders.** Eating disorders are defined as a preoccupation with an ideal body type, disordered thinking about weight and weight loss, and unsafe eating and dieting habits. Eating disorders — such as anorexia nervosa, bulimia nervosa and binge-eating disorder — can result in emotional and social dysfunction and life-threatening physical complications.

- **Depression and other mood disorders.** Depression is persistent feelings of sadness and loss of interest that disrupt a child's ability to function in school and interact with others. Bipolar disorder results in extreme mood swings between depression and extreme emotional or behavioral highs that may be unguarded, risky or unsafe.

- **Post-traumatic stress disorder (PTSD).** PTSD is prolonged emotional distress, anxiety, distressing memories, nightmares and disruptive behaviors in response to violence, abuse, injury or other traumatic events.

- **Schizophrenia.** Schizophrenia is a disorder in perceptions and thoughts that cause a person to lose touch with reality (psychosis). Most often appearing in the late teens through the 20s, schizophrenia results in hallucinations, delusions, and disordered thinking and behaviors.

How is mental illness in children treated?

Common treatment options for children who have mental health conditions include:

- **Psychotherapy.** Psychotherapy is also known as talk therapy or behavior therapy. Psychotherapy is a way to address mental health concerns by talking with a psychologist or other mental health professional. With young children, psychotherapy may include play time or games, as well as talk about what happens while playing. During psychotherapy, children and adolescents learn how to talk about thoughts and feelings, how to respond to them, and how to learn new behaviors and coping skills.

- **Medication.** Your child's health care provider or mental health professional may recommend a medication — such as a stimulant, antidepressant, anti-anxiety medication, antipsychotic or mood stabilizer — as part of the treatment plan. Your child's provider will explain risks, side effects and benefits of drug treatments.

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the Event: Life skill Workshop: Yoga & Meditation-need for health and happiness.

Date and Time	26/11/2022, 9:00 am to 10:00 am
Event Venue	Online MS team platform
Organized by	Dr. Shobha Rupanar
Targeted Audience	Newly admitted FE batch 2022-23
Resource Person	Mr. G. Venkateshwaran

Event Contents:

1. Introduction of Guest & Agenda of event

1. Boosts student performance and overall academic improvement.
2. Helps students gain the determination to achieve their goals thereby transforming them into better students.
3. Calms down frustration among students who suffer from instability of their emotional well-being.
4. Increases self-confidence and quality of relationships that you make with other people.
5. Alleviates psychological pressure in students that are capable of triggering various symptoms of depression.

2. Need of yoga and meditation for youth for overall development

3. Meditation and yoga have direct contribution to improve mental focus and concentration among students.

4. Physical exercise like Asanas

5. Pranayama like Bhastrika, Kapalbharati, Anulom-vilom, Udgit & Bhramari etc.

6. Causes of stress & its type, Solution for stress, anxiety, hypertension etc.

Details of the event:

Department of Engineering Sciences (FE) in association with FESA have organized Life skill workshop: "Like skill workshop: Yoga & Meditation- Need for health & Happiness. Guest Speaker invited for conduction of event is Mr. G. Venkateshwaran, Sr., Teacher at Art of Living, Pune

Recent survey on different parameter & psychological studies revealed that 60-70% of youth generation are falling into depression due to stress. Youth of modern age is not leading quality and happy life. In Academic life student have to perform different task like exam preparation, thinking of job, handling of financial stress, handling of social response, fulfillment of parent expectations & demand, handling of family issues. As a result they are sinking themselves into undesirable academics & personal problems making them feel lost. Due to loss of self-confidence & loneliness student will not be able to perform simple task. Sometimes worst situations leads them into dark phase where come back is not possible. This situation badly affect their mental and physical health. At this junction stress reliving activities are necessary. They works as a antidotes to stress, anxiety & tension. As per modern curriculum given by the AICTE, awareness of physical activity includes yoga & exercise are compulsory at the time Student Induction Programme.

The event notice is circulated to students with prior instructions one day before. The first session is started sharp at 9:00 am. Mr. G. Venkateshwaran explained aspects of yoga for enhancing the immunity. He also gave detailed information about different meditation techniques and hast mudras (Hand Postures) used at the time of yoga. He explained the importance of Music and yoga for mind. Mind is the major part, which controls the entire body. So mind should be tuned properly. For tuning the mind, music and yoga are the important factors that will help to develop sound health. He also taught some important yoga exercise which can be used as stress relieving activity. He highlighted the roles played by Dhyana, Dharana and Samadhi that help musicians to attain perfection in their performance.

Engineering, Lohegaon, Pune

In second session, Mr. G. Venkateshwaran demonstrated the different asana and pranayama useful for students in their academic life. The student participants made a demonstration of the Asanas learnt by them in the workshop. The event is concluded with vote of thanks by Prof. Arya. The technical support was provided by Prof. Awes Ansari.

Event Report

Academic Year: 2021-22 **Semester-II**

Name of the event: Group Discussion on "Right to live for Everyone" on Zero Discrimination Day

Date and Time	2nd March 2022 3:00pm to 5:00pm
Event Venue	Online (MS Teams)
Organized by	Prof. Sonal Durgule
Targeted Audience	SE Students
Resource Person	**NA**

Event Contents:

1. Group Discussion on "Right to live for everyone" on occasion of Zero Discrimination Day
2. Quiz on "Zero Discrimination Day"

Details of the event:

On Zero Discrimination Day, 1 March, we celebrate the right of everyone to live a full and productive life—and live it with dignity. On 2nd March 2022, a Group discussion on the topic "Right to live for everyone" was organized wherein the students shared their views on various social issues in the Indian society as well as colleges and how to prevent discrimination.

The group discussion was followed by a quiz on "Zero Discrimination Day".

1. **Event objective**:

The present-day lifestyle among students' calls for the need for yoga and meditation in order to achieve the overall development of a student. As these two play an important role, they should be inculcated in the student curriculum. Meditation and yoga have direct contribution to improve mental focus and concentration among students.

2. **Event Content:**

The event notice is circulated to students with prior instructions one day before. The session was started sharp at 11:00 am. The workshop started with a basic introduction of Yoga, Pranayama and Dhyana and their implementation in day-to-day lives, practical demonstration of Sukshama Vyayama, Surya Namaskar, various Asanas, Kapalbhati and Bhastrika Pranayama. Dr. Shobha Rupanar explained aspects of yoga for enhancing the immunity and the roles played by the eight limbs of yoga like Yama, Niyama, Asana, Pranayama and Pratyahara in life. She also explained that, few minutes of yoga during the day can be a great way to remove stress which accumulates daily, in both, body and the mind. To reduce the stress Yoga postures, Pranayama and meditation are effective techniques. She also gave detailed information about different meditation techniques and hast mudras (Hand Postures) used at the time of yoga. She explained the importance of Music and yoga for mind. She also taught some important yoga exercise like 12 Step & 54 step Surya Namaskar with advanced Power Yoga. In second session, Dr. Shobha demonstrated the different asana and pranayama useful for students in their academic life. The student participants made a demonstration of the Asanas learnt by them in the workshop. They enjoyed the session fully and were greatly benefitted.

As a feedback, the participants appreciated the event. A few students shared their experiences as very enjoyable, useful, informative and excellent. The participants will look forward to attend similar sessions in future. The event was concluded with vote of thanks by Dr. Bhagwad Gidhad.

3. Feedback of event:

Sr. No.	Name of Students	How satisfactory was the structure of the content?
1	Mohammed Merajuddin	Excellent
2	Om kanadve	It was nice.
3	Akash Ramesh Madhavan	Nice
4	Shashank Kushwaha	It was good
5	Komal Patil	Mostly
6	Priyal Kalal	Practicals
7	Raushan Kumar Yadav	Great
8	YASH ADAGALE	The program was quite well organised.
9	Akshita Kumari	The session was very informative and helpful.
10	Supriya	Great
11	Om khandve	Mostly satisfactory
12	Pratik Bhimrao Mohadikar	Very good
13	Shantanu Shukla	Best content
14	Hitendra Sirvi	Today's topics were really good. And the structure of the content was satisfying.
15	Shahil Digambar Ambule	Very good and informative.
16	Ajit veer	Best
17	Nagesh Khichade	It's awesome session. Teaching yoga as a passion is great thing. .
18	Abhishek Suresh Bhandwalkar	Yes
19	Gaikwad Pratik	Nice
20	Aaradhya Dhawale	Session was very interesting & productive, learnt very useful steps of yoga which can give relief from any kind of stress.
21	Rishi Mewara	Nice
22	Rakesh Hokrani	Excellent
23	Suchet Suri	It was very good and informative.
24	Singh Rakeshkumar Yogendra	Very much satisfied
25	Omkar Thawal	Very
26	Vighnesh Kunjir	Session was good.
27	Krushna Gajanan Chaugule	10/10
28	Rohan Sanjay Balsaraf	Nice
29	Shambhuraj Sunil Chavan	Very well!
30	Sudhanshu Gondane	good
31	Rittik Kumbhakar	It's very useful and satisfactory for me.
32	Anurag Amale	Finely satisfied
33	Anushka Pansare	Content was most satisfactory
34	Ritesh Kumar	It was good

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

35	Rohan Ravindrakumar Gawade	Good
36	Tanaya Jagdale	The session was quite good.
37	Navneet Narayan	Very good

Engineering, Lohegaon, Pune

1. **Event objective**:

The present-day lifestyle among students' calls for the need for yoga and meditation in order to achieve the overall development of a student. As these two play an important role, they should be inculcated in the student curriculum. Meditation and yoga have direct contribution to improve mental focus and concentration among students.

2. **Event Content:**

The event notice is circulated to students with prior instructions one day before. The first session is started sharp at 9:00 am. Mr. Pratish explained aspects of yoga for enhancing the immunity and the roles played by the eight limbs of yoga like Yama, Niyama, Asana, Pranayama and Pratyahara in life. He also gave detailed information about different meditation techniques and hast mudras (Hand Postures) used at the time of yoga. He explained the importance of Music and yoga for mind. Mind is the major part, which controls the entire body. So mind should be tuned properly. For tuning the mind, music and yoga are the important factors that will help to develop sound health. He also taught some important yoga exercise. She highlighted the roles played by Dhyana, Dharana and Samadhi that help musicians to attain perfection in their performance.

In second session, Mr. Pratish demonstrated the different asana and pranayama useful for students in their academic life. The student participants made a demonstration of the Asanas learnt by them in the workshop. The event is concluded with vote of thanks by Dr. Shobha Rupanar.

Counseling Lecture Report

Academic Year: 2020-2021 **Semester - 2**

Topic: To Succeed With Joy.

Date and Time	22/05/2021
Event Venue	Online
Organized by	Department of Mechanical Engineering
Targeted Audience	SE,TE and BE All Student
Resource Person	**Mr. Yuvaraj Patil (Counselor)**

Details of the lecture:

Counseling lecture on 'How to Make the Right Habits for Success' was organized on **08/03/2021** at Dr. D. Y. Patil School of Engineering, Pune. Following points were discussed in depth by Student Counselor Mr. Yuvaraj Patil.

a. Be an optimist...
b. Don't try predicting the future.
c. Focus on solution.
d. Increases productivity.
e. Eliminate distractions
f. Get a mentor.
g. Believe in the right things.

Finally he wishes to all students for their bright future and also gave promise for any help during academics.

Webinar Report

ON

WORLD WATER DAY 2021 AND ROLE OF YOUTH

On 22 March, 2021, World Water Day was celebrated in an online event at Dr.D.Y.Patil School of Engineering,Lohegaon. On this auspicious occasion, Col.Shashikant Dalvi (retd.) DIRECTOR PARJANYA was the Chief Guest, in the function. Around 90 students including 11 faculties participated in this function. On this occasion, a webinar on WORLD WATER DAY 2021 AND ROLE OF YOUTH

In his address, Chief Guest, Col.Shashikant Dalvi (retd.) DIRECTOR PARJANYA emphasized on different aspects of water acquisition, conservation and storage, and utilization. Keeping in view of continuing stress in water availability (<1500 cubic meter per person per year), all round efforts should be made on recharge of ground water, efficient storage in water reservoirs, raising efficiency in water utilization, safe disposal/recycle of used water. He highlighted the fact that our culture should integrate *Gyan, Dharma* and *Karma* in valuing water. Technological interventions such as conjunctive use of water, precision land leveling, life saving/supplementary irrigation, alternate cropping systems including intercropping, diversified and sustainable land use and multiple use of water could help in improving water productivity in both rainfall and irrigated areas of the country.

VALUING WATER

Water means different things to different people. This conversation is about what water means to you. How is water important to your home and family life, your livelihood, your cultural practices, your wellbeing, your local environment?

In households, schools and workplaces, water can mean health, hygiene, dignity and productivity. In cultural, religious and spiritual places, water can mean a connection with creation, community and oneself. In natural spaces, water can mean peace, harmony and preservation.

Today, water is under extreme threat from a growing population, increasing demands of agriculture and industry, and the worsening impacts of climate change.

The current status of water resources highlights the need for improved water resources management. Recognizing, measuring and expressing water's worth, and incorporating it into decision-making, are fundamental to achieving sustainable and equitable water resources management and the Sustainable Development Goals (SDGs) of the United Nations' 2030 Agenda for Sustainable Development.

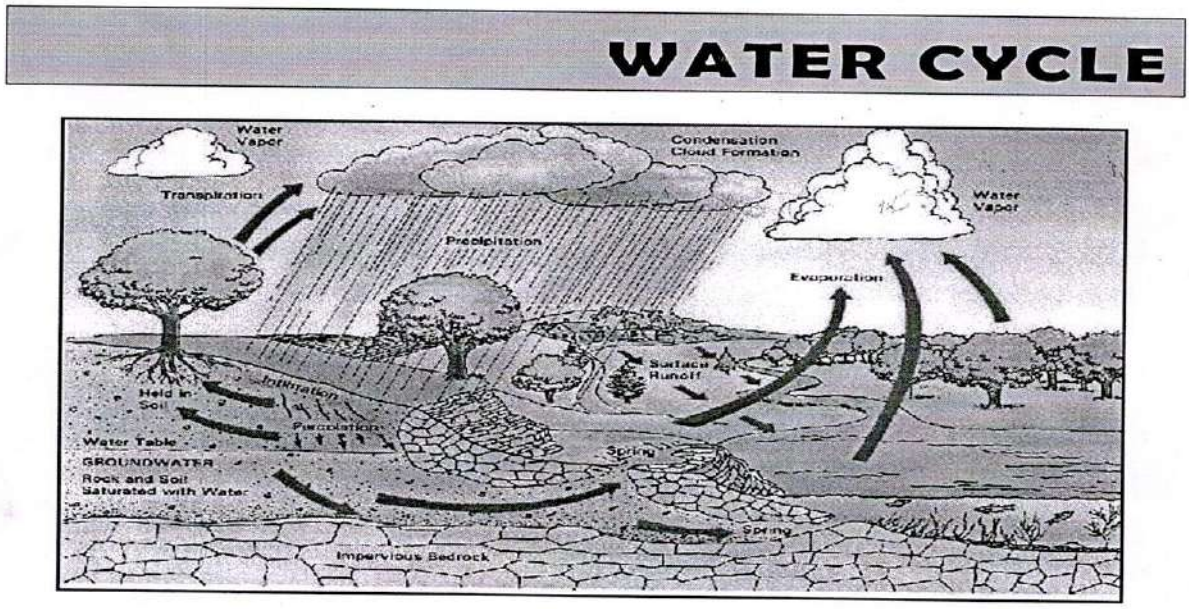
CIVIL
ENGINEERING
DEPARTMENT

Those who control how water is valued control how it is used. Values are a central aspect of power and equity in water resources governance. The failure to fully value water in all its different uses is considered a root cause, or a symptom, of the political neglect of water and its mismanagement. All too often, the value of water, or its full suite of multiple values, is not prominent in decision-making at all..



WATER USERS

- The main users of water are
- Agriculture – 70%
- Industry – 22%
- Domestic – 8%
- Presently, industry accounts for 22 per cent of the global freshwater consumption. It is expected that the figure will double over the next two decades. The volume of water consumed per year by industry will rise from 752 km3/year in 1995 to an estimated 1,170 km3/year by 2025.
- Industrial use of water has a direct bearing on the country's economy. This means that as India increase its GDP, there will be a corresponding increase in water use by Indian industries.

History of RWH - India

Timescale	Response for RWH
4500 BC	Origin of simplest earthworks in Thar desert, Rajasthan.
2600 BC	Dholavira(Harappan civilization)develops rainwater harvesting systems (TANKS)
324–300 BC	During the reign of Chandragupta Maurya, the arid Kathiawad region saw the construction of a large reservoir named Sudarsana.
268–231 BC	Reign of Ashoka the Great. Large-scale water harvesting structures built.
AD 570–1335	The Vijayanagar or Anagudi kings constructed numerous reservoirs in dry Dharwad.
7th century AD	As the surface water becomes further scarce, step-wells develop in Gujarat and Rajasthan.
AD 1052	Qila Rai Pithora, the forest capital city of the Sultanate thrived because of rainwater harvest, as there was no other alternative source of water.
AD 1300–1700	The Deccan capitals of the medieval period develop extensive urban water-supply systems. Monsoon being the only source of water in the Deccan, some of the most notable networks of earthworks known to humanity are built here.
AD 1336	Founding of the kingdom of Vijayanagara, notable for developing rainwater harvesting systems in South India.
AD 1509	Rana Sanga of Mewar built baoris, tanks and ponds.
AD 1685–1691	The Dheber lake or Jaisamand lake built by Rana Jai Singh II. The lake irrigated 4860 ha.
AD 1800	Lalsagar, one of the five large reservoirs around Jodhpur city, constructed.
AD 1896–1897	The year of Bihar Famine. Interestingly, Gaya district did not require any relief work because of the elaborate, traditional rainwater harvesting systems.

Water Crisis –Pune

पत्र सूचना कार्यालय, भारत सरकार

Press Information Bureau, Government of India

•Measures Initiated by The Government to Check Unsustainable Over-Extraction of Ground Water The annual extraction of groundwater in the country is by far the highest in the world and the growing dependence on ground water has led to over unsustainable / over extraction which is lowering the water table in many parts of the country. Giving this information in written reply to a question in the Lok Sabha, Shri Vincent H. Pala, Minister of State for Water Resources, said that to check this the measures initiated by the Government in the Eleventh Five Year Plan (2007-12) are :

•(iii) Various activities including mass awareness campaigns, training programmes, workshops, painting competitions etc, have been organized under the scheme of Information, Education & Communication of Ministry of Water Resources.

•(v) The Central Ground Water Authority (CGWA) has directed all the Residential Group Housing Societies/ Institutions/Schools/ Hotels/ Industrial Establishments falling in the over-exploited and critical areas (Except in the water logged areas) in the country to adopt Roof Top Rain Water harvesting systems in their premises.

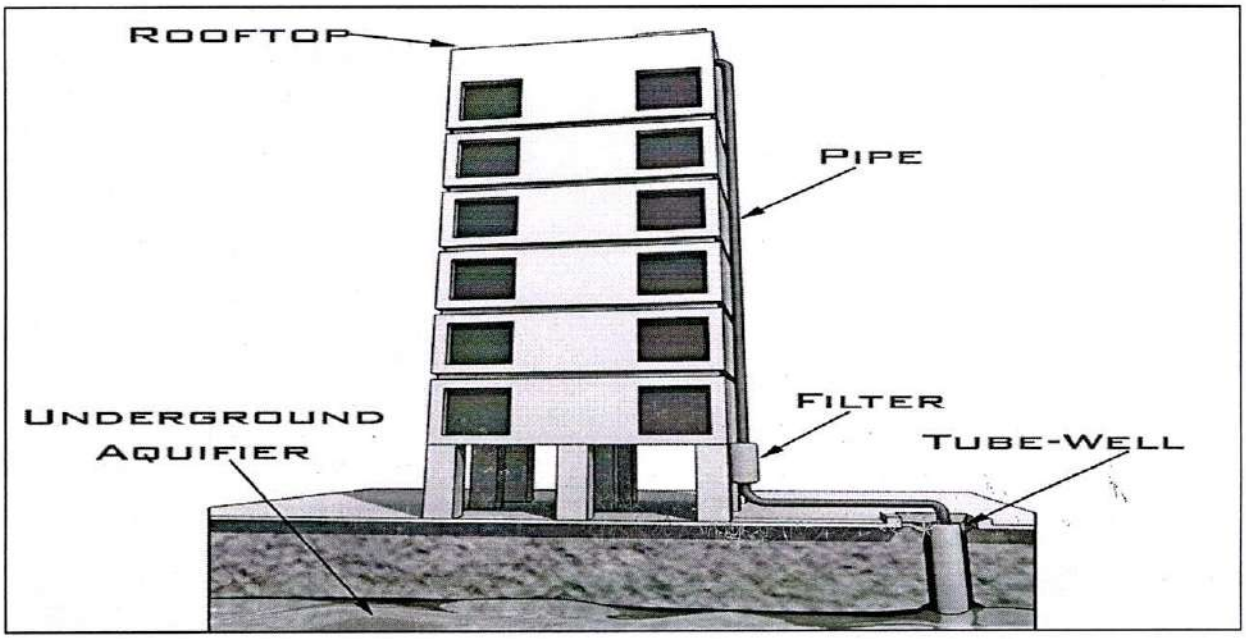
RAINWATER HARVESTING



- **Why to harvest RAIN?**
- Water availability per capita has been on the decline in India. Two reasons have been the increasing demand for water and the increasing population.
- Agriculture continues to be the single largest consumer of water however industrial demand for water shows the fastest growth.
- It makes ecological and financial sense not to waste a pure natural resource available in large quantity on one's roof.
- Private purchase of water from tankers is unreliable in quality and is also expensive.
- It encourages water conservation and self-dependence.

India is blessed with adequate rainfall as a whole, rainwater harvesting can provide lifeline water for survival and more.

Outcomes:

The students learned following things:

- Students understood that water is integral part of life and civilization can't survive without water.
- Conservation of water is essential for fulfilling future demand.
- The intention is to inspire people around the world to learn more about water-related issues and to take action to make a difference.

Event Report

Academic Year: 2019-20 **Semester-II**

Name of the Event: Life skill Workshop: Yoga & Meditation-need for health and happiness.

Date and Time	20/02/2020, 9:00 am to 10:00 am
Event Venue	Offline
Organized by	Dr. Shobha Rupanar
Targeted Audience	Newly admitted FE batch 2019-20
Resource Person	Mr. Lal

Event Contents:

1. Introduction of Guest & Agenda of event

1. Boosts student performance and overall academic improvement.
2. Helps students gain the determination to achieve their goals thereby transforming them into better students.
3. Calms down frustration among students who suffer from instability of their emotional well-being.
4. Increases self-confidence and quality of relationships that you make with other people.
5. Alleviates psychological pressure in students that are capable of triggering various symptoms of depression.

2. Need of yoga and meditation for youth for overall development

3. Meditation and yoga have direct contribution to improve mental focus and concentration among students.

4. Physical exercise like Asanas

5. Pranayama like Bhastrika, Kapalbharati, Anulom-vilom, Udgit & Bhramari etc.

6. Causes of stress & its type, Solution for stress, anxiety, hypertension etc.

Details of the event:

Department of Engineering Sciences (FE) in association with FESA have organized Life skill workshop: "Like skill workshop: Yoga & Meditation- Need for health & Happiness. Guest Speaker invited for conduction of event is Mr. Lal, Sports teacher

Recent survey on different parameter & psychological studies revealed that 60-70% of youth generation are falling into depression due to stress. Youth of modern age is not leading quality and happy life. In Academic life student have to perform different task like exam preparation, thinking of job, handling of financial stress, handling of social response, fulfillment of parent expectations & demand, handling of family issues. As a result they are sinking themselves into undesirable academics & personal problems making them feel lost. Due to loss of self-confidence & loneliness student will not be able to perform simple task. Sometimes worst situations leads them into dark phase where come back is not possible. This situation badly affect their mental and physical health. At this junction stress reliving activities are necessary. They works as a antidotes to stress, anxiety & tension. As per modern curriculum given by the AICTE, awareness of physical activity includes yoga & exercise are compulsory at the time Student Induction Programme.

The event notice is circulated to students with prior instructions one day before. The first session is started sharp at 9:00 am. Mr. Lal explained aspects of yoga for enhancing the immunity. He also gave detailed information about different meditation techniques and hast mudras (Hand Postures) used at the time of yoga. He explained the importance of Music and yoga for mind. Mind is the major part, which controls the entire body. So mind should be tuned properly. For tuning the mind, music and yoga are the important factors that will help to develop sound health. He also taught some important yoga exercise which can be used as stress relieving activity. He highlighted the roles played by Dhyana, Dharana and Samadhi that help musicians to attain perfection in their performance.

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

In second session, Mr. Lal demonstrated the different asana and pranayama useful for students in their academic life. The student participants made a demonstration of the Asanas learnt by them in the workshop. The event is concluded with vote of thanks by Prof. Rohini gadgil. The technical support was provided by Nikesh Patole.

Activity Report on International Day of Yoga (21st June, 2018)

The 4th International Yoga Day was celebrated on 21 June 2018, Thursday at **Dr D Y Patil School of Engineering, Pune** with great enthusiasm. Almost 70 participants took part in that event. **Dr. S. S Sonavane, Director, DYP-TC** with students and faculty members participated in the event. The Yoga session started exactly at 11.30 am with Prayer, and systematic practice of different 'ASANAS" of standing, sitting and laying positions smoothly changing in succession under the instructions of Yoga teacher **Prof. Harbans Chauhan**. The session of asanas followed by Pranayama.

In this event various yoga asanas along with benefits explained by the Yoga expert. He stressed on the need of practicing Yoga and Yoga as a way of life. The benefits of yoga for the participants, according to the expert.

- All-round fitness
- Weight loss
- Stress relief

D. Y. Patil Sch. of Engg. Mech. Engg. Department * PUNE *

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

- Inner peace
- Improved immunity
- Living with greater awareness
- Better relationships
- Increased energy
- Better flexibility & posture
- Better intuition.

Event Report

Academic Year: 2018-19 **Semester-I**

Name of the Event: Life skill Workshop: Yoga & Meditation-need for health and happiness.

Date and Time	20/05/2019, 9:00 am to 10:00 am
Event Venue	Offline
Organized by	Prof. Shobha Rupanar
Targeted Audience	Newly admitted FE batch 2018-19
Resource Person	Mr. Lal

Event Contents:

1. Introduction of Guest & Agenda of event

1. Boosts student performance and overall academic improvement.
2. Helps students gain the determination to achieve their goals thereby transforming them into better students.
3. Calms down frustration among students who suffer from instability of their emotional well-being.
4. Increases self-confidence and quality of relationships that you make with other people.
5. Alleviates psychological pressure in students that are capable of triggering various symptoms of depression.

2. Need of yoga and meditation for youth for overall development
3. Meditation and yoga have direct contribution to improve mental focus and concentration among students.

Dr. D. Y. Patil School of Engineering Lohegaon Pune First Year Engineering

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

4. Physical exercise like Asanas

5. Pranayama like Bhastrika, Kapalbharati, Anulom-vilom, Udgit & Bhramari etc.

6. Causes of stress & its type, Solution for stress, anxiety, hypertension etc.

Details of the event:

Department of Engineering Sciences (FE) in association with FESA have organized Life skill workshop: "Like skill workshop: Yoga & Meditation- Need for health & Happiness. Guest Speaker invited for conduction of event is Mr. Lal, Sports Teacher

Recent survey on different parameter & psychological studies revealed that 60-70% of youth generation are falling into depression due to stress. Youth of modern age is not leading quality and happy life. In Academic life student have to perform different task like exam preparation, thinking of job, handling of financial stress, handling of social response; fulfillment of parent expectations & demand, handling of family issues. As a result they are sinking themselves into undesirable academics & personal problems making them feel lost. Due to loss of self-confidence & loneliness student will not be able to perform simple task. Sometimes worst situations leads them into dark phase where come back is not possible. This situation badly affect their mental and physical health. At this junction stress reliving activities are necessary. They works as a antidotes to stress, anxiety & tension. As per modern curriculum given by the AICTE, awareness of physical activity includes yoga & exercise are compulsory at the time Student Induction Programme.

The event notice is circulated to students with prior instructions one day before. The first session is started sharp at 9:00 am. Mr. Lal explained aspects of yoga for enhancing the immunity. He also gave detailed information about different meditation techniques and hast mudras (Hand Postures) used at the time of yoga. He explained the importance of Music and yoga for mind. Mind is the major part, which controls the entire body. So mind should be tuned properly. For tuning the mind, music and yoga are the important factors that will help to develop sound health. He also taught some important yoga exercise which can be used as stress relieving activity. He highlighted the roles played by Dhyana, Dharana and Samadhi that help musicians to attain perfection in their performance.

Dr. D.Y. Patil School of Engineering Lohegaon Pune

In second session, Mr. Lal demonstrated the different asana and pranayama useful for students in their academic life. The student participants made a demonstration of the Asanas learnt by them in the workshop. The event is concluded with vote of thanks by Prof. Tirpude. The technical support was provided by Prof. Shobha Rupnar.

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the Event	"Seminar on Internet of Things"
Date and Time	06th Sep 2022, 01.00 PM To 3.00 PM
Event Venue	E&TC Seminar Hall
Organized by	Computer Engineering Department
Targeted Audience	TE Students
Resource Person	Mr. Arpit Singh

Details of the event:

Computer Engineering Department had organized "**Seminar on Internet of Things**" for TE students on 06th Sep 2022 Tuesday, 1.00 PM to 3.00 PM at E&TC Seminar Hall.

Mr. Arpit Singh, Principal Cloud Service Consultant (Windchill PLM & IOT), PTC software India, was invited as a speakers for this Seminar. Mr. Arpit Singh gave the seminar on internet of Things. He explains about what is IoT, Key Components of IoT. He covered the basic concepts like Sensors, Actuators, and Connectivity and how IoT devices works.

He explained use of hardware kits like Arduino Uno, Raspberry Pi and other hardware resources like bread board, jumper cables etc. which are used for developing IoT system. He also give brief introduction about different types of sensors like IR sensor, Temperature sensor etc.

In addition he gave demo of calculating distance of objects using raspberry pi kit and other resources. This demo was very interesting and useful for students. He also gave brief

DY Patil School of Engineering, Lohegaon, Pune

Principal

introduction about different job profiles in IoT field and other fruitful information.

The event was beneficial to the students as they got to understand the importance of IoT in real life and in industrie

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the Event	" Seminar on Problem Solving Session on Pushdown Automata & Turing Machine "
Date and Time	10th & 11th November 2022, 11.00 AM Onwards
Event Venue	Computer Lab 331
Organized by	Computer Engineering Department
Targeted Audience	Students of Third Year Computer Department
Resource Person	Dr. Rajesh Phursule. Associate Professor in PCCOE, Pimpri Chinchwad

Details of the event:

Computer Engineering Department had organized "Seminar on Problem Solving Session on Pushdown Automata & Turing Machine "on 10th & 11th November 2022, 11.00 AM Onwards in Computer Lab 331. Dr. Rajesh Phursule Sir has 19 years of teaching experience with great knowledge of TOC subject. Dr. Rajesh Phursule gave the lecture on importance of Theory of computation. The seminar on this subject was helpful for solving different types of Computational Problems. This seminar helps them to understand how to solve numerical asked in theory exams and it will be easy for the students to know more about TOC.

Dr. Rajesh Phursule sir covered the topic of Pushdown Automata and he covered all the basic and difficult topic related to pushdown automata and taken different types of numerical asked in exam based on push down Automata. Also he shared the knowledge about the Turing Machine which will be definitely useful for the students. Third year students of three division taken the benefit of this seminar.

The queries raised by the attendees were satisfactorily solved by the speakers. The event was

DY Patil School of Engineering Lohegaon, Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

beneficial to the students as they got to understand the important functionalities of the subject Theory of Computation are required to understand its concepts.

Event Notice

Academic Year: 2022-2023 **Semester-I**

Name of the event: Guest Lecture

Speaker Name: Prof. Pranali Chavhan (Asst. Prof. ,VIIT,Pune)

Date of the event : 16/10/2022 Time: 01:00 PM

Venue : Online on Google meet

This is to inform SE Computer Engineering students that Guest Lecture on Computer Graphics subject will be scheduled on 16th October 2022 on weekend ie Sunday. The session will start at sharp 1:00 pm on Google meet.

Note: Attendance is compulsory for the sessions.

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the event: Guest Lecture

Date and Time	16/10/2022 Time:01:00 PM
Event Venue	Google meet
Organized by	Prof. Priti Rathod
Targeted Audience	64
Resource Person	**Prof. Pranali Gajanan Chavhan**

Event Contents:

1. Colour Models
2. Illumination Models
3. Shading Algorithms
4. Hidden Surface

Details of the event:

Computer Engineering Department organized a Guest Lecture on Computer Graphics from 1:00 PM to 3.00 PM for SE Students of Computer Engineering The lecture was headed by **Mrs. Pranali G. Chavhan who** is working as Assistant Professor in VIIT, Pune.

When studying computer graphics students should know geometry, transformations, projections. Those are all done in the vertex shader. Our examples have been white wireframes of the geometry. Now we will proceed to fragment shader, where the geometry has been rasterized and we can calculate the color our pixels should have. This is the main job of the fragment shader - to give out a color value for a pixel. In OpenGL the fragment shader gets, among other values, the *gl_FragCoord* value as input. This value is the coordinate in the screen space (also called window space). There are three main shading models that are used for different results: flat shading; Gouraud shading; Phong shading.

Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

There are different techniques on how to assign a color to the rasterized pixels. In this we will take a look at those techniques and see the differences between them. In 3D computer graphics, hidden-surface determination (also known as shown-surface determination, hidden-surface removal (HSR), occlusion culling (OC) or visible-surface determination (VSD)) is the process of identifying what surfaces and parts of surfaces can be seen from a particular viewing angle. A hidden-surface determination algorithm is a solution to the visibility problem, which was one of the first major problems in the field of 3D computer graphics. The process of hidden-surface determination is sometimes called hiding, and such an algorithm is sometimes called a hider. When referring to line rendering it is known as hidden-line removal. Hidden-surface determination is necessary to render a scene correctly, so that one may not view features hidden behind the model itself, allowing only the naturally viewable portion of the graphic to be visible.

Considering the rendering pipeline, the projection, the clipping, and the rasterization steps are handled differently by the following algorithms:

1. **Z-buffering**
2. **Coverage buffers (C-buffer) and surface buffer (S-buffer)**
3. **Sorted active edge list**
4. **Painter's algorithm**

The session was followed by student questions where they asked the question about computer graphics working in industries.

Date: 31/ 10 /2022

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the event: Student Development Program on Cyber Security

Date and Time	07/11/2022 to 11/11/2022 Time: 06:00 PM to 08:00 PM
Event Venue	Google meet
Organized by	Prof. Priti Rathod
Targeted Audience	158
Resource Person	Prof. Aswathy Mohan

Event Contents:

1. White Hat Hacker
2. Risk management
3. Behavioural Asymmetries
4. Measuring Cyber Security
5. Security Investment and Management
6. Market Failures and Policies
7. Security Strategies

Details of the event:

Computer Engineering Department organized a Student Development Program on Cyber Security from 6:00 PM to 8.00 PM for TE Students of Computer Engineering the lecture was headed by Aswathy Mohan who is Cyber Security Expert and work as trainer in Electronics & ICT academy, Indian Institute of Technology (IIT) Kanpur.

In Cyber security course student learn about Cyber security risk management **strategic approach to prioritizing threats.** Organizations implement cyber security risk management in order to ensure the most critical threats are handled in a timely manner.

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

DR. D. Y. PATIL SCHOOL OF ENGINEERING COMPUTER DEPARTMENT

An asymmetric cyber-attack which refers to cyber warfare that inflicts a proportionally large amount of damage compared to the resources used by targeting the victim's most vulnerable security measure. In these types of attacks, the perpetrator has an unfair (or asymmetric) advantage over the victim and can be impossible to detect. Oftentimes, the aggressor cannot compete in strength or numbers, making this a popular option among small intelligence groups. **Cyber security refers to the measures taken to protect devices, networks, and data from unauthorized access and criminal use**. Cyber security can span various protection measures, such as preventing cybercriminals from hacking into computers and other connected devices and stealing sensitive information. Cyber security investments are **the security controls, programs, solutions, and technology, to which companies direct funds and human resources**. Some organizations build their cyber defenses by acquiring best-in-class technology, but their security team lacks the staffing or knowledge to fully implement it. Other companies hire the brightest minds in the security industry.

Here are some examples of cyber security policies:

- Acceptable use policy (AUP)
- Access control policy.
- Business continuity plan.
- Data breach response policy.
- Disaster recovery plan, AND.
- Remote access policy.

Top 5 challenges that the cyber security industry is facing today are as follows:-

1. **Ransomware Attack**
2. **IoT Attacks**
3. **Cloud Attacks**
4. **Phishing Attacks**
5. **Cryptocurrency and Blockchain Attacks**

Outcomes:

- Protect networks and data from unauthorized access.
- Improved information security and business continuity management.
- Improved stakeholder confidence in your information security arrangements.
- Improved company credentials with the correct security controls in place.

Subject- Permission to organize Student Development Program(SDP) in association with EICT Academy - IIT Kanpur for students of Computer and AI&DS engineering

Respected sir,

ICT Academy - IIT Kanpur in association with Ajeenkya DY Patil School of Engineering, Lohegaon is planning a Student Development Program on the topics given below :-

1. App Development with Android

2. Cloud Computing -AWS

Start Date - **26th Sept'2022**

End Date - **30th Sept'2022**

Duration - **2 Hours/per day**

No.of days - **5 days**

Cost - **499/- (with gst).**

I request you to kindly give the permission to organize the SDP for students of Computer and AI&DS engineering.

Thanking You,

06/09/22

"Online Student Development Program on Cyber Security (Web Hacking) and Cloud computing using AWS"

Semester-I **Academic Year 2022-23**

Name of the Event: Online Student Development Program on Cyber Security (Web Hacking) and Cloud computing using AWS.

Date: 26th September 2022 to 30th September 2022

Time: 06.00 PM to 08.00 PM

Mode: Google Meet

Report:

The Department of Computer Engineering in association with EICT, IIT, Kanpur had organized "Online Student Development Program on Cyber Security (Web Hacking) and Cloud computing using AWS" from 26th September 2022 to 30th September 2022. **Total 172 students , 76 students for Cyber security course and 96 students for Cloud computing course, actively participated and received the certification.**

Cyber Security (Web Hacking) – Total participants: 76 students.

The lecture on Cyber security (Web Hacking) was headed by Ms. Aswathy Mohan who is Cyber Security Specialist and Trainer in EICT, IIT, Kanpur. Ms. Aswathy Mohan, in her speech addressed

D Y PATIL SCHOOL OF ENGINEERING COMPUTER DEPARTMENT

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

all the audience by her precious words. Shestarted the Programme is designed to enhance the learning and research skills of the participants, to make them aware about modern analytical tools and methodologies. It provides an opportunityto acquire knowledge about current technological developments in relevant fields. Ms Aswathy . Mohan explained the significance of the course. The Programmewas mainly focused on latest security threats, advanced attack vectors, and practical, real-time demonstration of the latest hacking techniques, methodologies, tools, tricks, and security measures. Topics such as Foot printingand Reconnaissance, Vulnerability Analysis, Denial-of-Service, Session Hijacking, Hacking Webservers, Hacking Web Applications, SQL Injection and Cloud computing Attack Vectors, Tools, and Countermeasures, etc. were explained in the course

Outcome: Students/participants will be able to understand issues in cyber-cime and different security threats, to demonstrate real time latest hacking techniques, methodologies, tools, tricks, and security measures.

Cloud Computing using AWS - . – Total participants: 96 students.

The lecture on Cloud Computing using AWS, was conducted by Mr.Rahul who is Cloud Computing Specialist and Trainer in EICT, IIT, Kanpur. Mr. Rahul, in his lecture underlined the definition, concept, effective use, customize, and work over cloud services. In his speech, he sermonized all the students by his knowledgeable andprecious talk. Students could study how to manage, configure and administrate cloud networks. This Course gave detailed information to the participants about the configuration of services in AWS cloud infrastructure, main course was focused on IAAS, where we had to configure each and every service. Topics such as Introduction to Cloud Computing,Cloud Pyramid, Virtualization Concepts, Public Cloud Services – using Amazon Cloud, etc. were covered in the sessions.

Hands-on training to effectively use, customize, andwork over cloud services was conducted.

Outcome: Students/participants will be able to perform essential wan administration tasks including creating instances, s3 services, mail server, load balancing.each and every service.

Event Report

Academic Year: 2022-23 **Semester-II**

Name of Event	" Seminar on ICT Tools like JIRA "
Date and Time	16th March2023, 11.00 AM Onwards
Event Venue	Seminar Hall 242
Organized by	Computer Engineering Department
Targeted Audience	Students of Second Year,Third Year Computer Department
Resource Person	Mr. Sanket Gedam,Technical Manager in IBM,Hinjewadi

Details of the event:

Computer Engineering Department had organized "Seminar on ICT Tools like JIRA "on 16th March 2023, 11.00 AM Onwards in Seminar hall 242. Mr. Sanket Gedam Sir has 18+ years of experience in IT. Mr. Sanket Gedam gave the lecture on importance of different types of tools required in industry. The seminar on this subject was helpful for understanding different types of tools and Problems related to it. This seminar helps them to understand how to used the tools like jira and why it is used in industries and what is the purpose of it.This will be easy for the students to know more about tools.

Mr. Sanket Gedam covered the topic of different tools and its importance and also he covered all the basic and difficult topic related to Jira and other tools. Also he shared the knowledge about the interview question which will be definitely asked in the interviews. Third and second year students of three division taken the benefit of this seminar.

The queries raised by the attendees were satisfactorily solved by the speakers. The event was

Seminar on Data science, Analytics And Machine Learning

Name of the Event: Seminar on Data science, Analytics And Machine Learning

Date: 18th Aug 2022

Time: 11.00AM to 1.00PM.

Mode: Offline

Students: Students from TE Computer Engineering Department

Guest Speaker: Mr. Pravin Mhaske

Report:

Computer Engineering Department organized **"Seminar on Data science, Analytics And Machine Learning"** for TE students of Computer Engineering Department. The session was headed by Mr.Pravin Mhaske, Infosys having 21 years' of experience in Data Science along with ML practice.

The session started with the speaker Mr. Pravin Mhaske explores Data science, Analytics And Machine Learning Concepts and introduces the audience to various technologies and resources for data science specialization and Machine Learning. He also explained various job opportunities in those fields. This session will helpful for students to know about requirements of data science are python programming language, database and SQL.

Event Report

Academic Year: 2022-23 **Semester-II**

Name of the event:

Date and Time	24-3-2023 , 11.00 a.m to 1.00 pm
Event Venue	Computer Department
Organized by	Prof. Amruta Chitari
Targeted Audience	TE Computer Students
Resource Person	Mr. Manish(Inflow Technologies Pvt. Ltd)

Event Contents:

- 50% discount on MS certifications
- Second attempt of MS exam at only Rs 1079/-
- MS Certificate valid for lifetime
- Preparing the students as per industry Standards

Details of the event:

Department of Computer Engineering of Ajeenkya D Y Patil School of Engineering ,Pune along with Inflow Technologies Pvt. Ltd, has organized a Guest Lecture on " Awareness of Microsoft Certification Mapped to AI&ML" on 24th March 2023 from 11am to 1pm for TE & SE students of Computer Engineering , AI&DS & ENTC Department were enlightened with the how to get industrial required certification & detailed information about the different Microsoft certification available in the market . Information was shared regarding training session for the students in the particular technology, in which students who are interested in getting certification

Ajeenkya DY Patil School of Engineering Computer Engineering Lohegaon, Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

will be provided by the company & also full-fledged Guidance will be provided to students for internship & certification .

The event was successfully conducted under the guidance of by HoD Dr.Pankaj M. Agarkar of the dept.

Take away from the event, students were motivated to get certification in current technologies & preparing the students as per industry standard, improve their own skill set for placements.

About 120 students took the advantage of the event form SE, TE class of Computer, AI&DS & ENTC Department.

Event Report

Academic Year: 2022-23 **Semester-I**

Name of the event: Guidance and Technical Session On E-Yantra Robotics Competition

Date and Time	04/ 08 /2022 12.00 pm to 01.00 pm
Event Venue	Dr D Y Patil School of Engineering
Organized by	Mechanical Department
Targeted Audience	TE Mechanical
Resource Person	• Dr. Sarange Shreepad, Associate Professor, Ajeenkya DY Patil School Of Engineering, Lohgaon Pune

Event Contents:

Following are the different contents of 'Guidance and Technical Session On E-Yantra Robotics Competition':

1. Information and Background
2. Participation Rules
3. Themes Preparation
4. Previous themes
5. How to prepare with case study
6. Prize, Cost, Benefits

Details of the event:

The department of Mechanical Engineering had organized the 'Guidance and Technical Session On E-Yantra Robotics Competition' for the benefit of Third year students of D Y Patil School of Engineering. Dr. Sarange Shreepad, Associate Professor, Ajeenkya DY Patil School Of Engineering, Lohgaon Pune was the resource person for this event.
During the formal inaugural session, Prof. Paresh Khairnar, Event Coordinator welcomed the gathering and introduced resource persons to the students.

Dr. D. Y. Patil Sch. of Engg. PUNE Mech. Engg. Department

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

In one hour's, session, resource person introduced about India's biggest robotics competition- the e-yantra Robotics Competition hosted by e-yantra, IIT Bombay. A truly inclusive and international competition that facilitates teams with varied levels of skills - from beginners to advanced teams.

Special features and advantages with case studies like Uses Project-Based Learning (PBL) approach, A truly practical and hands-on learning experience, Experience both technical and soft skill development, mentored by expert technical team, hone ability to solve real-world problems.

During feedback students agreed that (eYRC) An exceptional Opportunity of learning experience.

Academic Year: 2022-23 **Semester-I**

Name of the event: Guest lecture on ""**Seminar on Data science, Analytics And Machine Learning. "**

Date and Time	18.08.2022
Event Venue	SOE Seminar Hall
Organized by	Mechanical Engineering Students Association (MESA)
Targeted Audience	BE Students
Resource Person	Mr.Pravin Mhaske (Data Scientist Infosys)

Report:

Mechanical Engineering Department organized **"Seminar on Data science, Analytics And Machine Learning"** for TE and BE Students of Mechanical Engineering Department. The session was headed by Mr.Pravin Mhaske, Infosys having 21 years'of experiences in Data Science along with ML practice.

The session started with the speaker Mr. Pravin Mhaske explores Data science, Analytics And Machine Learning Concepts and introduces the audience to various technologies and resources for data science specialization and Machine Learning. He also explained various job opportunities in those fields. This session will helpful for students to know about requirements of data science are python programming language, database and SQL.
Total 120 students and 5 faculties are participated in this Session

This Lecture is coordinated by Prof.Vikram Ghule under the guidance of Prof. Rohit Garad HoD Mechanical Engineering.

NOTICE

All the Staff and Students of Civil Engineering Department are hereby informed that from 23rd to 26th of August 2022 a Workshop is arranged on "4 Day Workshop for Python in Civil Engineering". So, everyone should attend the workshop in room no. 030 from 3 pm to 5 pm.

HOD CIVIL

Event Report

Academic Year: 2022-2023 **Semester-I**

Name of the Event: Workshop on Python in Civil Engineering

Date and Time	23th August to 26th August 2022 Time-3:00-5:00 pm
Event Venue	Computer Lab, Room No.030
Organized by	Department of Civil Engineering
Resource Person	Prof. Poonam Bhogade Prof. Sheetal More
Event Coordinator	Dr. Aakanksha Ingle

Event Contents:

1. To understand the basics of Python Programming.
2. To develop Python programs for civil engineering problems
3. To learn Functions of Python like Stream, List, Tuple, etc

Event Outcome:-

1. Understand basics of Python Programming.
2. Knowledge of Python Programming used in Civil Engineering.
3. Understand function Python Programming in Civil Engineering
4. Write Python codes for variety of problems in civil Engineering

Details of the Event:

Our Civil Engineering Department organized a 4 Day's Workshop on "Python in Civil Engineering" from 23th August to 26th August 2022. It was conducted in Computer Lab (Room No. 030) .We had invited resource persons having vast experience in the Python Programming.

Python Programming workshop was intended for hardware and software engineers both for generating the different applications. Moreover it could be beneficial to systems analysts, program managers and user support personnel who wish to learn the Python Programming language. The Objectives behind the arrangement of this workshop was to understand why Python is a useful scripting language for Civil Engineers, to learn how to design and program Python

Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

applications, to learn how to use lists, tuples, and dictionaries in Python programs. Moreover to learn how to use indexing and slicing to access data in Python programs, to learn how to write loops and decision statements in Python.

The First Day of the workshop was the installation of Anaconda and OpenCV software by the students themselves. And the basic introduction about python along with programming and coding techniques were taught. The Second Day of workshop was the Functions and Data structures of Python Programing. We learn the function of Python like Stream, List, Tuple, etc. We learnt about Various types of Libraries in Python Programing that can be used in Civil Engineering. The Third Day of workshop was for solving the various types of Civil Engineering Problems for example Fluid Mechanics, Transportation, etc.

List of Resource Persons with Date and Title of the Topic:

1) Prof. Poonam Bhagade on 23/08/2022 Introduction of Python Programing and Installation of Anaconda Software.
2) Prof. Sheetal More on 24/08/2022 Functions and Data Structures of Python Programing.
3) Prof. Sheetal More on 25/08/2022 Solving the various types of Civil Engineering Problems
4) Prof. Poonam Bhagade and Prof. Sheetal More on 26/08/22 cleared doubts of students and gave some sample coding examples related to Civil Engineering.

Event Report

Academic Year: 2022-23 **Semester-II**

Name of the Event:	"Guest Lecture on Data Visualization "
Date and Time:	24th April 2023, 10.00 AM To 12.00 PM
Mode of Conduction:	Offline
Venue:	242 (E&TC Seminar Hall)
Organized by:	Computer Engineering Department
Targeted Audience:	TE Students
Resource Person:	**Mr. Anuj Musale**

Details of the event:

Computer Engineering Department had organized Seminar on **"Guest Lecture on Data Visualization"** for TE students on 24th April 2023 Monday, 10.00 PM to 12.00 PM.

Mr. Anuj Musale from Oza Robotics and Information Technology was invited as a speakers for this Lecture.

He gave the brief information on data analytics. Then he start with the topic of data visualization, challenges to big data visualization, data visualization techniques and tools in data analytics etc. and then he proceed with how these tools are used in industry and also gave the brief information about how get a job in data analytics domain.

The seminar was beneficial to the students as they got to understand the importanec

Event Report

Academic Year: 2022-23 **Semester-II**

Name of the Event: "Seminar on Information Security"

Date and Time: 14th March 2023, 11.00 AM To 1.00 PM

Mode of Conduction: Offline

Organized by: Computer Engineering Department

Targeted Audience: TE Students

Resource Person: Prof. Satish Gujar

Details of the event:

Computer Engineering Department had organized **"Seminar on Information Security"** for TE students on 14th March 2022 Tuesday, 1.00 PM to 3.00 PM. Prof. Satish Gujar, HoD in Computer Department of TSSM BSCOER, Narhe, was invited as a speakers for this Seminar. Prof. Satish Gujar gave the seminar on network and system Security. He explains OSI Security architecture, Access Control, and various types of attacks like Flooding attacks, DOS, Distributed DOS attacks.

Then he proceed with topic Intrusion detection, Host based and network based Honeypot, Firewall and Intrusion prevention system, Need of firewall, Firewall characteristics and access policy, Types of Firewall, DMZ networks, Intrusion prevention system: Host based, Network based, and hybrid.

DY Patil School of Engineering Lohegaon, Pune Ajeenkya

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon

In addition he gave brief information about Operating system Security, Application Security, Security maintenance, Multilevel Security, Multilevel Security for role based access control, Concepts of trusted system, Trusted computing.

The seminar was beneficial to the students as they got to understand the importance of network and system security.

Form No. IQAC/23 (f)

Date: 5th August 2022

Guest Lecture Report

Academic Year: 2022-23 **TE & BE:** - Semester- I
Name of the event: Guest Lecture on Use of Biotechnology in Civil Engineering

Date and Time	5th August 2022
Event Venue	ADYPSOE (Seminar hall Room No- 242)
Organized by	Department of Civil Engineering
Targeted Audience	TE & BE students
Resource Person	**Dr. Shital Giri**

Event Contents:

- Importance and Uses of Biotechnology in Civil Engineering.
- References for work multidisciplinary Project
- Video demonstration on mini project
- Integration of biotechnology with Civil Engineering and Environmental Engineering.

Program Outcome:-

1. Students will understand the application of Biotechnology in Civil Engineering.
2. Students will implement the knowledge of biotechnology for carrying out the projects.

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Dr. D. Y. PATIL SCHOOL OF ENGINEERING
CIVIL ENGINEERING DEPARTMENT

3. Students will understand concept of multidisciplinary approach of biotechnology.

Details of the event:

Our Civil Engineering Department organized the Guest lecture on Use of Biotechnology in Civil Engineering. We had invited resource persons, Speaker Dr Shital Giri (PhD in food technology). Total 100 students attended the seminar in presence of head of the department, and event co-coordinator. The guest lecture was organized by Prof. Swapnil Bijwe and H.o.D Lt.Col. Karodpati. The introduction and outline of session was delivered by Meenakshi Shendage. The session was based on the relationship of biotechnology with the other engineering fields like civil engineering. Students got an idea for the projects as well. The innovative concept was introduced by the speaker. Vote of thanks was given by Atharva kapale. In short the guest lecture was very fruitful and imparted kind knowledge.

Name of the Event: Webinar on "Machine Learning Using Python"
Date: 01/09/2021
Time: 2.00 PM to 03.00 PM
Mode: Microsoft Team
Students: Students from SE & TE Computer Engineering and AI& DS Department

Report:

Computer Engineering Department organized a Webinar on "Machine Learning Using Python" for one hour from 2.00 PM to 03.00 PM for SE & TE Students (313) of Computer Engineering and AI& DS Department. The lecture was headed by Mr. Manish Singh who is working in ATS Learning Solution, Microsoft.

The session started with Mr. Manish Singh explaining basics of Artificial Intelligence (AI), Machine Learning (ML) and Data Science (DS) are the pillars of the fourth industrial revolution. ML is an application of AI which allows computers to automatically learn from data without being explicitly programmed. Python has been designed with the provision for creating Machine Learning algorithms. Python is preferred as the best and robust platform for Machine Learning systems. Python also has numerous libraries for machine learning, data manipulation and analysis as well as a very active development community that continuously updates and creates new packages. It has been adopted by a wide variety of industries and applications including Data Science, Machine Learning, Data Analytics, Predictive Analytics, Business Intelligence and Web Analytics. This workshop aims to explore Python Programming right from installation, fundamentals to Machine Learning algorithms.

The Webinar covered the basic algorithm that helps us to build and apply prediction functions with an emphasis on practical applications.

The session was followed by student questions where they inquired more Machine Learning (ML) Using Python and its scope.

Webinar on "Cyber Secure India Awareness Campaign (Cyber Security Audit Course 5)" Report

Name of the Event: Webinar on "Cyber Secure India Awareness Campaign (Cyber Security Audit Course 5)"
Date: 26/09/2021
Time: 12.00 PM to 01.30 PM
Mode: Zoom Meeting
Students: Students from TE Computer Engineering Department

Report:

Computer Engineering Department organized a Webinar on "Cyber Secure India Awareness Campaign Webinar 2021 (Audit Course 5 - Cyber Security) in association with CYBER NINJA" for one and half hour from 12.00 PM to 01.30 PM for TE Students (179) of Computer Engineering Department. The session was headed by Mr. Rahul Gupta is a renowned Cyber Security Expert.

The session started with the speaker - Mr. Rahul Gupta explores Cyber Security issues and introduces the audience to cyber issues and the growing threats they pose. He cited the sudden explosion on social networking sites as a growing Cyber Security concern. In view of the list of 52 prohibited Chinese submissions provided by the Ministry of Home Affairs of the Government of India; He explained how easily cyber threats put someone in a vulnerable situation that can be exploited by cyber criminals. He explains the role and threats of antiviruses and firewalls and identifies key areas where people can be easily fooled.

The session continued, with Mr. Rahul Gupta showing the various activities that were being carried out creating false illusions that lead to cyber-attacks, i.e. phishing, spam calls or fraudulent calls, Refunds via email, skimming scams, WhatsApp security breaches and IP-causing website redirects the address to be available. He also suggests solutions to email security issues Breakthroughs, honey capture, geotagging, and more. The second half of the event has Keynote speakers answered questions and doubts from students.

Guest Lecture Report

Name of the Event: Guest Lecture on AWS Cloud Hands on Activity by Dr. Nitin More
Date: 21st September 2021 Tuesday
Time: 11.00 AM – 1.00 PM
Venue: Microsoft Teams Online Platform
No. of Students: 250 from SE, TE, BE

Report:

Computer Engineering Department had organized a Guest Lecture by Dr Nitin More. The lecture was organized on Microsoft Teams Online Platform on 21st September 2021 Tuesday from 11.00 AM to 1.00 PM where Dr. Nitin was addressing from Vijaywada, Andhrapradesh.

He is presently working as an Associate Professor at K L Vijaywada University, in Adharpradesh, India.

The topic of discussion was "AWS Cloud Hands on activities ", which was his skilled area and topic domain for research. In the beginning, he explained the different cerification courses in cloud and then he explained all the handling activities of AWS cloud with real time prespective. The knowledge he shared was extremely vital as the students got to know the real world implementation of an AWS Cloud.

Dr.Nitin is Doctrate in Comuter network from SPPU. He was Head of department in SKN College of Pune University. Students asked him number of technical queries, queries related to Certification, use of AWS Cloud for BE Project, Other Cloud services and his experiences etc. Dr. Nitin gave complete guidance on various queries. The audience expressed that the lecture was very informative. The lecture was appreciated by Dr Pankaj Agarkar-HOD and all the staff members of the department. The event coordination and anchoring was done by Prof Komal Jakotiya.

Webinar on "Cyber Secure India Awareness Campaign (Cyber Security)" Report

Name of the Event: Webinar on "Cyber Secure India Awareness Campaign (Cyber Security)"
Date: 10th Oct 2021
Time: 12.00 PM to 01.30 PM
Mode: Zoom Meeting
Students: Students from SE, TE Computer Engineering and SE AI & DS Department

Report:

Computer Engineering Department organized a Webinar on "Cyber Secure India Awareness Campaign (Cyber Security)" in association with CYBER NINJA" for one and half hour from 12.00 PM to 01.30 PM for SE Students (180) of Computer Engineering and SE AI & DS Department. The session was headed by Mr. Rahul Gupta is a renowned Cyber Security Expert.

The session started with the speaker - Mr. Rahul Gupta explores Cyber Security issues and introduces the audience to cyber issues and the growing threats they pose. He cited the sudden explosion on social networking sites as a growing Cyber Security concern. In view of the list of 52 prohibited Chinese submissions provided by the Ministry of Home Affairs of the Government of India; He explained how easily cyber threats put someone in a vulnerable situation that can be exploited by cyber criminals. He explains the role and threats of antiviruses and firewalls and identifies key areas where people can be easily fooled.

The session continued, with Mr. Rahul Gupta showing the various activities that were being carried out creating false illusions that lead to cyber-attacks, i.e. phishing, spam calls or fraudulent calls, Refunds via email, skimming scams, WhatsApp security breaches and IP-causing website redirects the address to be available. He also suggests solutions to email security issues Breakthroughs, honey capture, geotagging, and more. The second half of the event has Keynote speakers answered questions and doubts from students.

FACTORS THAT MAKE COMPANIES VULNERABLE TO ATTACKS

Insufficient Security Training

Employees of an organization might not posses knowledge of social engineering tricks that an attacker might implement to lure them in revealing organization's sensitive data. Therefore, the minimum responsibility of any organization is to educate their employees about social engineering techniques and the threats associated with them to prevent social engineering attacks from occurring

Unregulated Access to the Information

For every company, one of the main assets is its database. Providing unlimited access or allowing everyone to access the sensitive data stored in database might land you in trouble. Therefore, companies must ensure proper surveillance and provide training for key personal who have access to sensitive data.

Several Organization Unit

Some organizations might have their units at different geographic locations. This makes the system management more cumbersome, thereby making an attacker's task easy to grab the organization's sensitive information.

Lack of Security Policies

Security Policy is the foundation of a security infrastructure. It is a document describing the security controls implemented in a company at a high level. An organization should take extreme measures related to every possible security threat or vulnerability. Implementation of certain security measures, such as password change policy, information sharing policy, access privileges, unique user identification and centralized security proves to be beneficial.

WHY IS SOCIAL ENGINEERING EFFECTIVE?

- Despite the presence of various security policies, you cannot prevent people from being socially engineered since the human factor is most susceptible to variation
- It is difficult to detect social engineering attempts. Social engineering is an art and science of getting people to comply with one's wishes. Often, this is how attackers get the foot inside a corporation's door
- No method can guarantee complete security from social engineering attacks
- No specific hardware or software is available to defend against social engineering
- This approach is relatively easy to implement and free of cost

2 days Workshop on "Selenium Tool" Report

Name of the Event: 2 days Workshop on "Selenium Tool".

Date: 11th, 12th Oct 2021.

Time: 1.00PM to 5.00PM.

Mode: Zoom Meeting
Students: Students from BE Computer Engineering Department

Report:

Computer Engineering Department organized 2 days Workshop on "Selenium Tool" in association with Tech-Shashtra for eight hours in two days for BE Students (142) of Computer Engineering Department. The session was headed by Mr. Avinash pingale is a renowned testing Expert.

The session started with the speaker - Mr. Avinash pingale explores Testing Concepts and introduces the audience to various testing tools. He cited some of the currently used testing tools in market. He explained how easily testing can be done automatically using such tools. He also conducted hands-on session on the Selenium tool.

The session continued, with Mr. Avinash pingale showing the execution of test case & test plans. He also took demo for first assignment mentioned in the syllabus of LP II which was helpful to the student for better understanding. In the second half of the event has Keynote speakers answered questions and doubts from students.

Mr. Avinash pingale guided student about the placement and discussed about the current condition of the software industry, he also shared his own experiences of the industry work culture which motivates student about the testing area.

Students: Students from SE,TE,BE Computer Engineering and AI& DS Department

Report:

Computer Engineering Department organized a Seminar on **"ICT(LMS)"** for one hour from 11.00 AM to 12.00 PM for SE ,TE,BE Students of Computer Engineering and AI& DS Department(256). The lecture was headed by Prof.Nilesh Mali who is working in DYSOE as Assistant Professor.

A Learning Management System (LMS) can provide tremendous benefits both for the training department and for the organization in general. Just what are the LMS basics and how can a system help your organization? In basic terms, the LMS is a system that helps you deliver and manage training in numerous formats. First, the management system consists of the tracking and reporting of the organization and individual learning activities.

If a learner takes a course and passes the test, we conclude that they have gained the necessary knowledge and are ready to practice it and make a change. The ultimate goal of learning is a change of behavior in work-related tasks, which results in desirable changes for the business. It takes no effort to address these tasks with LMS reports because they are typically out-of-the-box solutions. Also, they can support data layout and make your statistics neatly organized and structured on templates.

Guest Lecture on Software Testing tools "Jmeter & Junit" Report

Name of the Event: 2 days Workshop on "Selenium Tool".

Date: 25th Oct 2021.

Time: 1.00PM to 3.00PM.

Mode: MS Teams.
Students: Students from BE Computer Engineering Department

Report:

Computer Engineering Department organized Guest Lecture **on Software Testing tools "Jmeter & Junit"** for BE Students (142) of Computer Engineering Department. The session was headed by Prof.Veena Lomte HoD RMD Singhgad,Pune.

The session started with the speaker Prof.Veena Lomte explores Testing Concepts and introduces the audience to various testing tools. She cited some of the currently used testing tools in market like Selenium. She explained how easily testing can be done automatically using such tools. She also conducted Assignments on the Selenium tool mentioned in syllabus.

The session continued, with Prof.Veena Lomte showing the execution of test case & test plans. In the second half of the event she has answered questions and doubts from students.

Guest Lecture on Theory of Computation Report

Name of the Event: Guest Lecture on Theory of Computation
Date: 28/10/2021
Time: 10:00 AM to 11:30 AM
Mode: Microsoft Team
Students: Students of TE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Theory of Computation" on 28th Oct 2021 from 10:00 AM to 11:30 AM for TE Students of Computer Engineering. The lecture was headed by Mrs. Shwetal Patil who is Senior faculty in MMIT, Lohgaon, Pune.

The session started with Mrs. Shwetal Patil explaining the Introduction of Finite Automata (FA), What are the applications of Theory of Computation. After this he has covered Context Free Grammar (CFG). She took examples of CFG to explain the students, how CFG works. Her way of teaching was very lucid which made every bit of Context Free Grammar easy and it also attracted the student's attention. She took different methods to solve the CFG so as to make the concept easily understandable to everyone. She even cleared the doubts of students regarding various problems.

The points covered are:

1. Introduction to Theory of Computation
2. Introduction to Context Free Grammar
3. Simplification of CFG
4. CNF & GNF

The session was followed by student questions where they inquired about ways to develop logic of solving a given problem.

Guest Lecture on Data Anayltics Report

Name of the Event: Expert Lecture on Data Analytics
Date: 23/11/2021
Time: 10:30 AM to 02:30 PM
Mode: Microsoft Team
Students: Students of BE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Advanced Analytics-Technology and Tools" used in Data Analytics on 23rd Nov 2021 from 10:30 AM to 02:30 PM for BE Students of Computer Engineering. The lecture was headed by Mrs. Bhavana Khivsara who is faculty in SNJB's Late Sau. K. B. Jain College of Engineering, Chandwad, Nashik.

The session started with introduction of guest by Prof. Prashant Mandale and continued by Mrs. Bhavana with introduction of data analytics and role of classification in data analytics, use and applications of classification. After this she has started the Decision Tree and Naïve Bayes algorithms used in data analytics for classification. She discussed real time scenarios for explaining the concept to the students. Her way of teaching was very lucid which made every bit of classification algorithms used in data analytics easy to understand and it also attracted the student's attention. She also shown the practical demo of working of all algorithms and also shared the study material with students so that they can practice it individually. She even cleared the doubts of students.

The points covered are:

1. Introduction of supervised and unsupervised learning
2. Role and applications of classification
3. Overview of decision trees, general algorithm, decision tree algorithm, evaluating a decision tree.
4. Naïve Bayes Algorithm, Naïve Bayes Classifier, smoothing, diagnostics.
5. Diagnostics of classifiers and additional classification methods.

The session was followed by student doubts and queries where they inquired about ways to develop logic of solving a given problem using MapReduce.

Guest Lecture on Data Anayltics Report

Name of the Event: Guest Lecture on Data Analytics
Date: 15/11/2021
Time: 11:00 AM to 01:00 PM
Mode: Microsoft Team
Students: Students of BE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Advanced Analytics-Technology and Tools" used in Data Analytics on 15th Nov 2021 from 11:00 AM to 01:00 PM for BE Students of Computer Engineering. The lecture was headed by Mr. Suraj Kurde who is faculty in Dr. D. Y. Patil School of Engineering, Akurdi, Pune.

The session started with Mr. Kurde explaining the Introduction of data analytics and role of big data in DA, what are the applications of data analytics. After this he has started hadoop ecosystem and covered Hive, Pig, HBase and Mahout. He discussed real time scenarios for explaining the concept to the students. His way of teaching was very lucid which made every bit of advanced analytics technology and tools used in data analytics easy and it also attracted the student's attention. He also shown the practical demo of working of all tools and also shared the study material and code with students so that they can run it individually. He even cleared the doubts of students.

The points covered are:

1. Analytics for Unstructured Data (Map Reduce, Apache Hadoop)
2. The Hadoop Ecosystem (Pig, Hive, HBase, Mahout)
3. NoSQL

The session was followed by student doubts and queries where they inquired about ways to develop logic of solving a given problem using MapReduce.

Guest Lecture on Computer Networks and Security

Name of the Event: Guest Lecture on Computer Network and Security
Date: 3/12/2021
Time: 11:00 AM to 1:00 PM
Mode: Microsoft Team
Students: Students of TE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Computer Network and Security" on 3rd Dec 2021 from 11:00 AM to 1:00 PM for TE Students of Computer Engineering. The lecture was headed by Prof. Swati Sinha who is Senior faculty in SNJB COE, Chandwad, Nasik.

The session started with Prof. Swati Sinha explaining the Introduction to Computer Network and Security, what are the applications of Computer Network and Security.. After this she has covered Cryptography . She took examples of Symmetric and Asymmetric Key to explain the students, how it works. Her way of teaching was very lucid which made Cryptography easy and it also attracted the student's attention. She took different methods to explain Symmetric and Asymmetric Key Theory so as to make the concept easily understandable to everyone. She even cleared the doubts of students regarding various problems.

The points covered are:

Security

Introduction, Security services, Need of Security, Key Principles of Security, Threats & Vulnerabilities, Types of Attacks, ITU-T X.800 Security Architecture for OSI, Security Policy & mechanisms, Operational Model of Network Security, Symmetric and Asymmetric key Cryptography.

Security in Network, Transport and Application: Introduction of IPSec, SSL, HTTPS, S/MIME, Overview of IDS & Firewalls .

Notice

This is to inform TE Computer Engineering students that "Guest Lecture on Theory of Computation Report" session will be on 10th Dec. 2021. The session will start at sharp 10:00 am on Microsoft Teams.

Attendance is compulsory for the session.

Guest Lecture on Theory of Computation Report

Name of the Event: Guest Lecture on Theory of Computation
Date: 10/12/2021
Time: 10:00 AM to 12:00 PM
Mode: Microsoft Team
Students: Students of TE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Theory of Computation" on 10th Dec 2021 from 10:00 AM to 12:00 PM for TE Students of Computer Engineering. The lecture was headed by Prof. Anuradha Yenkikar who is Senior faculty in PICT, Pune.

The session started with Prof. Anuradha Yenkikar explaining the Introduction to Theory of Computation, what are the applications of Theory of Computation. After this she has covered Computability & Complexity Theory. She took examples of Computability & Complexity Theory to explain the students, how it works. Her way of teaching was very lucid which made every bit of Computability & Complexity Theory easy and it also attracted the student's attention. She took different methods to explain Computability & Complexity Theory so as to make the concept easily understandable to everyone. She even cleared the doubts of students regarding various problems.

The points covered are:
Computability Theory: Decidable problems and Un-decidable Problems, Church-Turing Thesis, Reducibility: Un-decidable Problems that is recursively enumerable, A Simple Un-decidable
Complexity Classes: Time and Space Measures, The Class P, Examples of problems in P, The Class NP, Examples of problems in NP, P Problem Versus NP Problem, NP-completeness and hard Problems.
The session was followed by student questions where they inquired about ways to develop logic of solving a given problem.

Guest Lecture on Discrete Mathematics

Name of the Event: Guest Lecture on Discrete Mathematics
Guest Lecturer: Dr. Shabana F. Sayyad
Day & Date: Monday 13/12/2021
Time: 02:30PM to 04:30 PM
Mode: Microsoft Team
Students: Students of SE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Discrete Mathematics" on Monday 13th Dec 2021 from 02:30PM to 04:30 PM for SE Students of Computer Engineering. The lecture was headed by Dr. Shabana F. Sayyad who is senior faculty in AISSMS, Pune.

The session started with Dr. Shabana F. Sayyad explaining the introduction to Algebraic Structures and Coding Theory, basic definitions related to the Algebraic Structures. After this she has covered the structure of algebra with Algebraic System. She has a firm grip on the content of the module and presents it is a nice way. She explains the basic Algorithms from the Discrete Mathematics. Her way of teaching & explaining the problems based on algorithms was very lucid which made the topic to understand easy and it also attracted the student's attention so as to make the concept easily understandable to everyone. She even cleared the doubts of students regarding various problems.

The points covered are:
Algorithms and Problems on it: Single source shortest path-Dijkstra's Algorithm, Kruskal's & Prim's Algorithm.
Algebraic Structures and Coding Theory: Algebraic System, Semi Groups, Monoids, Groups.
Graph Theory: Graph Terminology & types of Graphs, Graphs Isomorphism, Euler and Hamilton Paths, the handshaking lemma, Graph Coloring.

Ajeenkya DY Patil School of Engineering Lohegaon Pune

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

The session was followed by student questions where they inquired about ways to develop logic of solving a given problem.

Event Report

Academic Year: 2021-22 **Semester-I**

Name of the event: **PCB Design and Circuits**

Date and Time	03.12.2021
Event Venue	Online (MS Teams App)
Organized by	E&TC Department
Targeted Audience	BE Class (E&TC)
Resource Person	**Mrs.Aarti Zope (Software Trainer)**

Event Contents:

How to design PCB layout and circuits.

Details of the event:

Mrs. Aarti Zope is software trainer for embedded design, MATLAB, Python and OrCAD. She is working as Software trainer from June 2017. She has completed BE in E&TC in 2013. She has completed ME (VLSI and Embedded system) in 2017 from Dr. D Y Patil School of Engineering.

In the online webinar, she started with basics of software used. How to install the software with all necessary steps were explained by her. Then she explains how to start with basic circuits with basic components for PCB layout. Even we can observe the output waveforms with the help of software OrCAD. She also taken few examples of circuits and showed the students how to place them in software. She concluded the session by answering student's queries. Vote of thanks was given by Prof. Ashwini Bagde.

Event Report

Academic Year: 2021-22 **Semester-I**

1. Name of the event: Workshop on "Demonstration of Additive Manufacturing Technology"

Date and Time	27th August 2021 & 02.00 pm to 03.00 pm
Event Venue	Microsoft Team Link
Organized by	Mechanical Department
Audience	122 (S.E Students)
Resource Person	Mr. Swarnim N Gupta

2. Event Contents:

1. Introduction to 3D printing
2. Why use 3D printing
3. Conceptualization
4. Marketing
5. Advantages and Application of 3D Printer

3.1 Details of the event:

A Workshop on "**Demonstration of Additive Manufacturing Technology**" for Second Year students of Department of Mechanical Engineering, Dr D Y Patil School of Engineering, Lohegaon, Pune. The presentation will be conducted by Mr. Swarnim N Gupta, GM, ENPRO Industries Pvt. Ltd., Pune.

3.2 Introduction to 3D Printing

3D printing is a form of additive manufacturing technology where a three dimensional object is created by laying down successive layers of material. It is also known as rapid prototyping, is a mechanized method whereby 3D objects are quickly made on a reasonably sized machine connected to a computer containing blueprints for the object. The 3D printing concept of custom manufacturing is exciting to nearly everyone. This revolutionary method

Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

for creating 3D models with the use of inkjet technology saves time and cost by eliminating the need to design; print and glue together separate model parts. Now, you can create a complete model in a single process using 3D printing. The basic principles include materials cartridges, flexibility of output, and translation of code into a visible pattern.

3.3 Benefits of 3D Printing

- The most successful companies have adopted 3D printing as a critical part of the iterative design process to:
- Increase Innovation
  - Print prototypes in hours, obtain feedback, refine designs and repeat the cycle until designs are perfect.
- Improve Communication
  - Hold a full colour, realistic 3D model in your hands to impart infinitely more information than a computer image.
  - Create physical 3D models quickly, easily and affordably for a wide variety of
- Applications.
- Speed Time to Market
  - Compress design cycles by 3D printing multiple prototypes on demand, right in your office.
- Reduce Development Costs
  - Cut traditional prototyping and tooling costs.
  - Identify design errors earlier.
  - Reduce travel to production facilities.

We, the Students of third year and final year Mechanical Engineering are extremely thankful to Hon. Principal **Dr. F B Sayyad** of DYPSoE, Lohegaon, Pune. We would like to specially thank to our HoD **Prof. R N Garad**; all staff & student coordinators for providing a full-fledged support in all aspects during the entire expert lecture.

We thankful to **Dr D S More and Dr. M I Ansari**, has supported and guided us to make this lecture successful.

A Report on a One day workshop on CATIA V5

Date: - 15th October 2021

Date and Time	14th October 2021 & 10:30 am to 03.30 pm
Event Venue	Microsoft Teams
Organized by	Mechanical Engineering Department
Audience	231
Resource Person	1. Arun S Kumar (AGM-Technical), CadMarc Software Pvt Ltd. Pune. 2. Omshri Narvekar (Application Engineer), CadMarc Software Pvt Ltd., Pune.

Details of the event:

A Workshop on "**CATIA V5**" was organized on 14th October 2021 for all SE, TE & BE students of Department of Mechanical Engineering, Civil engineering and Electronics and telecommunication engineering, Dr. D Y Patil School of Engineering, Lohegaon, Pune. In this workshop, participants from various prestigious engineering colleges also participated.

In morning session, Mr Arun kumar focused on the hybrid design capabilities of CATIA software. In this session, he covered the following topics

- Concept design
- Surface styling
- Reverse Engineering
- Drawing Generation
- Detailed design
- Tooling design
- Assembly Design

In afternoon session, Mr. Omshri Narvekar gave hands on session on the CATIA V5 software and explained each and every basic modules of the software.

Event Report

Academic Year: 2021-22 Semester-I

Name of the event: A SEMINAR ON **"TEAM BUILDING FOR GO-KART"**

Date and Time	September 23rd 2021: 2:00 pm-03:00 pm
Event Venue	Microsoft Team
Organized by	Mechanical Engineering Department
Targeted Audience	SE.TE.BE

EVENT CONTENTS:

Department of Mechanical Engineering of **DYPSOE** in association with **Edgeline Championship, Pune** has organized a seminar on **Team Building for Go-Kart**. The leading objectives of this seminar are to develop design skills, problem-solving capabilities, enhance the team-building activity, and improve management skill

This seminar is delivered by Mr. Dhiraj Gaikwad COO of Wisdomatic Swarm,Ms Affrin Sayyed CFO of Wisdomatic Swarm and Onkar Borkar CIO and CMO of Wisdomatic Swarm.

DETAILS:-

To begin with, Mahith Mudaliyar greeted everyone at the webinar and welcomed all the guests. The portal was then handed to Mr.Dhiraj He initiated by enlisting the different types of vehicle events that are conducted in India. He carefully elaborates the importance of the Go-Kart Event. Along with this he also instilled the importance of value addition, a student should try to gain skills related to the field, should get the certification of those skills which are relevant to the industry. He also shared his experience of Go--Kart making in his college life and how it will be helpful for industrial application.

Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

The second half of the webinar was taken by Mr.Afreen Sayyrd, She elaborates the structure of the Ideal Go- Kart team along with the Different departments. She also laid out a simple algorithm a student should follow while developing the cart, which was to start with "WH", question everything in what, why, when, etc., using this method clarifies any concept and makes it easy to develop a new idea. She debunked all the myths related to Go-Kart.

Total 116 students and 5 Faculties attended this online session. The session was coordinated by Prof. V. M Ghule (Go-Kart faculty Advisor) under the guidance of Prof. R N Garad (HoD Mechanical Engineering) and Dr.F B Sayyad (Principal DYPSOE)

Event Report

Academic Year: 2020 -21 **Semester-~~I~~/II**

Name of the event: Guest Lecture on Machine Lecture

Date and Time	17 / 03/ 2021 , 14:00 PM to 15:00 PM
Event Venue	Online
Organized by	E&TC Department
Targeted Audience	BE E&TC
Resource Person	**Prof. Kaustubh Sakhare**

Event Contents:

1. Case Studies of AI & ML
2. Overview for Programming approach for Problem solving

Details of the event:

On 17.03.2021, the Department of Electronics and Telecommunication Engineering hosted a Guest Lecture on "Guest Lecture on Machine Learning" via Microsoft Teams. The Guest Lecture was attended by students from the E&TC Department's final year eight semesters.

DY Patil School of Engineering * Ajeenkya Lohegaon, Pune

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

Mr. Kaustubh Sakhare, Assistant Professor at Pune Institute of Computer Technology, was the guest speaker.

Students were introduced to the latest concepts of Machine Learning, Artificial Intelligence, and their applications during the talk.

The Guest Lecture began with an overview of artificial intelligence, machine learning, and their relevance in today's world.

Heuristics, Natural Language Processing, Knowledge Representation, Automated Reasoning, Machine Learning, and Expert Systems were among the topics covered by Mr. Kastubh. He told the enthusiastic audience that AI and machine learning will become an important part of our lives in the coming days as he explained the important applications of AI. Voice recognition, speech recognition, image processing, computer vision, and robotics are just a few of the applications.

Mr. Sakhare also has some programming experience with Feed Forward and related concepts.

The event concludes with a question and answer session for students to discuss. Prof. Nishikant Surwade's vote of thanks brings the event to a conclusion.

Event Report

Academic Year: 2019-20 **Semester-I**

Name of the event: Cyber Security

Date and Time	Saturday, 27Th March 2021
Event Venue	Online Mode (MS Teams Platform)
Organized by	Mrs. Ashwini Bagde
Targeted Audience	BE and TE
Resource Person	Mr. Kundan Kumar Saraf

Event Contents:

1. What is cyber security and Splunk? and why it is trending now a days?
2. Basic certification required for freshers to get job opportunity in Cyber Security Domain.
3. Tools which are mandatory to learn basics of Cyber Security.
4. Basic knowledge required (theory point of view) by students

Details of the event:

BE students of E&TC have subject CNS(Computer Networks and Security). To make them aware about the practical scenario regarding this subject , guest lecture on "Cyber Security" was arranged. Guest of honor Mr. Kundan Saraf, explain the basic criteria to enter into the cyber world. Students must be aware of TCP/IP model in dept along with the physical and logical addresses used by networks. All the latest security algorithm and their working is also mandatory.

Regarding certification, for beginner, **CEH (Certified Ethical Hacker)** certificate is mandatory. Students can also participate in **DEF-CON** which is world's largest and longest running hackers conference.

Principal
Alcenkya DY Patil School of
Engineering, Lohegaon, Pune

Regarding tools required for this are Kali Linux (basic knowledge), Java ,Networking etc are must. **Tools for hacking are : bugcrowd and HackerOne.**

After this details, Mr. Kundan Saraf explained the different job opportunities in this field for students. Session was concluded after Q&A.

Academic Year 2020-21 Semester-II

"Hands on Python Workshop with Applications and Cloud Deployment"

Workshop Report

Name of the Event: A Five Days Workshop on "Hands on Python Workshop with Applications and Cloud Deployment"

Students Involved: SE and TE students of Computer Engineering Department from DYPSOE.

Date: From 23rd of February 2021, Tuesday to 27th February 2021, Saturday.

Venue: Zoom meeting.

Report:

The workshop was arranged for the engagement of students towards developing their interest in the field of Python programming languages.

The speaker for this event was **Mr. Yogesh Murukar of** BharatSoft Solutions, Director, Kothrud, Pune, Maharshtra.

Total 62 students attended the workshop and the video has been posted on YouTube-

Day 1 - https://www.youtube.com/watch?v=8AngQav4J0o
Day 2 - https://www.youtube.com/watch?v=zDjV4YuicZI
Day 3 - https://www.youtube.com/watch?v=F5Qv1E1cn3g
Day 4 - https://www.youtube.com/watch?v=mRMdHdIVqWo
Day 5- https://www.youtube.com/watch?v=GjU0qvEL9s4

Prof. Pooja Shinde welcomed the audience and gave a brief introduction about the speaker. Prof. Yogesh Mali gave a brief about the five days' workshop and necessary guidelines that followed during the workshop.
The detailed day wise topic taught by Mr. Yogesh Murukar to our students as follows –

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

Sr. No.	Day	Topics
1	Day 1	• Data types ▪ Numbers ▪ Strings ▪ Printing ▪ Lists ▪ Dictionaries ▪ Booleans ▪ Tuples ▪ Sets • Comparison Operators • if, elif, else Statements • for Loops • while Loops • range() • list comprehension • functions • lambda expressions • map and filter • methods
2	Day 2	Hands on Applications in Python • Create an interactive Dictionary using JSON Data • Creating a Jarvis voice assistant to give commands to a computer • Create Web maps using python and folium for JSON data • Create GUI using Tkinter in python • Develop games like snake game, color game, password generator, whats app smiley etc • Weather forecasting using python to read HTML data • Develop a DRS system in python for cricket match
3	Day 3	Data Visualization and Statistic (EDA) • Numpy • Pandas • Matplotlib • Seaborn • Pyttsx3 • Scikit-learn
4	Day 4	• Data Visualization and Statistic use cases • REST API: Flask Introduction • Python Project: Creating a web application for extracting and analysing the data for Flipkart e-commerce website

DY Patil School of Engineering * Ajeenkya Lohegaon, Pune

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

5	Day 5	• Introduction: Machine Learning, Deep Learning, Data Science, Artificial Intelligence • Linear Regression: Concept and Implementation • Logistic Regression: Concept and Implementation • Machine Learning Project: Creating a prediction Model using Machine Learning Algorithms and Techniques • Deployment of Machine Learning Model on Cloud Platform in real time

The students provided feedback through the Google form link provided to them by the Prof. Vishal Borate. The feedback was very positive.

The guest lecture was organized under Entrepreneurship Development Cell (EDC) and Association of Computer Engineering (ACE) under the guidance of the HOD Dr. Pankaj Agarkar.

The guest lecture was moderated by Prof. Vishal Borate (EDC Coordinator), Prof. Pooja Shinde (ACE Coordinator) and Prof. Yogesh Mali (T&P Coordiantor).

ACE Event Report

Name of the Event: Webinar on "Machine Learning Using Python"
Date: 29/10/2020
Time: 2.15.PM to 03.15 PM
Mode: Microsoft Team
Students: Students from TE Computer Engineering

Report:

Computer Department organized a Webinar on "Machine Learning Using Python" for one hour from 2.15.PM to 03.15 PM for TE Students (103) of Computer Engineering. The lecture was headed by Mr.Deepak Garg who is working in ATS Microsoft.

The session started with Mr.Deepak Garg explaining basics of Artificial Intelligence (AI), Machine Learning (ML) and Data Science (DS) are the pillars of the fourth industrial revolution. ML is an application of AI which allows computers to automatically learn from data without being explicitly programmed. Python has been designed with the provision for creating Machine Learning algorithms. Python is preferred as the best and robust platform for Machine Learning systems. Python also has numerous libraries for machine learning, data manipulation and analysis as well as a very active development community that continuously updates and creates new packages. It has been adopted by a wide variety of industries and applications including Data Science, Machine Learning, Data Analytics, Predictive Analytics, Business Intelligence and Web Analytics. This workshop aims to explore Python Programming right from installation, fundamentals to Machine Learning algorithms.

The Webinar covered the basic algorithm that helps us to build and apply prediction functions with an emphasis on practical applications.

The session was followed by student questions where they inquired more Machine Learning (ML) Using Python and its scope.

WEBINAR REPORT

Location: - Microsoft Teams App, Dr.D.Y Patil School of Engineering, Pune.

Day & Date: - Saturday,31 st October 2020

Teaching staff: Prof. Prasad Gayake

Guided by :- Mr. Pravin Mundhe.

The Civil Engineering IIT Pune in association with the Department of Civil Engineering, Dr. D.Y. Patil School of Engineering had organised a Free webinar on Internships in Construction Project Management & E-Tendering on 31 st October, 2020. The webinar was arranged mandatory for the students studying the curriculum of Bachelor degree in Civil engineering i.e. SE, T.E. & BE Civil. Civil Engineering IIT Pune is renowned Internship firm which is located in Pune city which gives 100% practical training. This firm delivers various technical courses from so many years such as E-Tendering, Estimation, Govt. Project Billing, DSC Vender ship, On Site training, Software course training with Certificates and placement in Big Construction firms or company.

His presentation comprised of following aspects :

1. Importance of E-Tendering and Estimation
2. Various steps involving in Estimation and Billing,

Following were the Learning outcomes of the program:

1) To make students aware that in this COVID-19 situation from home or through online medium they can study, practice and learn the Practical aspects related to construction process. Students got information about various competitive exams for recruitment.

Dr. D. Y. PATIL SCHOOL OF ENGINEERING
CIVIL ENGINEERING DEPARTMENT

Principal
Alpenkya DY Patil School of Engineering, Lohegaon, Pune

2) Students learned about various roles the civil engineer can perform in field.

Number of participants present for this webinar were 85.

The vote of thanks was given by Prof. Prasad Gayake, Faculty from Civil Engineering Department and Lt. Col. Sanjay M. Karodpati, HoD, Civil Department presented a small token of appreciation to our valuable guest.

As per the feedback received from the participants it was very good learning experience, the lecture helped them in their understanding the Gender Bias related issues and their remedies.

Day & Date: - Saturday, 30th September 2020

Teaching staff: - Prof.Ramakant Koshti, Prof. Prasad Gayake and Prof. Aniket Nemade

Guided by :- Er. Akash Dalvi, Partner Bricklane.

Er. Akash Dalvi presented us WEBINAR ON CONSTRUCTION COSTING AND BUDGETING. He briefed about what is importance of quantity surveying and quantity surveyor. Scope of quantity surveyor. Benefits of quantity surveyor. Opportunities of quantity surveyor in various sectors What data is required for perfect costing and budgeting. Various steps involving in COSTING AND BUDGETING, Components of costing report.

His presentation comprised of following aspects :

1. Importance of quantity surveying and quantity surveyor.
2. Opportunities of quantity surveyor in various sectors
3. Various steps involving in COSTING AND BUDGETING,
4. Components of costing report

Following were the Learning outcomes of the program:

1. Students learned about Importance of quantity surveying and quantity surveyor
2. Students got information about Opportunities of quantity surveyor in various sectors
3. Students learned about steps involving in COSTING AND BUDGETING

Event Notice

Academic Year: 2020-21 **Semester-II**

Name of the event: 2 Days Workshop on Robotics

Date of the event : 22/01/2021 to 23/01/2021 **Time: 12.00 p.m. to 02.00 p.m.**

Venue **: Online**

Department of Mechanical Engineering of DYPSOE has arranged 2 days' workshop on robotics for Mechanical engineering students. All the Mechanical engineering students are informed to attend the same.

Event Coordinator: Prof. Parag Marathe

HoD: Prof. R. N. Garad

Two Days Workshop on Robotics

Date: 28/01/2021

Academic Year: 2020-21 **Semester-II**

Name of the Event: A Two day Workshop On "ROBOTICS"

Date and Time	22nd and 23rd January 2021
Event Venue	YouTube Live Streaming
Organized by	Mechanical Engineering Department
Targeted Audience	All Over India Students and Faculty
No of Participants	451 (All over India)

EVENT CONTENTS:

Department of Mechanical Engineering of DYPSOE and Mechanical Engineering Student Association arranged a two day workshop in association with Pantec-E-Learning on "Robotics".

The objective of the workshop was to understand the basic principles of robots and to design basic machines that can help and assist humans.

DETAILS:-

On first day, the session was started by welcomed the guests and the portal was then handed to trainer from Pantec-E-Learning.

Topics covered on First day:

- Definition and brief history of robotics
- Components of robots with images and videos.
- Types of robots
- Arduino board development and programming

Topics covered on Second day:

- Development of Robots
- How to program for motors and sensors
- Developed 3 models of robots

Event Notice

Academic Year: 2019-20 **Semester- I**

Name of the event: PCB Design Workshop

Date of the event : 13/09/2019-14/09/2019 Time: 10:30 am- 04:00 pm

Venue : Prototech Company, Narhe, Pune

The department of Electronics and Telecommunication Engineering of DYPSOE is organizing the workshop on "**PCB Design**" for TE students in Prototech Company, Narhe, Pune. They will be guided about PCB Manufacturing Process, PCB design flow by Mr. Mubarak Tamboli, Senior Hardware Engineer, TCS, Pune. All students are informed to attend the guest lecture. Attendance is mandatory for all students.

Event Report

Academic Year: 2019-20 **Semester-I**

Name of the event: PCB Design Workshop

Date and Time	13/09/2019-14/09/2019
Event Venue	DYPSOE (E&TC Dept.) PROTOTECH COMPANY(Narhe,Pune)
Organized by	E&TC Department
Targeted Audience	Third Year Students
Resource Person	**Mr. Mubarak Tamboli** **Senior Hardware Engineer ,TCS , Pune**

Event Contents:

1. PCB Manufacturing Process
2. PCB Design Flow
3. Visit to PCB manufacturing plant

Details of the event:

Two days PCB knowledge transfer session for students along with actual PCB manufacturing process plant visit.

Day 1:(13 th Sept.2019)

1) Theory of PCB,PCB Design and Its Importance : Explanation of PCB from schematic design to actual PCB design flow and implementation

What is importance of PCB and how schematic and PCB design is done is explained. Basics and industry level points, experiences discussed by Mr. Mubarak Tamboli Followed with Students Questions and thoughts session.

Date and Time	27.08.2019 ,11.00am to 1.00pm
Event Venue	BE Class (E&TC)
Organized by	E&Tc Department
Targeted Audience	BE Class (E&TC)
Resource Person	**Ms. Pranjal Shah**

Event Contents:

1. VLSI opportunities
2. Syllabus discussion
3. Industry policies

Details of the event:

Ms. Pranjal Shah is currently working with Open Silicon Industry. She addressed the students about ASIC flow and explained about the work culture in industry regarding any problem statement. Also she addressed the students how to face an interview and grab the opportunities of the internship. Furthermore she shared his experience of personnel interview and internship.

Event Report

Academic Year: 2019-2010 **Semester-I**

Name of the event: Guest Lecture and Demonstration on the subject: Electronic Devices and Circuits- Topic:"Voltage Regulators & SMPS"

Date and Time	25/09/2019, 1:00 PM to 5:00 PM
Event Venue	Room No. 220 (EDC Lab) and Room No. 227 (Class Room)
Organized by	E&TC Department
Targeted Audience	S.E.(E&TC) Class
Resource Person	Mr. Ayaz Sayyad, Director, A.B. Enterprises, Pune.

Event Contents:

1. Power Supply
2. Voltage Regulators
3. Switched Mode Power Supply

Details of the event:

Department of E&TC Engineering has organized a guest lecture and demonstration for SE(E&TC) Class on the subject: Electronic Devices and Circuits, Topic: Voltage Regulators and Switched Mode Power Supply on Wednesday, 25/09/2019 from 1:00 Pm to 5:00 PM. Mr. Ayaz Sayyed, Director, A.B. Enterprises, Pune was the resource person for this event.

The session started with class room discussion on necessity of power supply. Types of power supply their working and applications. The concept learned in class room were demonstrated in Laboratory session.

Dr.D.Y.Patil School of Engineering Dept. of E&TC Pune

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Implementation of simple zener regulator to a complex SMPS system were demonstrated. Students were given an exposure to upcoming technology in Electric Vehicles and role of power electronics in it. Thirty one (31) Students attended and have enjoyed both theory session and demonstration.

Academic Year: 2019-20 **Semester-I**

Name of the event: **Guest Lecture on RF and Microwave circuit design.**

Date and Time	23/09/2019 3:00PM to 4:00PM
Event Venue	E&TC department Room No. :232
Organized by	Department of ENTC
Targeted Audience	BE (30)
Resource Person	**Mrs. Renuka Wenkhande S M technology.** **Mr. Jayant Gore S M technology**

Event Contents:

1. Introduction to Microwaves.
2. Superhetrodyne receiver and Transmitter.
3. RF and Microwave IC's.
4. Microwave Devices.

Details of the event:

The event started with Prof. Ashwini Bagde welcoming and Introducing Mrs. Renuka Wenkhande and Mr. Jayant Gore from S M Technology to final year students. After the Welcome and introduction renuka and Jayant started with the guest lecture. Mrs. Renuka gave brief introduction on Microwave and it application in real life. She also discussed about various microwave devices.

Later Mr. Jayant discussed about RF and Microwave IC's in mobile phones and later had a brief discussion about RF circuit design , Testing and Measurement of RF system and RF block.

After questions and Answers, the session was concluded by Prof. Ashwini Bagde thanking the Guest.

Event Report

Academic Year: 2019-20 **Semester-I**

Name of the event: AWS Cloud

Date and Time	Monday, 16Th September 2019
Event Venue	E&TC Dept Class Room No.232
Organized by	Prof. Ashwini Bagde
Targeted Audience	BE
Resource Person	Mr. Devit Mishra

Event Contents:

1. What is Cloud? What is AWS Cloud?
2. Basic certification required for freshers to get job opportunity in AWS Cloud.

Details of the event:

Amazon Web Services (AWS) is a subsidiary of Amazon that provides on-demand cloud computing platforms to individuals, companies, and governments, on a metered pay-as-you-go basis. In aggregate, these cloud computing web services provide a set of primitive abstract technical infrastructure and distributed computing building blocks and tools. AWS's version of virtual computers emulate most of the attributes of a real computer including, hardware central processing units (CPUs) and graphics processing units (GPUs) for processing, local/RAM memory, hard-disk/SSD storage; a choice of operating systems; networking; and pre-loaded application software such as web servers, databases, customer relationship management (CRM), etc.

Mr. Devit Mishra, has 3.7 years of experience in the field of AWS Cloud. He has joined TCS as Team Lead for AWS Cloud. He gave brief introduction about what is Cloud and advantages over windows.

Dr. D. Patil School of Engineering, Lohegaon, Pune * Ajeenkya

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Mr. Devit sir gave demo on how to create server and static website on the server.

There are basically two types of websites: static and dynamic.

A static site is one that is usually written in plain HTML and what is in the code of the page is what is displayed to the user.

A dynamic site is one that is written using a server-side scripting language such as PHP, ASP, JSP. In such a site the content is called in by the scripting language from other files or from a database depending on actions taken by the user.

Certification required for this is: Amazon Web Services credentials fall into 2 main categories: Core Certifications and Specialty Certifications. AWS core certifications span three knowledge areas: architecture, development, and operations, and are offered in 3 skill levels: foundational, associate, and professional.

GUEST LECTURE ON VARIOUS SOFTWARE

A demonstration on various "CIVIL ENGINEERING" Software's was organized at D Y PATIL SCHOOL OF ENGINEERING LOHEGAON, PUNE, from 12.45PM TO 2.45PM On 25th July 2019.

The objectives of demonstrations was to provide opportunity to students for outdoor education related to various civil engineering software's, Such as REVIT, BIM, AUTOCAD, 3DS MAX and many more. In addition to create awareness of such software among themselves.

The information about Software's was as:

1. **AUTOCAD**

AutoCAD is widely used in the civil engineering field because of its ability to plan sites easier than hand drawing, the main thing is that if you want to draft any civil engineering structure (2D,3D) such as Building, Bridges, Roads, Drainage, Pipeline, Dams, Intersection etc. With accuracy speed and that can be easily edited, AutoCAD is the best option.

- **ADVANTAGES OF AUTOCAD**

a. AutoCAD is a computer-aided Software drafting program it is used for a number of application like creating blueprints for building bridges.
b. It is commercial Software's since 1982. It was Desktop application. Since 2010, It is available as a mobile, web and cloud based app and known as AutoCAD 360
c. AutoCAD is a Architectural planning tools it comes with a user interface with built in design layout.
d. Autocad helps to reduce manufacturing cost it saves time and efforts required for manual designing.

2. **AUTODESK REVIT**

Autodesk Revit is Building Information Modeling (BIM) software for Architects, Landscapes, Architects, Structural Engineering, Mechanical, Electrical, Plumbing, (MEP) Engineers, designers and contractors. Revit is 4D building information modelling capable with tools to plan and track various stages in the building lifecycle, from concept to construction and later maintenance and demolitions.

Revit is purely design for Civil Works and is easiest tool to draw plans and convert that plan in 3D. It has tons of features which includes structural modelling such as Beam,

D. Y. PATIL SCHOOL OF ENGINEERING CIVIL ENGINEERING DEPARTMENT

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Column as well as architectural modelling which gives an output with aesthetics view and proper plan or arrangement of everything within the project.

REVIT DEMOSTRATION

3. 3ds MAX

a. 3ds MAX is one of the most powerful designing software's that provides comprehensive 3D Modelling, Rendering, Animation and Composition solution for different industries.

b. The software was developed by AUTODESK Media. This software is widely used by Architects and Civil Engineers to create 3D Visualization for their design.

c. The Software has capability to render design using Photo Realistic models. It provide control

d. Nowadays these are widely used 3D studio Autodesk software.

3DS MAX DEMOSTRATION

The program was held in the presence of our class teacher prof. Swapnil Bijwe and headed by Mr. Akshay shah who is the director of CAD institute at Vishrantwadi.

Various presentations and activities where designed to suit the purpose and objectives of this demonstration. One of the examples was, where our whole college building was planned and developed on basis of Revit Software, showing the entire benefit of such type of software's in Civil Engineering.

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

The active and energetic participations by students made the program more interactive and successful. There have to be small efforts made by each individual to learn such software which enhance the growth of civil engineer through Worldwide.

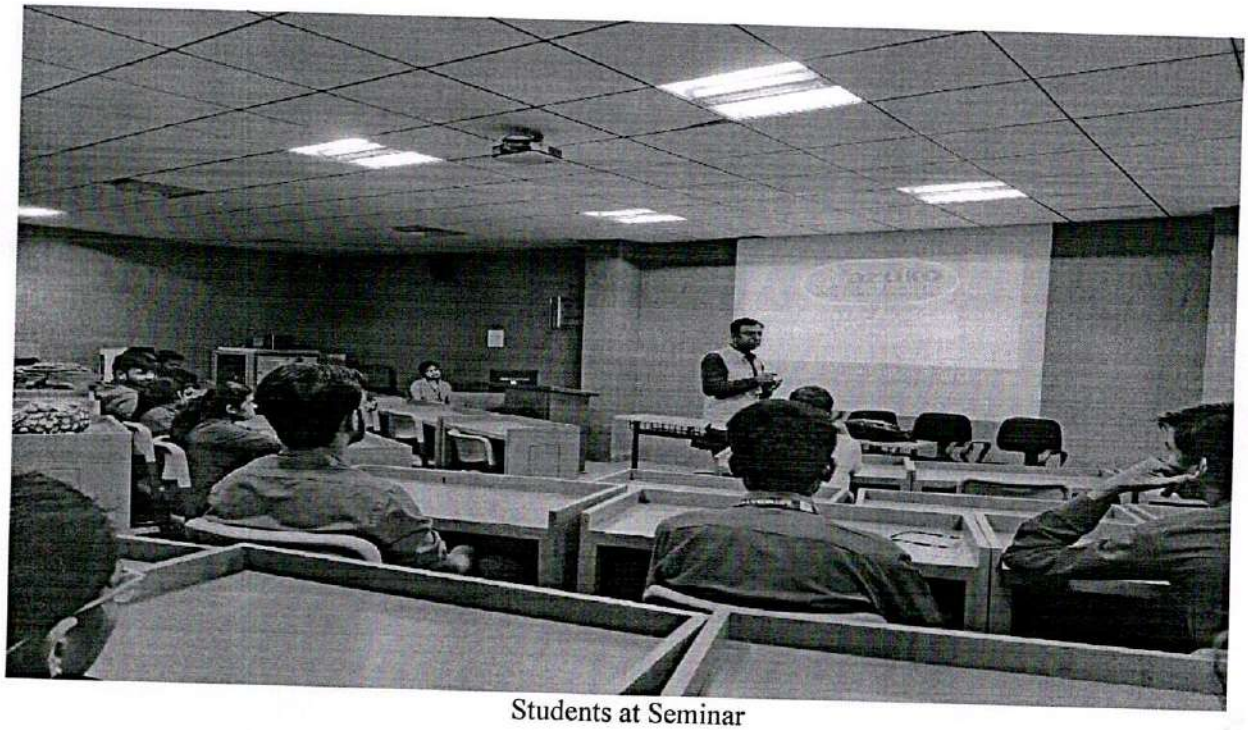
Seminar on Industrial Requirements by Azuko Technical Institute
Date-30/08/2019

The Department of Civil Engineering, DYPSOE organized a seminar by Azuko Technical Institute on 30 August 2019 for BE & TE students by Prof. Rajesh Katdare and Prof. Lt. Col. Sanjay Karodpati in DYPSOE, Lohegaon.
It was organized by prior permission and guidance of Principal, DYPSOE Mr. M.Z. Shaikh and Head of Department of Civil Engineering Prof. Sanjay Karodpati.



Students at Seminar

On Friday 30/08/2019 the class of BE/TE CIVIL attended the seminar by Azuko Technical Institute on the topic Industrial Requirements. The seminar started at 10am with our Guest Speaker Mr. Ashok Kumar and her partner Ms. Charutta Dasture and lasted for two hours. In this two hours the students learnt about various requirements by industry and software. The session was also attended by Prof. Rajesh Katdare and Prof. Pragya Sharma.

INTRODUCTION

Azuko Technical Institute is an education and training institute providing education of industry work, by industry experts, and for Industry.

It is run by industrialists under collaboration with more than 60 companies. The education methodology is adapted from IIT Mumbai, from where there founder hails. As they also work in industry (by name Azuko Engineering Services) they often need trained manpower and this institute has been setup for facilitate trained manpower for industry.

They are eager to work with new generation students who are willing to do something different in industry. Industrial growth is unprecedented, new technologies are coming all around. We invite all of you to join the wave of growth, contribute from your side to be a super skilled expert.

There aim is to alleviate poverty through sustainable development. They work alongside socially and economically disadvantaged communities to create culturally sensitive design solutions.

They provide insight into current living conditions, offer visions for the future and support vulnerable communities to improve their own environments. They design spaces, systems and services.

INDUSTRY EXPECTATIONS

The guest explained the students about how to prepare themselves for better job oppurtunities and what are the current needs and requirements of the industries are.

The guest also explained the students about various areas in this industry like Drafting, Modelling, Design and Analysis, Foundation, Estimation & Construction Management. They also focussed on AEC Industry, BIM Concept and MEP Solutions.

They give a broad idea about AutoCAD, Auto Rebar, Revit Architecture, ETABS, STAAD Foundations, BlueBeam Revu, PrimaVera, MS Project.

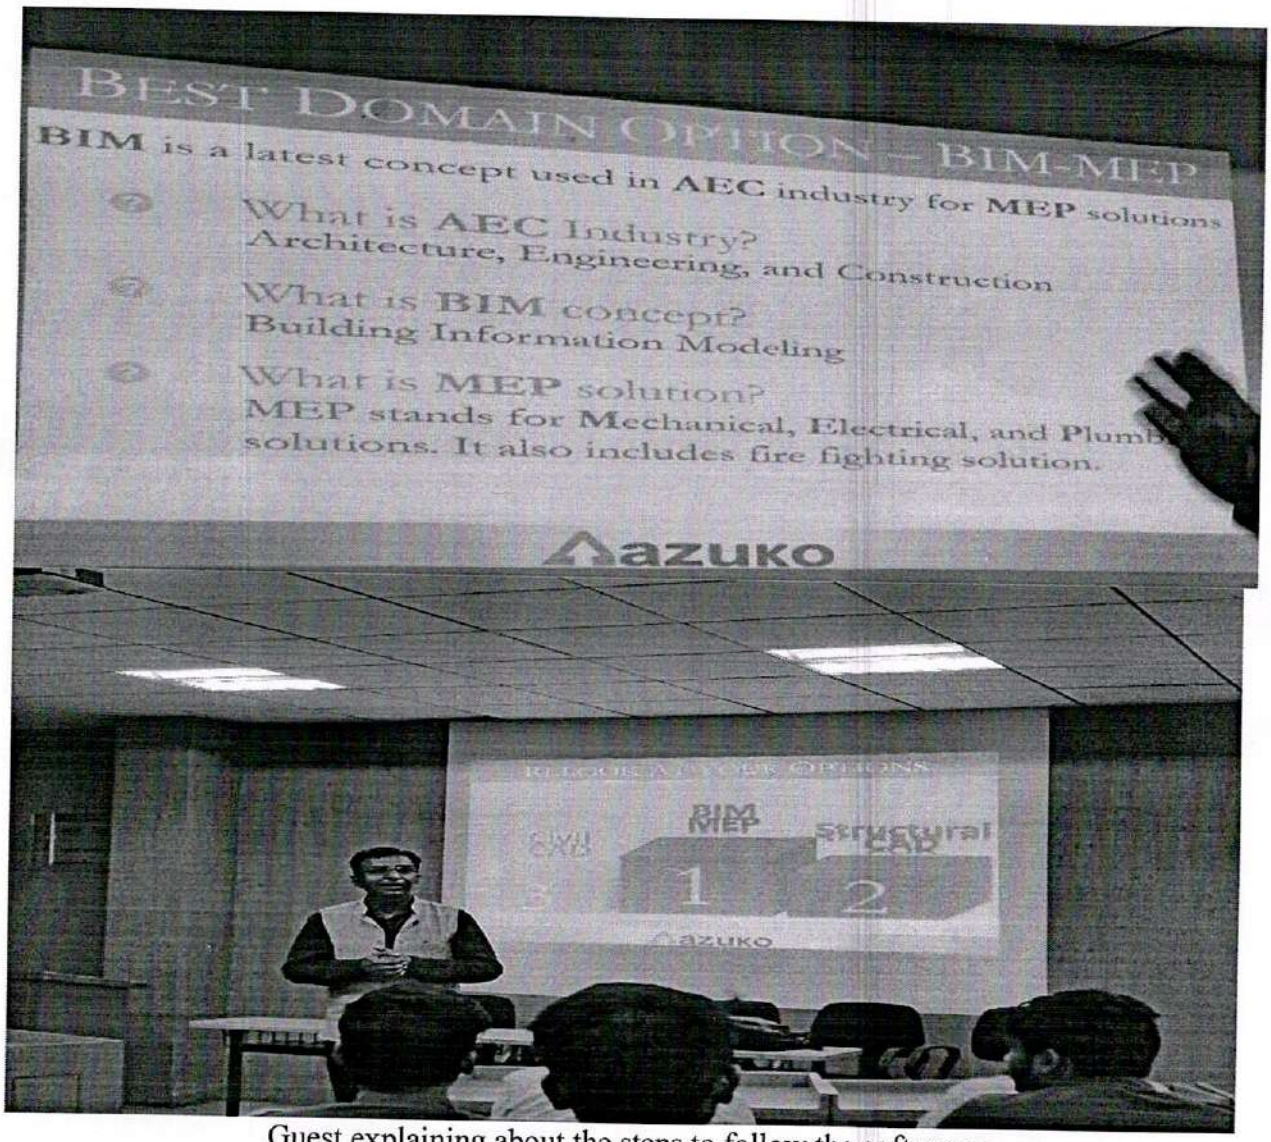
Use of softwares in different areas



Guest explaining about the steps to follow the softwares

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

Learning Outcomes:

1. The students learnt about various requirements of industry as per the current scenario of industries.
2. The students learnt about various softwares used in construction and design industry and their uses for their carrier growth.

Outcomes:

1. Students will be able to know the industrial requirements and will be able to cope up with the industrial scenario.
2. They will be able to learn the various softwares used in the construction and design industry like Civil CAD, BIM-MEP, Structural CAD.
3. They will be able to know the use of the above softwares in different areas of construction and design.

Seminar on 3D Printing

Event Contents:

Date and Time	16th July 2019, 11:00 am -1:00 pm
Event Venue	Class Room No 524, DYPSOE
Organized by	Mechanical department
Targeted Audience	40 Students
Resource Person	Mr. Ameya Tambe And Mrs. Anikita Tambe

1. Information related to skill enhancement for Job opportunities.
2. Learn about various machines used for Rubber CMM, EDM etc.
3. Learning about new technology like 3D printing in mechanical Domain.

Details of the event:

Mr. Ameya Tambe, director and founder of Soft tech technology gave an introduction to various trends in industry which increases the employability of students. The main Importance was given to 3D printing which is an emerging filed in mechanical Engg. 3D printing or additive manufacturing is a process of making three dimensional solid objects from a digital file. He explained creation of a 3D printed object is achieved by using additive processes. In an additive process an object is created by laying down successive layers of material until the object is created. Each of these layers can be seen as a thinly sliced horizontal cross-section of the eventual object.3D printing is the opposite of subtractive manufacturing which is cutting out / hollowing out a piece of metal or plastic with for instance a milling machine.3D printing enables you to produce complex shapes using less material than traditional manufacturing methods.

He also gave information about different Machine learning Technology which provides different dimensions to Mechanical Engineer.

Workshop on
"Recent trend of Automobile with Application in Industry"

Date and Time	05th February 2020 & 01:30 pm to 02.30 pm
Event Venue	Class room -524
Organized by	Mechanical Department
Audience	95 (B.E. Students)
Resource Person	Mr. Vishal Bhat

2. Event Contents:

1. Introduction to Modern technology in Automobile Industries
2. Why use it
3. Conceptualization
4. Marketing
5. Advantages and Application

3.1 Details of the event:

A Workshop on "Recent trend of Automobile with Application in Industry" in association with MESA organized on 05th February 2019 for Final Year students of Department of Mechanical Engineering, Dr D Y Patil School of Engineering, Lohegaon, Pune. The presentation will be conducted by Mr. Vishal Bhat, presently associated with John Deere Ltd., Pune. His valuable suggestions and guidance is useful for students to achieve their correct objective in future.

3.2 Introduction to Modern technology in Automobile Industries

In modern trend of increasing more power and torque demand from smaller vehicle, many engine manufacturers are moving towards developing new concepts in engine design. The requirement not only includes low weight and high strength material, bit also modern design techniques and manufacturing methodology. The seminar includes all the modern trend and concepts used in new generation engine design.

Applications

- Reduce Development Costs
  - Cut traditional prototyping and tooling costs.
  - Identify design errors earlier.
  - Reduce travel to production facilities.

ACE Event Report

Name of the Event: ``Technical Course Selection"
Date: 10th July 2019
Time: 1.00 to 4.00
Venue: Laboratory Room 330, 331, 333
No. of Students: SE, TE & BE Computer Engineering

Report:

ACE had organized `` Technical Course Selection" on 10th July 2019. The session time was from 01.00 to 4.00pm. The session was started with introductory speech by Prof Ajhar Shaikh and then it is followed by Mr. Amey Tambe founder of SoftTech Data Security. While speaking about technical Course Selection he initially asked all the faculty members about what will the basic need of technical courses that can be floated for SE, TE, BE after a brief discussion & brain storming session with all the faculty members, he started with one to one session with SE, TE, BE classes then during these session he covered up with following points.

- Think about what you enjoy day-to-day – maybe this could be part of a future job role?
- Explore different job sites and graduate career options to look for ideas on what you'd like to do once you've finished your studies?
- Think about your career goals and the qualifications required as part of a person specification.
- Take a look at our subject guides to get an idea of the types of subjects you could study, and the industries graduates go on to work in.
- Search for courses by subject to see what's available & what actually a student want to do
- What skills are required to succeed in any course?

Be independent and self-motivated
Manage your time effectively
Read and write well
Dedicate time to focus on your course work
Collaborate with your classmates on group projects
Complete your assignments without face-to-face help
Check in frequently to review announcements and participate in online discussions

ACE Event Report

Name of the Event: ``Microsoft Certification"
Date: 18th July 2019
Time: 3.00 to 5.00
Venue: Laboratory Room 330, 331, 333
No. of Students: SE, TE & BE Computer Engineering

Report:

ACE had organized `` Microsoft Certification" on 18th July 2019. The session time was from 03.00 to 5.00pm. The session was started with introductory speech by Prof Chaitanya Bhosale and then it is followed by Mr. Sandeep Jethani, he spoke about technical certification course during this session he covered up with following points.

- Introduction to Mobile Apps
- Phone-gap Introduction
- History
- Architecture
- Introduction to HTML & CSS
- Basics
- Simple website making
- Styling using CSS
- Adding functionalities using jQuery/JavaScript
- Setting up of environment
- Downloading and installing Phone-Gap
- Installing Phone-Gap in IDE's
- Making hello world
- Introduction and usage of Phone-gap Build Services
- User Interface Development with jQuery Mobile
- Introduction
- Creating Pages
- GUI making
- Navigation bar, buttons, grids and Other Controls

Department of Mechanical Engineering

Date and Time	**25th Feb. 2020** 10:00 am to 12:00 Noon
Event Venue	Room No. 527
Organized by	Mechanical Department
Audience	SE Students (60 Students)
Resource Person	Mr. Pathak from MADE EASY Group.

Event Content: -

1. Introduction to Fluid Mechanics
2. Why to study Fluid Mechanics
3. Conceptualization
4. Advantages and Application of Fluid Mechanics.

Details of the event:

A Guest Lecture on "**Fluid Mechanics with Application in Industry**" was organized on 25th February 2020 for Second Year students of Department of Mechanical Engineering, Dr. D Y Patil School of Engineering, Lohegaon, Pune. The lecture was conducted by Mr. Pathak from MADE EASY Group.

He started his talk by introducing the subject Fluid Mechanics to the subject, its importance in day-to-day life, etc.

In the end, he talked about applications of Fluid Mechanics with students.

Assistant Motor Vehicle Inspector (AMVI) Preparation Lecture

Date: - 31st January 2020

Time: - 10:00 am to 12:00 Noon

Venue- Room No. 527

A preparation strategy lecture on Assistant Motor Vehicle Inspector (AMVI) Examination was organized for TE & BE students of Mechanical Engineering department under Competitive Exam Cell of the Mechanical department.

The lecture was conducted by Prof. Amit Shinde from Mechanical Engineering department.

Following points were discussed in detail with the students: -

1. What is Assistant Motor Vehicle Inspector (AMVI) Post?
2. Nature of duties and Promotions i.e. Hierarchy in service
3. Scheme and Syllabus of Examination
4. Strategy for Preparation of AMVI Examination

In the beginning of session, HoD Mechanical addressed the students about importance of Competitive exams in life ahead, the job responsibilities it carries while working in Government among many things.

Around 50 students of TE & BE Mechanical attended the session.

Please find photos of event.

ACE Event Report

Name of the Event: Seminar on Website Development & Web Hosting
Date: 07/09/2018
Time: 11:00 AM to 01:00PM
Venue: Lab No. 330
Students: Students of BE/TE/SE Computer Engineering

Report:

Department of Computer Engineering has organized a Seminar on "Website Development & Web Hosting" on 07th Sept 2018 from 11:00 AM to 01:00 PM for BE/TE/SE Students of Computer Engineering. The lecture was headed by Sagar Tarade & Dhananjay Khade senior developers at cyber Tech Solutions .

The session started by small introduction of the guest by ACE Coordinator Prof. Yogesh Mali. After that speaker started with website development different techniques of website development. Then the session was continued with different platforms for website hosting & its cost estimations. After that a demo was shown to students about web development & web hosting. He even cleared the doubts of students regarding various problems in life with brief communication. In total 125 student of BE,TE & SE benefited under this program.

The points covered are:

1. Website Development
2. Different Website Development Platforms
3. Different Techniques of Web Development
4. Web Hosting
5. Different Web Hosting Platform
6. Demonstration of Web Hosting

The session was followed by student questions about how to host a static & dynamic website for information.

ACE Event Report

Name of the Event: Guest Lecture on Discrete Mathematics
Date: 30/07/2018
Time: 11:00 AM to 03:30PM
Venue: Lab No. 330
Students: Students of SE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Discrete Mathematics" on 30th July 2018 from 11:00 AM to 03:30 PM for SE Students of Computer Engineering. The lecture was headed by Prof. Preeti Jain who is Assistant Professor at Pune Institute of Computer Technology, Pune. Apart from teaching she has conducted several expert lectures in different colleges on Discrete Mathematics.

The session started with Prof. Preeti explaining the Objectives and Outcomes of the session. She gave brief introduction and history about Discrete Mathematics. After this she has covered "Relations" topic. She took examples of relations to explain the students, how relations are used in real life problems. She gave different ways of representing relations. Her way of teaching was very lucid which made every bit of "Relations" easy and it also attracted the student's attention. She took different methods to solve problems based upon relations so as to make the concept easily understandable to everyone.

She has delivered session very smoothly and covered many theory and MCQ questions. She even cleared the doubts of students regarding various problems. The session was very fruitful and interactive, Students solved many examples given by Prof. Preeti Jain.

The points covered are:

1. Introduction to Discrete Mathematics
2. Introduction to Relations
3. Properties of Relations
4. POSET
5. Digraph and Hasse Digram
6. Functions

Principal
Abeenkya DY Patil School of Engineering, Lohegaon, Pune

The session was followed by student questions where they inquired about different problems from Relations and Functions.

ACE Event Report

Name of the Event: Guest Lecture on Digital Electronics and Logic Design
Date: 21/09/2018
Time: 11:00 PM to 01:00PM
Venue: Lab No. 330
Students: Students of SE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Digital Electronics and Logic Design" on 21st July 2018 from 11:00 PM to 02:00PM for SE Students of Computer Engineering. The lecture was headed by Mrs.Ranjana Kedar who is Assistant Professor in K J College of Engineering and Management Research.

The session started by small introduction of the guest by Prof. Vaibhav Kate After that speaker started with Introduction to DELD. He even cleared the doubts of students regarding various problems. In total 90 students of SE benefited under this program.

The points covered are:

1. ASM Algorithmic State Machine
2. VHDL Theory
3. VHDL Program
4. Modelling Styles.

The session was followed by student questions where they inquired about ways to get job opportunities in IOT sector.

ACE Event Report

Name of the Event: Guest Lecture on IOT using Python
Date: 30/08/2018
Time: 11:00 PM to 01:00PM
Venue: Lab No. 330
Students: Students of BE/TE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "IOT using python" on 25th July 2018 from 11:00 PM to 01:00PM for BE/TE Students of Computer Engineering. The lecture was headed by Mr.Parth Shukla who is senior progress lead at CoreCode IT solutions.

The session started by small introduction of the guest by ACE Coordinator Prof. Yogesh Mali. After that speaker started with Introduction to IOT. Application of IOT & python programming. Hardware connectivity for real time IOT application. Career and job opportunities in IOT. He even cleared the doubts of students regarding various problems. In total 202 student of BE, TE & Diploma Third Year benefited under this program.

The points covered are:

1. Introduction to Internet of Things
2. Introduction to Python Programming
3. Applications of IOT
4. Recent Trends in IOT
5. Career and job opportunities in IOT

The session was followed by student questions where they inquired about ways to get job opportunities in IOT sector.

ACE Event Report

Name of the Event: Guest Lecture on Theory of Computation
Date: 25/07/2018
Time: 02:00 PM to 04:30PM
Venue: Lab No. 330
Students: Students of TE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Theory of Computation" on 25th July 2018 from 02:00 PM to 04:30PM for TE Students of Computer Engineering. The lecture was headed by Dr. Rajesh Phursule who is Senior Professor in Imperial College of Engineering & Research. Apart from being the Professor he has also published his book on "Theory of Computation" which is widely used as a supplement book by Pune University students.

The session started with Dr. Rajesh explaining the Introduction of Finite Automata (FA), What are the applications of Theory of Computation. After this he has covered Context Free Grammar (CFG). He took examples of CFG to explain the students, how CFG works. His way of teaching was very lucid which made every bit of Context Free Grammar easy and it also attracted the student's attention. He took different methods to solve the CFG so as to make the concept easily understandable to everyone. He even cleared the doubts of students regarding various problems.

The points covered are:

1. Introduction to Theory of Computation
2. Introduction to Context Free Grammar
3. Derivation, Parse Tree, Sentential Form
4. Ambiguous Grammar
5. Simplification of CFG

D. Y. PATIL SCHOOL OF ENGINEERING COMPUTER DEPARTMENT

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

The session was followed by student questions where they inquired about ways to develop logic of solving a given problem.

Event Notice

Academic Year: 2018-19 **Semester-I**

Name of the event: Expert lecture on Compressors and Applications

Date of the event : 05/09/2018 **Time: 1.30 to 2.30 pm**

Venue : **DYPSOE Seminar Hall**

The Department of Mechanical Engineering of DYPSOE has arranged an expert lecture on Compressors and Applications for TE/BE Mechanical engineering students. All the TE/BE students are informed to attend the same.

Name and Sign of Coordinator: Dr. Imran Ansari

HoD: Dr. A. V. Karanjkar

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

Dr. D. Y. Patil Sch. of Engg. PUNE

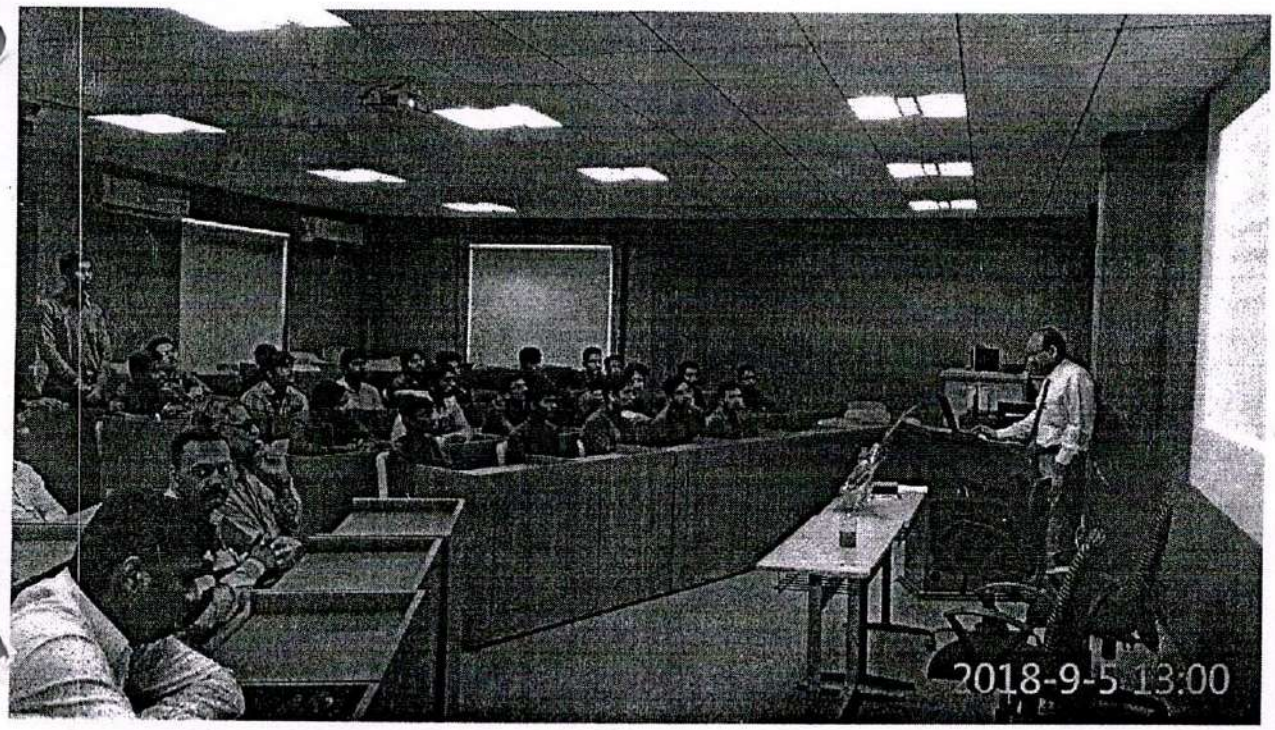
Expert Lecture on 05th September 2018

"Compressors and its applications"

Mr. Kadri Ganesh Kumar, *ELGI Equipments Ltd*, Coimbatore

It gives me great pleasure to present the report on **"Compressors and its applications".** Guest Lecture held in Seminar hall, E&TC Department from 01:30 pm to 02:30 pm.

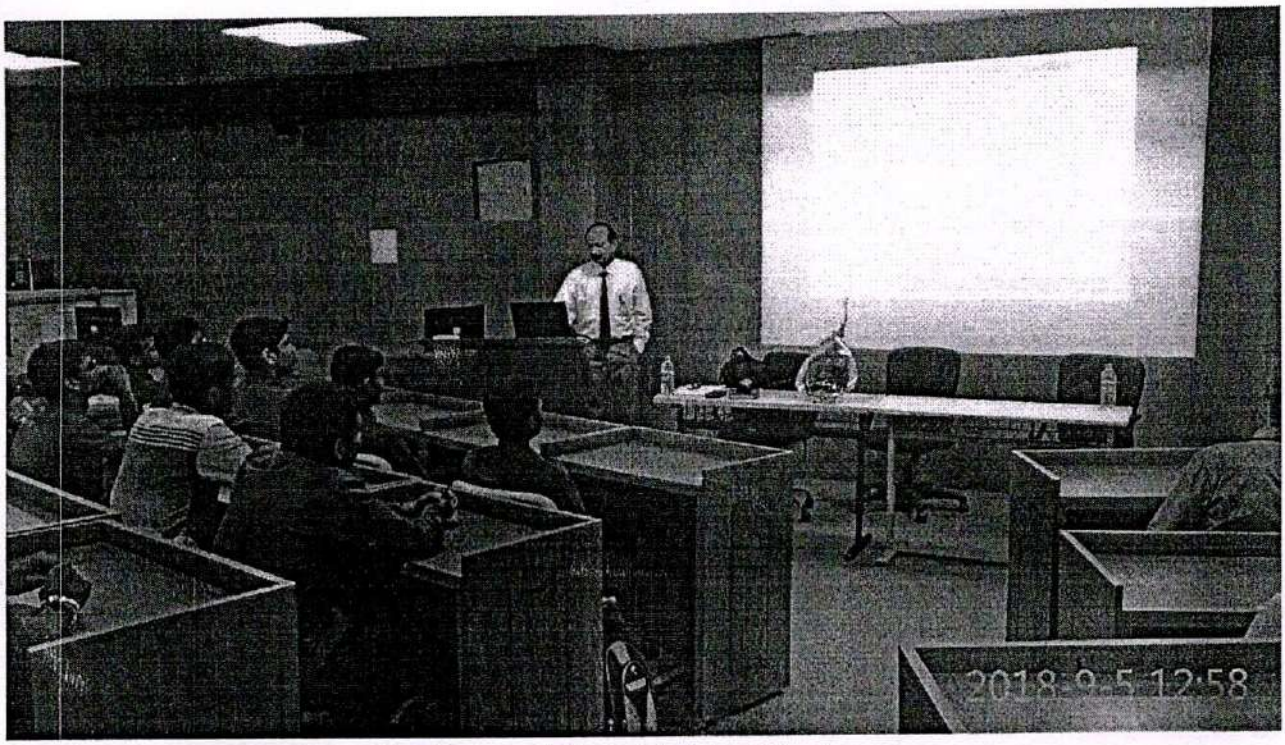


Mr. Kadri Ganesh Kumar Explaining Compressors and its applications

In this lecture, the total 50 students of TE and BE Mechanical were participated from DYPSoE, Mechanical Department. From this lecture, the students had understand the application of compressors.

Principal
Ajeenkya DY Patil School of
Engineering, Lohegaon, Pune

Dr. D. Y. Patil Sch. of Engg. Pune – Mech. Engg. Department



Students participated in Guest Lecture

Mr. Kadri Ganesh Kumar from ELGI Equipments Ltd, Coimbatore had conducted expert lecture on power plant engineering applications in industries. His valuable suggestions and guidance is useful for students to achieve their correct objective in future.

We, the Students of third year and final year Mechanical Engineering are extremely thankful to Hon. Principal **Dr. S. S. Sonavane** of DYPSoE, Lohegaon, Pune. We would like to specially thank to our HoD **Dr. Atul V. Karanjkar** all staff & student coordinators' for providing a full-fledged support in all aspects during the entire expert lecture.

We thankful to **Dr. Mohd Imran Ansari,** has supported and guided us to make this lecture successful.

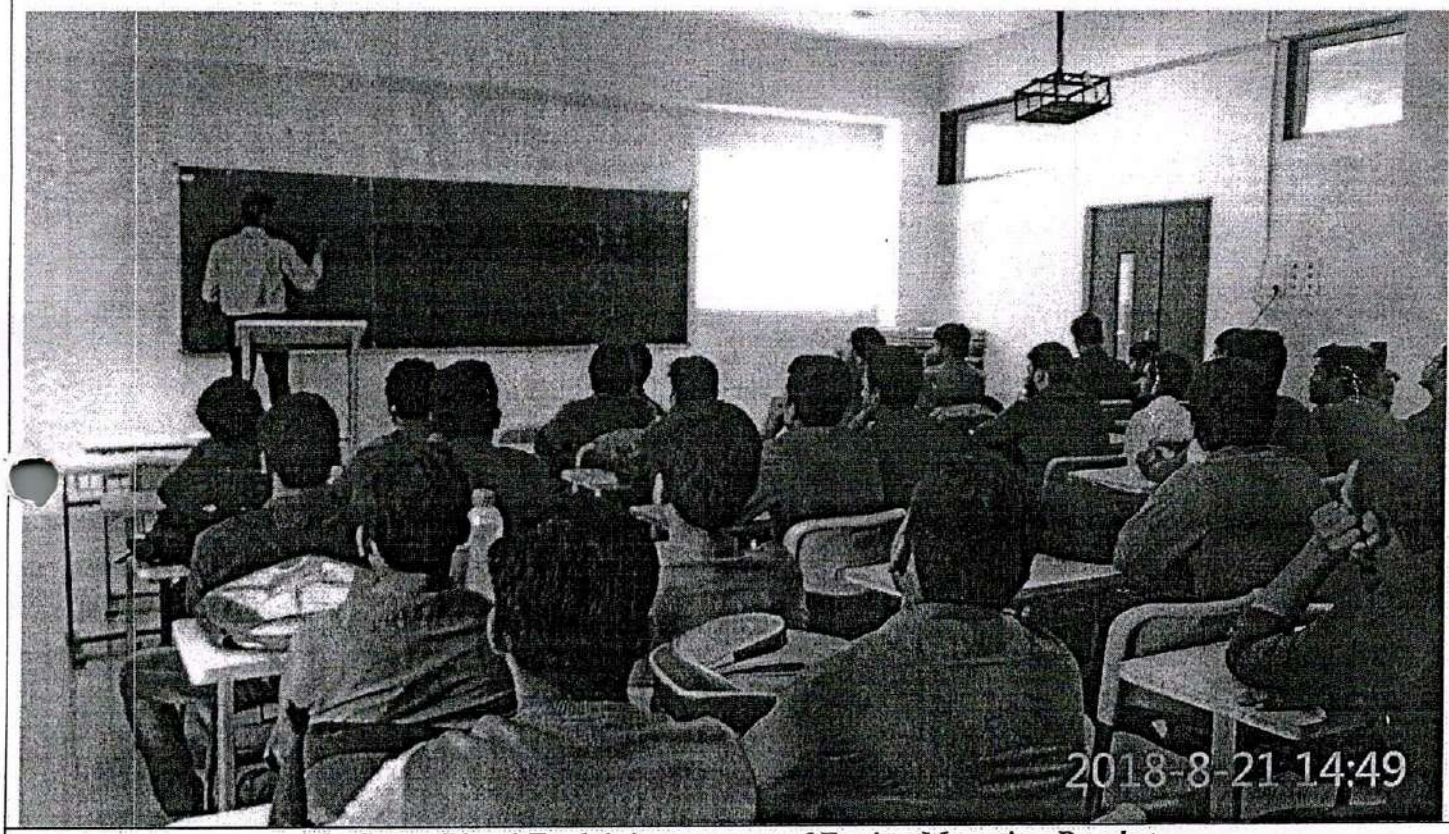
Expert Lecture on 21st August 2018

"Design and Analysis of Engine Mounting Bracket"

Mr. Sagar Birari , Dr. D Y Patil School of Engineering (Polytechnic, Pune.

It gives me great pleasure to present the report on **"Design and Analysis of Engine Mounting Bracket"** Guest Lecture held in Mechanical Department at Class room No.525.



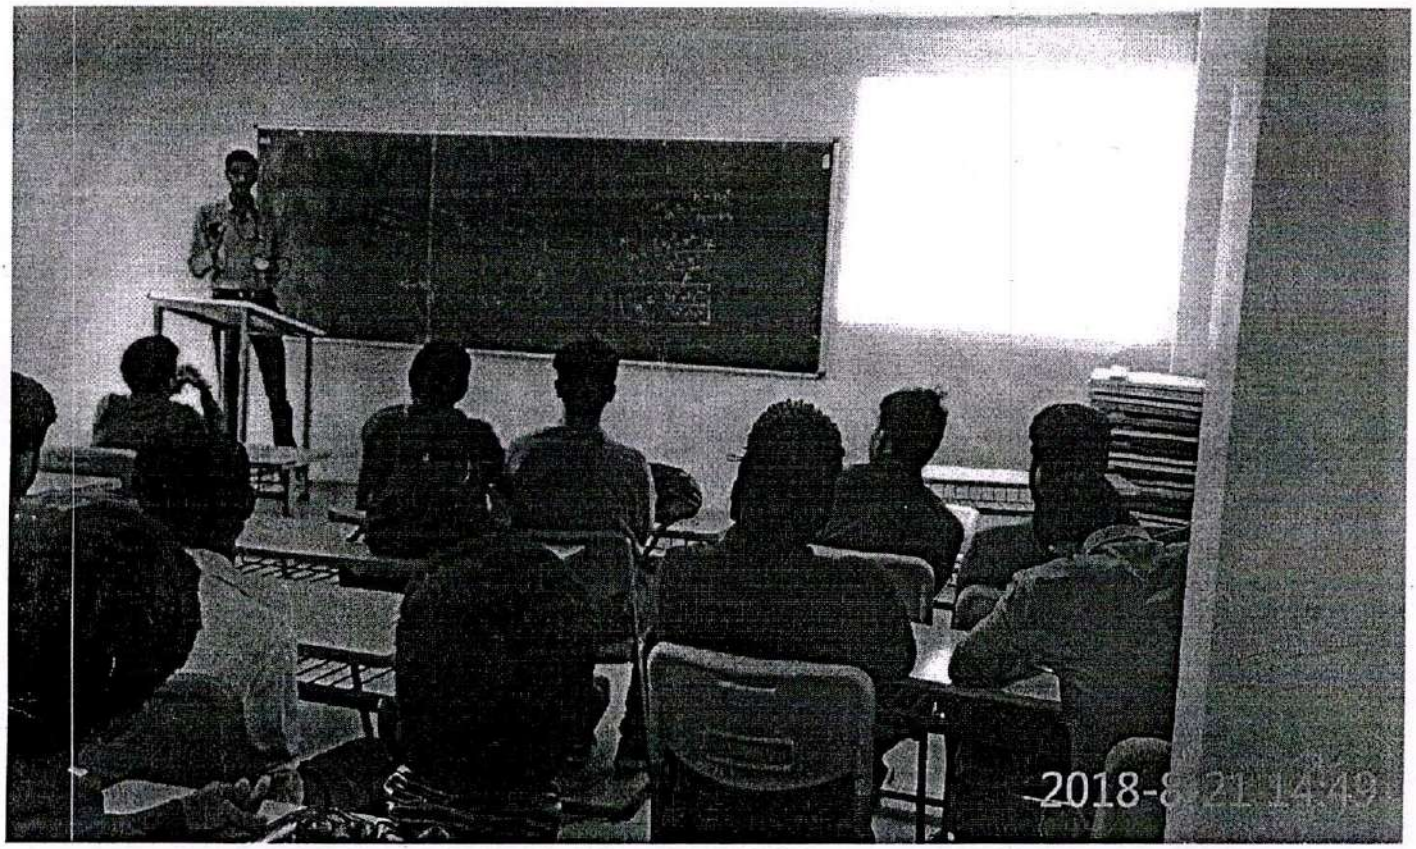
Mr. Sagar Birari Explaining concept of Engine Mounting Bracket

Time: 02.30Pm to 3.30 pm at Institute level.

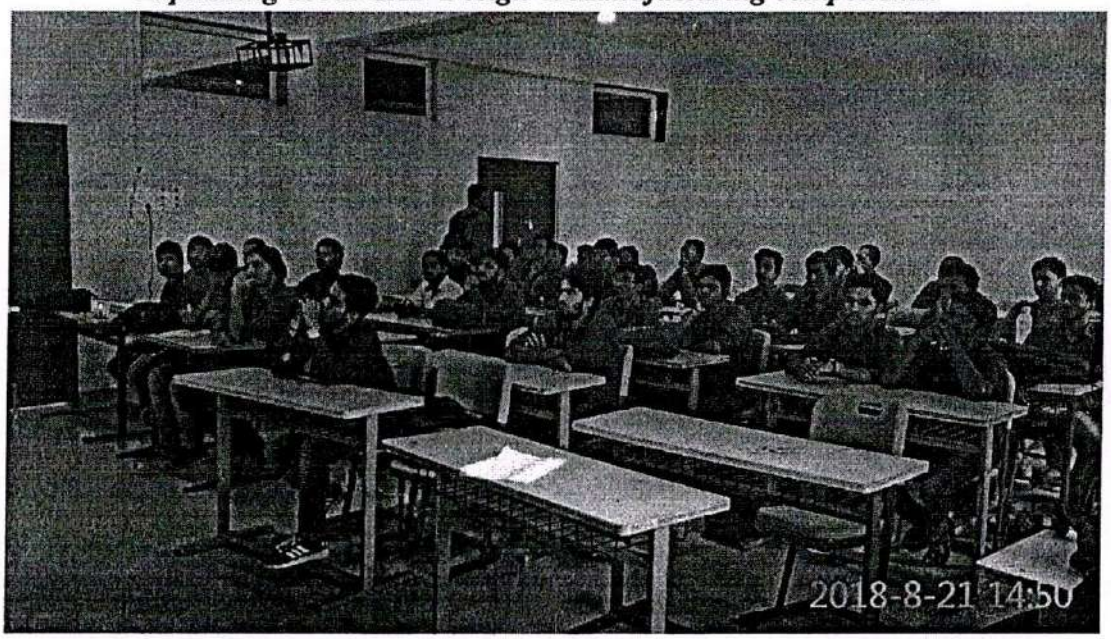
Dr. D. Y. Patil Sch of Engg. PUNE Mech. Engg. Department

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

In this lecture, the total 50 students of TY Mechanical were participated from DYP SOE, Mechanical Department. From this lecture, the students are groomed about Basics of Manufacturing Processes, Body in White (BIW) concept, CAD Model design, Sheet metal design, Research Basics, knowledge about applications of plastic material in Automobile Industries.



Explaining about CAD Design & Manufacturing components.



Students participated in Guest Lecture

Dr. D. Y. Patil Sch of Engg. Mech. Engg. Department PUNE

Principal
Ajeenkya DY Patil School of Engineering, Lohegaon, Pune

Mr. Sagar Birari Sir from Dr. D Y Patil School of Engineering (Polytechnic) had conducted expert lecture on Design and analysis of Engine Mounting Bracket . Their valuable suggestions and guidance is useful for students to achieve their correct objective in future.

We, the Students of third year Mechanical Engineering are extremely thankful to Hon. Principal **Dr. S. S. Sonavane** of DYPSOE Lohegaon, Pune. We would like to specially thank to our HOD **Dr. Atul Karanjkar** all staff & student coordinators for providing a full-fledged support in all aspects during the entireexpert lecture.

We thankful to Prof. Imran Ansari , Sir has supported and guided us to make this lecture successful.
