Introduction:-

Organization has always been sensitive to the issues of gender. As a long term commitment towards this objective, and to follow relevant Supreme Court guidelines on the matter, it has been decided by the management to have a formally written and approved Gender Policy that would ensure the rights and safety of women employed by the organization.

The word "gender" refers to the socially determined ideas and practices of what it is to be female or male. Gender equality means that women and men and girls and boys all enjoy the same rights, resources, opportunities and protections. In order to promote women empowerment and gender equality, policies of the institute are framed to enable specific achievements with the action from all the areas. Institute acknowledges and practices equality, inclusion, and respect for human dignity, fairness and justice for all. We also acknowledge the support for a diversity of talent. We renew our commitment to teaching future generations and being role models. We also commit to counteract any existing inequalities.

There is also reservation for girls in the Engineering at Institute as per AICTE and SPPU norms.

Gender Equality:

This is achieved when women and men enjoy the same rights and opportunities across all sectors of society. e.g. Recruitment for jobs only based on merit

Gender Equity:

Fairness treatment for men and women mainly for indictment. e.g. Reserved seats for women in jobs or committee. Programs like safety for women, celebration of international women's day comes under gender equity.

Objectives:-

Institute through its proactive faculty, staff and student, will annually implement the following:

- To promote equal opportunities for male and female staff and create a gender sensitive working environment at the workplace.
- To promote and ensure gender equity and equality (in terms of rights and access to resources, responses and services)

- To act as an effective deterrent against gender discrimination and harassment both in workplace and in programmer intervention areas.

Stake Holders:-

All Genders

Gender equality denotes women having the same opportunities in life as men, including the ability to participate in the public sphere. Gender equity denotes the equivalence in life outcomes for women and men, recognizing their different needs and interests, and requiring a redistribution of power and resources. Both are indispensable and need to be incorporated into the Gender Policy of the organization. Department of Computer Engineering of Ajeenkya D.Y.Patil School of Engineering, Lohegaon, Pune organized a **Webinar on Gender Sensitization**

Dr. Pankaj Agarkar H.O.D.of Computer Engineering department had given the introduction about the speaker Ms.Parul Singh.

Ms.Parul Singh began her addressal. She started with the basics of Gender sensitization, what is Gender sensitization, its need in today's world, and why it's high time that workplaces start embracing Gender sensitivity effectively. Our biases and prejudices are unknown to us, and this is where Gender sensitization is required.

She discussed what kind of behavior promotes gender inequality, asked everybody to introspect their actions, because gender bias leads to a performance loss, absenteeism and stagnant growth of organization.

Gender sensitization means representation and acceptance of a person without being overshadowed by their gender. Gender sensitivity leads to voices being heard, which promotes holistic growth of everyone and the organization.

Details of the event:

This event was graced by the presence of eminent guest Dr.Ratnaprabha Rajguru, The Elite clinic, Pune. At the beginning guest was welcomed by our beloved director Dr.Kamaljeet Kaur mam, then all were waiting to listen from the guest so guest speech was started, Dr.Ratnaprabha Rajguru has addressed a topic that affects each and every one of us: **mental health and happiness**. In this fast-paced and demanding world we live in, it is crucial that we prioritize our mental well-being alongside our academic pursuits. So, let us take a moment to reflect on how we can nurture our minds and cultivate a sense of happiness and fulfillment in our lives.

First and foremost, it is essential to recognize that mental health is just as important as physical health. Just like we take care of our bodies through exercise and proper nutrition, we must also attend to our mental and emotional needs. Mental health encompasses our thoughts, emotions, and overall psychological well-being. It affects how we think, feel, and act, ultimately shaping our perception of ourselves and the world around us.

There are various challenges as students—academic pressures, social expectations, and personal setbacks. It is crucial to acknowledge that it is normal to experience stress, anxiety, and even sadness at times. However, we must not let these challenges define us or overpower our lives.

We have the power to take control and actively work towards our mental well-being.

when it comes to their safety, dignity, and overall well-being. It is our responsibility as a society to address these issues and enact laws that protect and empower women, ensuring their equal rights and opportunities.

Crime against women encompasses a wide range of offenses, including domestic violence, sexual assault, harassment, dowry-related violence, acid attacks, human trafficking, and gender-based discrimination. These crimes not only inflict physical and emotional harm on women but also create an environment of fear and insecurity, restricting their freedom and hindering their full participation in society. To combat these crimes effectively, we need strong and comprehensive laws that act as deterrents and provide justice to the victims. She has highlighted some key aspects of the laws that can play a pivotal role in addressing crimes against women. Moreover it was a very informative and motivative session.

Part III: How is the Gender dimension in curriculum?

(A statement needed from the Principal/ Director in 500 words)

Curriculum resides in relationship with the concept of gender in complex and multifaceted ways. Such a relationship acknowledges also the interconnectedness of curriculum, with assessment and pedagogy as well as with gender and demands that we look beyond gender as 'sex-group differences' to a deeper understanding of this notion as a cultural artifact, with more nuanced and complex understandings of boys and of girls and how gender affects young people's identities as learners, as consumers of knowledge and skills, as well as differentially mediating their learning and ultimately their attainment.

Engineering, Lohegaon, Pune

Paper Bag Distribution:

To reduce the use of single-use plastic bags and promote the use of eco-friendly alternatives, our school organized a paper bag distribution drive. The event took place in a prominent public area where many people gather, such as Pride world city, Charholi(bk).

Also, interacted with the public, explaining the harmful effects of single-use plastic bags and promoting the benefits of using reusable paper bags. The paper bags were distributed to individuals free of charge, encouraging them to switch from plastic bags to a more sustainable option. Participants were educated on the proper usage and care of the paper bags to ensure their long-term utility.

Seed Distribution:

In addition to paper bag distribution, ADYPSOE organized a seed distribution drive to promote green spaces and encourage individuals to grow plants and trees. Seeds of various plant species suitable for the local climate and environment were procured or collected in advance.
